

# Grade 2: Commercial

Grade 2: Commercial Fencing, Gates & Accessories is built to last and easy to install! With larger vertical pickets, horizontal rails and thicker gauge, step into the BMW 5 series of ornamental, barrier fencing. Mostly used for public areas and high traffic areas, Grade 2: Commercial is also a popular upgrade for homeowners with higher-end homes. The bolder pickets and horizontal rails define your boundary with an aura of sophistication second to none.

The Commercial aluminum fence system can be applied to apartment complexes, factories, swimming pools, schools, shopping centers, churches, expensive homes or cemeteries. All commercial fence panels are shipped with Pressed Spears on the top of each vertical picket. Flat topped pickets are available upon request.
