DIVISION ACTIVITY

CALLS FOR SERVICE

District 1

Includes all areas within the city limits that are south and east of Interstate 270 and west of the Scioto River. Also includes I270 northbound from US 33 westbound ramp up to Sawmill Road.

District 2

Includes all areas within the city limits that are east of the Scioto River, west of Sawmill Road, south of the Delaware County Line and north of Martin Road. Also includes I270 westbound from Sawmill Road to US 33 and the ramp from I270 southbound to US 33 westbound.

District 3

Includes all areas within the city limits that are north of Brand Road and west of the Scioto River. All addresses that are within the city limits on Brand Road including the intersections of Brand Road/Muirfield Drive and Brand Road/Dublin Road are covered by this district.

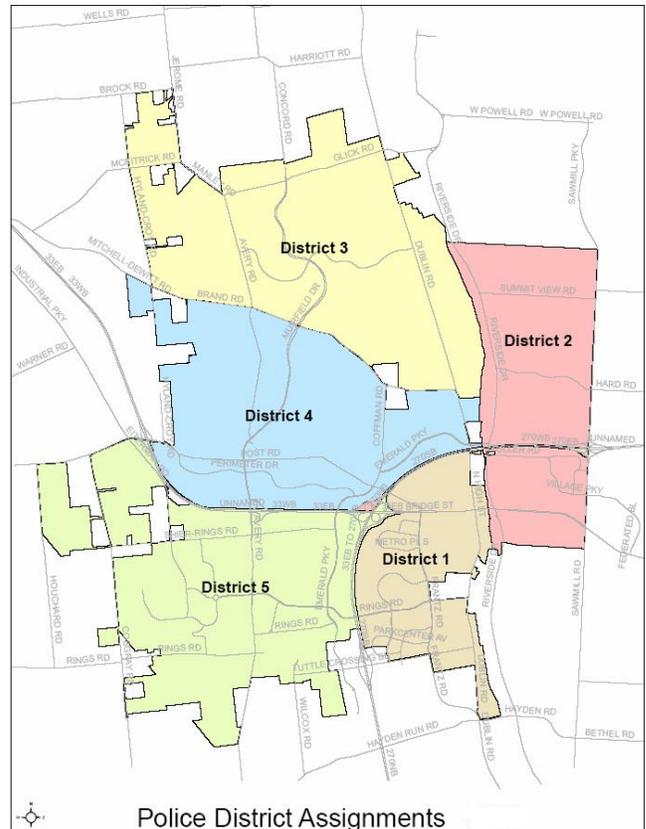

District 4

This district includes all areas within the city limits that are south of Brand Road, north of US 33 and west of Interstate I270, Browning Court and Dublin Road. Addresses that are south of Brand Road to the I270 overpass that are within the city limits are part of District 4.

District 5

This area includes all areas within the city limits that are south of the north edge of US 33 and west of I270. This area also covers both northbound and southbound lanes of I270 between Tuttle Crossing and US 33 and all ramps to and from I270 south of US 33.

NOTE: The following is a breakdown of calls for service. They represent initial reports. The number of actual offenses may be different after officer's investigation.

WORKLOAD ANALYSIS REPORT

January – March 2012

The January through March 2012 Workload Analysis Report reflects a total of 6,311 calls for service. This figure does not include traffic stops, foot patrols or courtesy cards initiated by officers or activity occurring in District 0 (calls outside city limits/mutual aid). The average response time for calls was five (5) minutes from the time the call was received by our communications technician until the first responding officer arrived on the scene. The average time to reach a disposition and clear the call was nineteen (19) minutes.

The Workload Analysis Report also allows us to track activity levels by hour by day. We analyze this data to determine our staffing levels for patrol shifts. By reviewing our Workload Analysis Report, you can see that our busiest hour of activity was between 9AM and 10AM. Seven hundred twelve (712) calls for service were received during this time frame. The next busiest hour was between 10AM and 11AM when five hundred fifty-eight (558) calls for service were received. The ability to obtain this type of data is critical to effectively staff our patrol shifts.

While reviewing this report it is important to note that various factors can influence average response times. "Stacking" of calls where lower priority calls are held so that calls of a more urgent nature can be dispatched and responded to commonly occurs. "Cross dispatching" where an officer is dispatched out of district to a call will also increase response time. Low priority calls that are received during roll call/shift change negate an immediate response from patrol officers thus increasing response times.

As a matter of practice, we like to keep our average response time for all calls occurring inside the City under ten (10) minutes. As previously stated, there are certain incidents where that becomes impossible. However, our goal is realistic and as demonstrated by the January through March 2012 report was met. In an effort to assist the reader in reviewing the Workload Analysis Report the following is a list of some relevant interpretations for review.

District 1 Totals

1,167	Calls for Service
4	minute average response time
20	minute average time to resolve call

District 4 Totals

1,668	Calls for Service
5	minute average response time
19	minute average time to resolve call

District 2 Totals

1,239	Calls for Service
4	minute average response time
22	minute average time to resolve call

District 5 Totals

1,030	Calls for Service
5	minute average response time
22	minute average time to resolve call

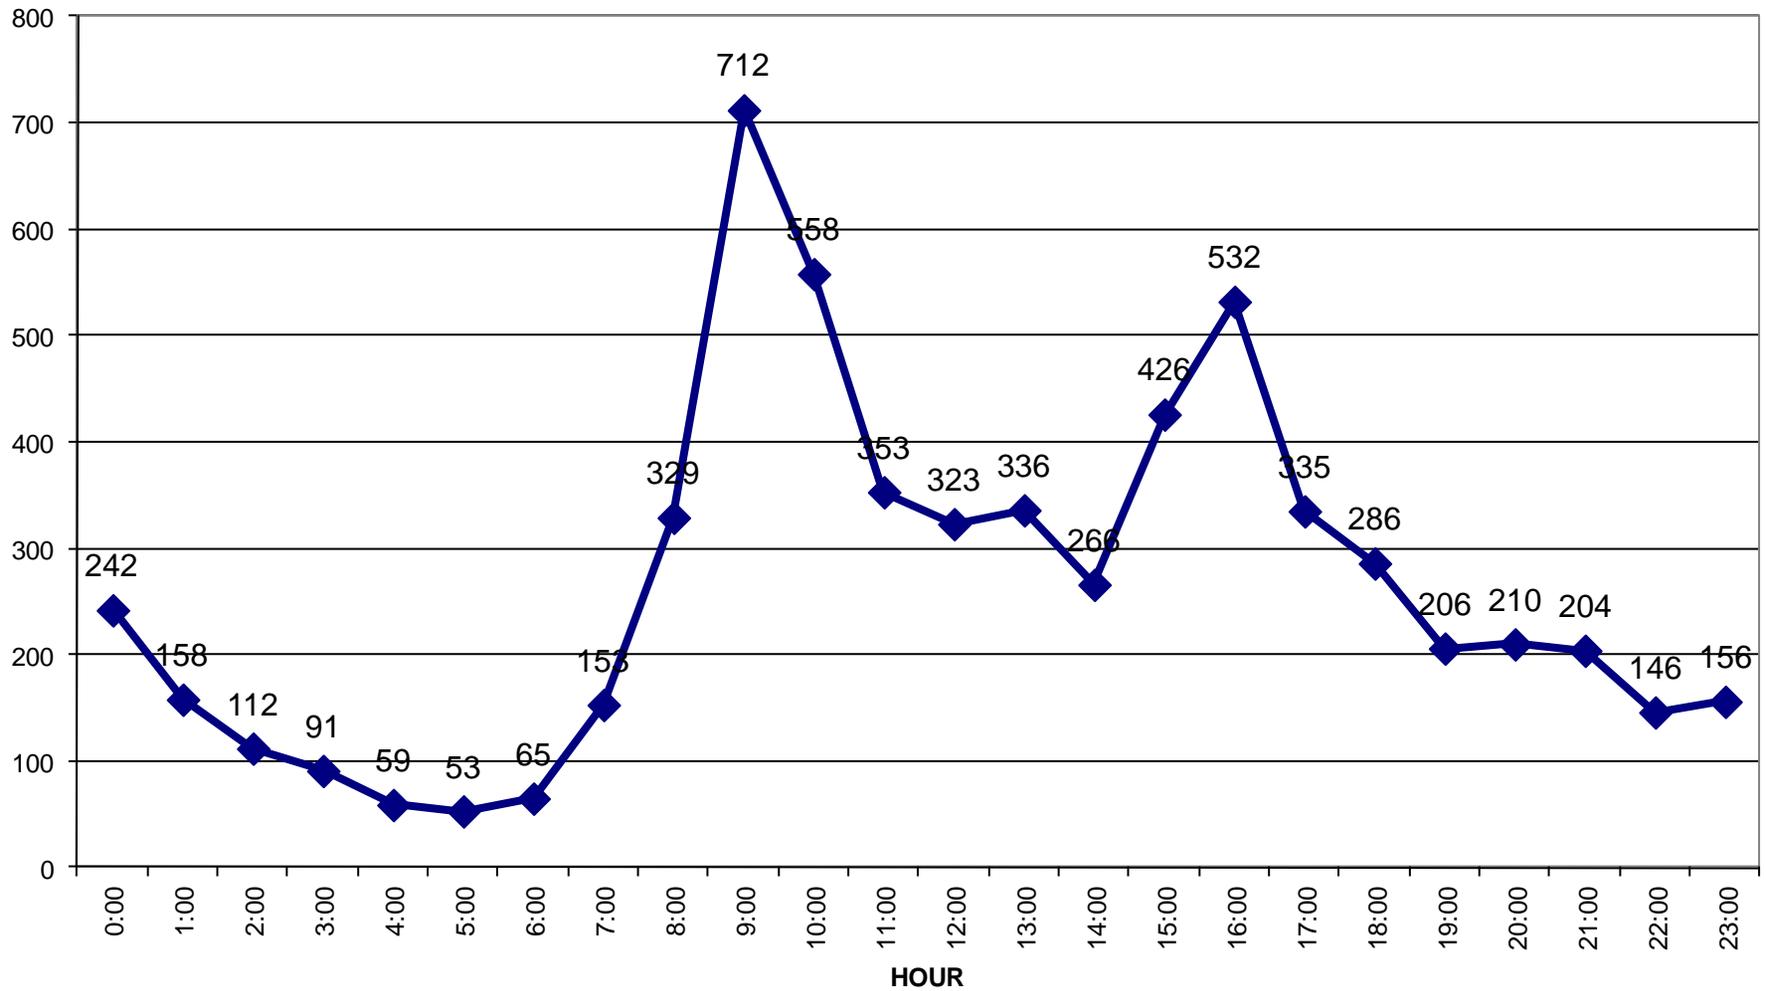

District 3 Totals

1,207	Calls for Service
6	minute average response time
14	minute average time to resolve call

Total Calls for Service

6,311	Calls for Service
5	minute average response time
19	minute average time to resolve call

Calls for Service by Time of Day January - March 2012

DETECTIVE SECTION

January – March 2012

CASE MANAGEMENT SUMMARY

Category	2012 YTD

3. No Further Action:	5
4. Referral to Other Agency:	0
5. Missing Persons/Runaways:	2

COMMUNITY EDUCATION UNIT

January – March 2012

Community Concerns:

The Dublin Division of Police continues to address concerns identified in the community survey. This survey revealed the “Top Five Policing Issues” as identified by Dublin residents.

The division collects information from a variety of sources in order to garner feedback to ensure that resources continue to be allocated toward the main concerns of the community. Several of the main concerns voiced by the community in this survey are listed below.

1. Reduce Property Crimes
2. Readiness to deal with major crimes and emergencies
3. Solving crimes
4. OVI Enforcement
5. Responding to an addressing school crime

The survey also revealed the “Top Five Most Important Police Programs” as identified by Dublin residents.

1. Crime Reduction Programs
2. Neighborhood Watch
3. Traffic Enforcement Unit
4. School Resource Officers
5. DARE

A survey of Dublin Division of Police personnel also revealed what are believed to be among the “Top 5 Community Issues” that the division should focus efforts toward addressing.

1. Reduce property crimes
2. Traffic enforcement
3. Reduce traffic crashes
4. Readiness to respond to critical incidents
5. Substance abuse issues

The Dublin Division of Police collects information about community concerns and crime from other sources including;

1. Internet sources such as; City of Dublin website, and social media.
2. City Council and other meetings attended by police personnel.
3. Direct feedback to officers on patrol and in the schools.
4. Quarterly surveying of public contacted by police on traffic stop or call for service.

As part of the Dublin Division of Police's continuing efforts to better understand community and residents' concerns, the Dublin Police sent an e-mail to select civic and homeowner association leaders and asked them to take a few minutes to complete an online survey. This process will take place every 90 days or so where the Dublin Police will select different civic, homeowner, and/or business association leaders and ask them to complete this survey. This survey is administered by the division's Law Enforcement Planner Mr. Tom Hirschy.

Sections of this survey are included herein, which amplify concerns of the community and how our division has addressed them.

Question 3: Can you describe any potential problems that could have a bearing on local law enforcement activities within your neighborhood?

Lakes at Dunmere Condo Association – “We had vandalism in the past, should it reoccur we will be in touch.”

Bellaire-Limerick Civic Association – “The potential for someone being hit by accident.”

Riverside Woods Homeowner Association – “So far, we haven't had any break-ins that I know of. We are a small neighborhood that looks out for each other.”

Question # 4: Do you have any recommended actions to address any current concerns or potential problems in your neighborhood?

Lakes at Dunmere Condo Association – “N/A”

Bellaire-Limerick Civic Association – “An occasional patrol particularly in the late afternoon after high school.”

Riverside Woods Homeowner Association – “Keep patrolling the area. Your presence is a deterrent.”

Question # 5: Have the Dublin Police made any progress toward addressing any previously identified concerns and/or problems in your neighborhood? If so or if not, please explain.

Lakes at Dunmere Condo Association – “Yes. The vandalism has stopped. We had a community meeting with police and have a contact should it reoccur.”

Bellaire-Limerick Civic Association – NO ANSWER PROVIDED.

Riverside Woods Homeowner Association – “Haven't had issues with crime thankfully. We have one home here that's a concern because it's declared uninhabitable by Code Enforcement & Franklin County Department of Health. I worry that this house could be a target for theft.”

Law Enforcement Concerns:

Law enforcement concerns during this period were focused on crime trends within the community. Law enforcement concerns were developed by collecting and assessing information from the community, and application of division goals and objectives.

Significant law enforcement concerns for this period:

1. Robberies in and around Dublin.
2. Theft from vehicles. This type of crimes continues to be a pervasive challenge and demands division attention and resources. This crime is affecting the greater central Ohio region, and efforts are being made to cooperate with other agencies to prevent and solve thefts. Specifically, the division is focused on reducing theft from parked vehicles. The majority of these thefts occur in large parking lots and in residential areas overnight. Crime analysis has led to significant patrol efforts being focused on these “hot spot” theft environments.
3. Traffic related problems and crashes on roadways
4. Preparation for emergencies, critical incidents, and issues of significant community concern.

The issues identified by the survey of selected homeowner and civic association leaders are consistently the same or similar to those targeted by Dublin Police.

The top 3 concerns generally fall into the categories listed below.

1. Traffic Concerns – These ranged from speeding, shortcutting through neighborhoods, parking complaints, need for 4-way stop sign, vehicles running through stop signs without stopping, and vehicles failing to yield to pedestrians in the crosswalk. Most of the responding associations had their own individual traffic issue.
2. Crime Concerns – These ranged from concerns about residential burglaries (break-ins), vandalism (graffiti), vandalism to vehicles and houses, and open garage thefts.
3. Disorder Concerns – These ranged from graffiti, private fireworks, and teens loitering in certain neighborhoods.

As a goal driven organization the Dublin Division of Police continues to focus efforts on 2012 goals of;

1. Reduce thefts throughout the city.
2. Reduce burglaries/breaking and entering throughout the city.
3. Reduce traffic crashes occurring in the city.
4. Readiness for critical incidents, major crimes, and issues of significant community concern.

The most common crime issue during this period continued to be theft related crimes.

2012 Total Thefts – January 1st, 2012 through April 30th, 2012

<i>Thefts throughout the City (2011 Total = 437)</i> Type of Theft	2012	2011	% Change
Bicycles	1	0	+100%
From Building	14	23	-39%
From Coin Op Machine	0	0	---
From Motor Vehicle	71	58	+22%
Motor Vehicle Parts/Accessories	10	6	+67%
Other	38	28	+36%
Pickpocket	0	0	---
Purse Snatch	0	3	-100%
Shoplifting	16	16	0%
Total	150	134	+12%

Recommended Actions:

The division continues the “Like It – Lock It” campaign.

The prevention and reduction of thefts and burglary continues to be a division-wide effort.

Prevention and enforcement actions are recommended to include;

1. Conducting extra patrols in high theft areas as identified by crime analysis
2. Conducting surveillance operations to deter and detect crime
3. Aggressively investigating related cases
4. Increase liaison with the business and civic leadership in Dublin to promote stronger relationships toward enhance prevention efforts.

The division continues all efforts to make the roadways safer in Dublin. Although crashes continued to occur the number has been maintained at or near the shift goals.

Detailed analysis of crash data allows shifts to track activity and intelligently apply resources. An example of this type of tracking and analysis is given below.

Top Traffic Crash Areas for the reporting period.

1. I-270 Corridor (US 33 to Sawmill)
2. US 33 Corridor (Post Road to Frantz)
3. US 33 Corridor (E/O Frantz to Riverside)
4. Avery-Muirfield Drive Corridor (Shier Rings to Post)
5. SR 161 Corridor (Riverside to Sawmill)
6. Hard Road (Riverside to Sawmill)

Recommended Actions:

The following strategies should continue;

1. Complete traffic education, prevention and targeted enforcement efforts focusing on the stated top accident corridors.
2. Continue prevention and enforcement efforts with a focus on factors most likely to cause crashes.

The primary causative factors for traffic crashes included:

- Following Too Closely
- Failure to Control
- Failure to Yield
- Improper Lane Change
- Driver Inattention

The division continues preparation for emergencies, critical incidents, and issues of significant community concern. These preparations ensure the division's readiness for incidents which may occur unexpectedly, and for the number of special events the city hosts.

Recommended Actions:

The division continues to send officers to training courses aimed at strengthening core competency in areas related to this division goal.

The division continues the internal training focused on preparing units to effectively respond and support related occurrences. This includes training, exercises, and drills conducted at the shift level, and intra-agency activity involving multiple units.

**Progress made towards addressing previously identified concerns and problems:
(Also see progress on goals and objectives)**

A February robbery at Sunoco in Dublin involved the murder of a store employee. This robbery and murder were investigated employing intense cooperation between several law enforcement agencies resulting in the arrest of 4 suspects.

There has been positive progress made toward the reduction of theft from vehicles. Significant division resources have been used to target this crime in a variety of ways from extra patrol in high theft areas to conducting special surveillance. Timely and actionable information was provided to officers to maximize prevention and enforcement efforts. Thefts from vehicles and theft in general has been held close to or below 2011 levels.

Crime alerts were sent out to educate community members about thefts and toward greater prevention.

For most of 2012 theft has been reduced below comparable 2011 levels.

Crime analysis and subsequent prevention strategies contributed to focused division efforts. Numerous surveillance and prevention details were conducted by division personnel using information derived from crime analysis.

Theft in schools has been reduced from 2011 levels, and School Resource Officers continue to address the problem with education and enforcement strategies. Theft in school buildings is largely due to opportunity. School Resource Officers have focused efforts to reduce this opportunity while increasing their presence in "hot spot" areas within school buildings.

The division has sustained the CAPITAL networking group. CAPITAL (Corporate and Police Information Teamwork and Liaison) meets every other month and provides a venue for police and corporate and civic organizations to share resources and discuss crime and safety related issues.

The overall crime rate has generally remained lower than comparable 2011 levels.

The division maintained focused efforts toward traffic safety and the reduction of crashes. Patrol shifts increased enforcement efforts and division leaders regularly discussed problem areas and possible solutions. An awareness of and focus on the top 5 crash locations was maintained in order to reduce crashes and enhance overall safety on the roadways.

The top crash locations are listed below and continue to be a focus area for enforcement by patrol officers, and other traffic safety initiatives.

1. I-270 Corridor (US 33 to Sawmill)
2. US 33 Corridor (Post Road to Frantz)
3. US 33 Corridor (E/O Frantz to Riverside)
4. Avery-Muirfield Drive Corridor (Shier Rings to Post)
5. SR 161 Corridor (Riverside to Sawmill)
6. Hard Road (Riverside to Sawmill)

Overall traffic crashes have been reduced or kept very close to 2011 levels. Traffic safety efforts have continued to contribute to safety with the completion of infrastructure enhancements such as crosswalks and additional enforcement activities.

The division conducted training events and exercises to enhance readiness for critical incidents and events of significant community concern.

The division conducted internal training as well as sending members to training courses. Some examples of supporting accomplishments are given below.

1. All sworn division personnel completed firearms and less-lethal weapons training.
2. Shifts completed drills, exercises and inspections in support of readiness.
3. Members of the Community Education Unit completed emergency plans updates, drills, planning with Dublin City Schools in support of increased readiness.
4. As a program in high demand the Personal Defense Program (PDP) was delivered to several community groups, and within the Dublin Schools.

Other Significant Law Enforcement Issues:

Division personnel supported several other activities during this period that required law enforcement planning and resources.

1. Direct support to and from other agencies in support of investigations and law enforcement.

Community Relations Activity and Crime Prevention Events:

Officers completed station tours and visits to schools and youth groups as requested.

Civic and homeowner association meetings attended by officers.

Continued the "Meet the Chief of Police" events.

Distributed "Anti-Theft Stickers" to local hotels

Conducted the Personal Defense Program (PDP) for community groups.

Promoted Neighborhood Watch – Established the watch at The Village at Tuttle Crossing.

Neighborhood Watch Program and Civic Associations:

Attended Neighborhood Watch meetings and distributed information to local groups.

Division representatives attended civic association meetings to share crime and safety related information and to collect community concerns and recommendations.

Communication maintained with these groups toward greater sharing of information.

A new watch was established at The Village at Tuttle Crossing.

Operation KidPrint and Block Parent Programs:

Provided "Kid Facts Kits "directly to residents and at community events.

Personal Defense Program:

This popular program is delivered to the schools and community groups on demand when resources permit. During this period programs were delivered to Dublin City Schools, Cardinal Health and several other community groups. This program continues to be very popular within the community.

Police Interns:

None during this period. A Capital University student is planning to intern in the Summer of 2012.

Citizen Police Academy:

Planning is underway for the initial delivery of this program in August 2012.

D.A.R.E. and School Resource Officer Programs

These programs continue to make direct contributions to improving the safety and educational environments in which school resource officers are assigned. D.A.R.E. and other programs delivered by the division were completed as scheduled.

During this period School Resource Officers delivered programs and services to 12 Dublin City Schools. In addition to delivering D.A.R.E. School Resource Officers presented lessons on the following topics;

Constitutional Law

Traffic Law

Bullying

Sexual Assault Avoidance

Traffic accident investigation science

Moreover, officers assigned to schools provided over 30 hours of student, parent, and staff counseling services as well as attending over 20 related meetings.

School Resource Officers were actively involved in school safety issues, and directly contributed to school safety planning and implementation of related tactics.

Quality of Service Survey:

This survey program gleans information from randomly selected recipients and gives the division useful feedback on the quality of service provided. Although not statistically significant in quantity, the surveys do provide useful information to division leadership on how officers are performing and perceptions within the community about the division. The survey is limited in scope as it only reaches people that have called police for some reason or been contacted via a traffic stop.

No survey data is included in the report for this period. Respondent survey return rates vary greatly throughout reporting periods. Data from adjoining reporting periods is sometimes combined to provide enough returns to report meaningful results.

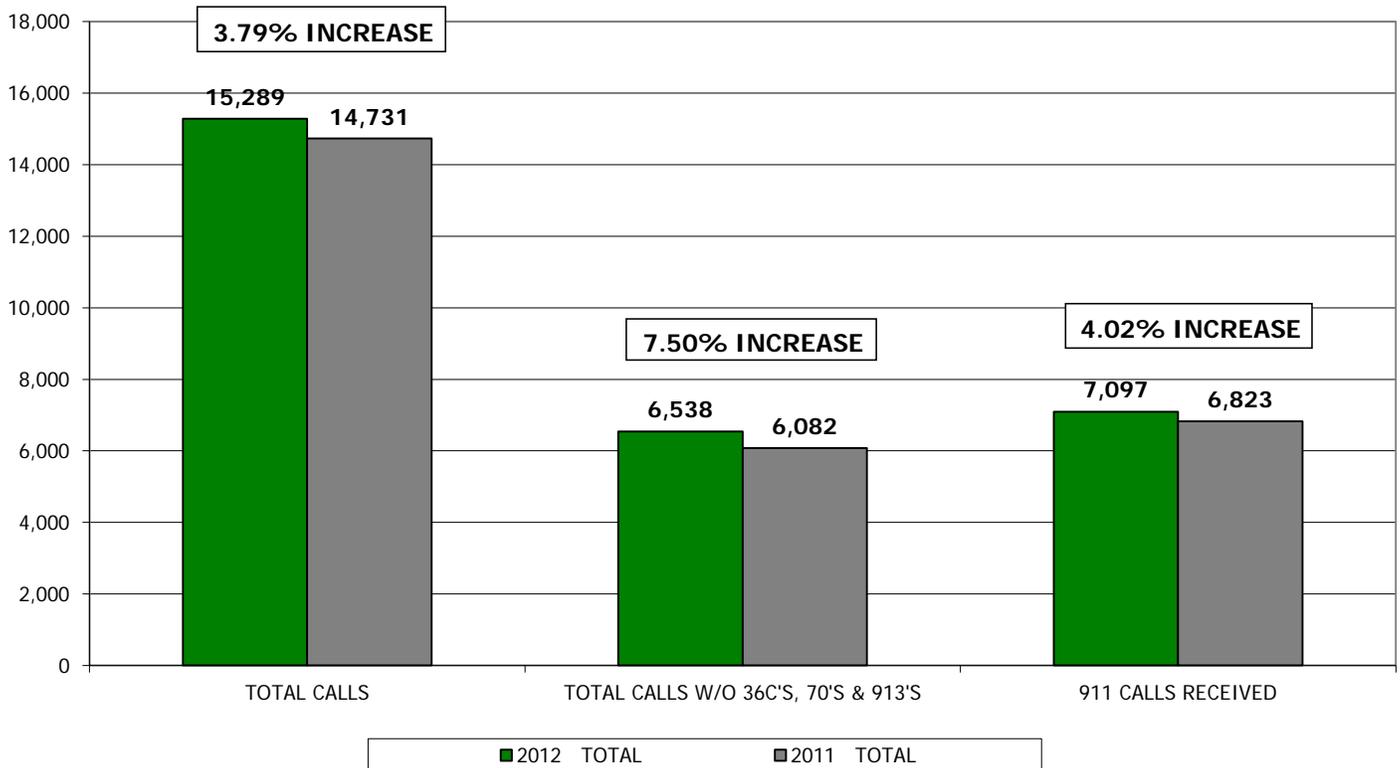

CALLS FOR SERVICE SUMMARY

ACCIDENT ANALYSIS January - March 2012

January 1, 2012 through March 31, 2012 there were 190 reported traffic accidents, resulting in an average 2.09 accidents/day. Compared to 2011, accidents decreased 3.6% (2012 = 190; 2011 = 197).

Personal injury accidents (35) accounted for 18.42% of the total. Property damage accidents accounted for the majority of our activity with 125 reports being filed (65.79%). Private property collisions accounted for 30 (15.79%) reports being filed.

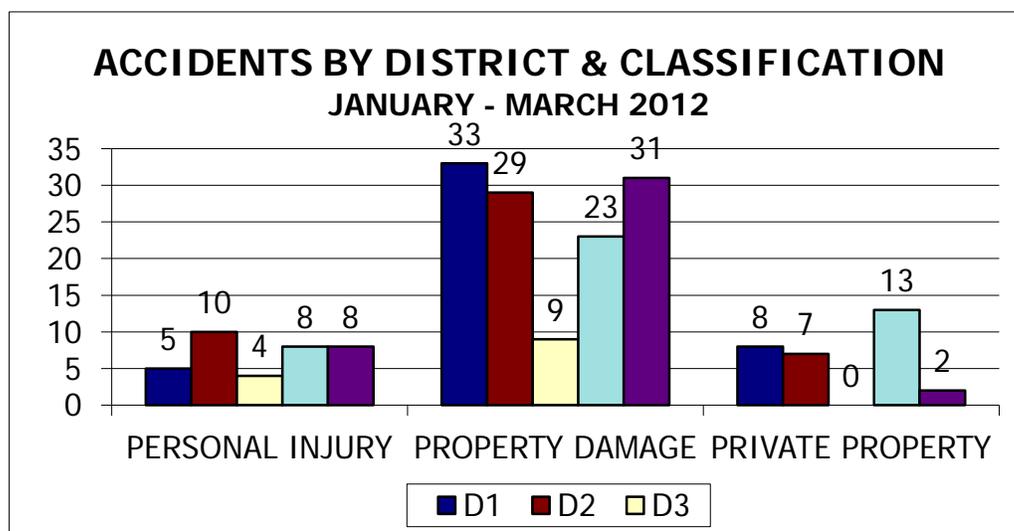

Districts 1 and 2 experienced the majority of accidents (46 or 24.21% each) followed by District 4 with 44 accidents (23.16%). There were 13 collisions in District 3 (6.84%), and in District 5, 41 accidents (21.58%). The busiest day of the week for accident activity for the reporting period was Thursday with 36 accidents (18.95%) reported. The second busiest day was Friday with 35 accidents (18.42%) reported. Accident activity for the remaining days of the week were as follows: Sunday = 15 (7.90%); Monday = 29 (15.26%); Tuesday = 29 (15.26%); Wednesday = 27 (14.21%); and Saturday = 19 (10.00%).

The most frequent contributing factor was Following Too Closely, which accounted for 56 or 29.47% of the accidents. The next most recurrent contributing factor was Failure to Control accounting for 30 or 15.79% of the accidents for the reporting period. The busiest time of day for accident activity was between 5PM-6PM with 28 (14.74%) accidents.

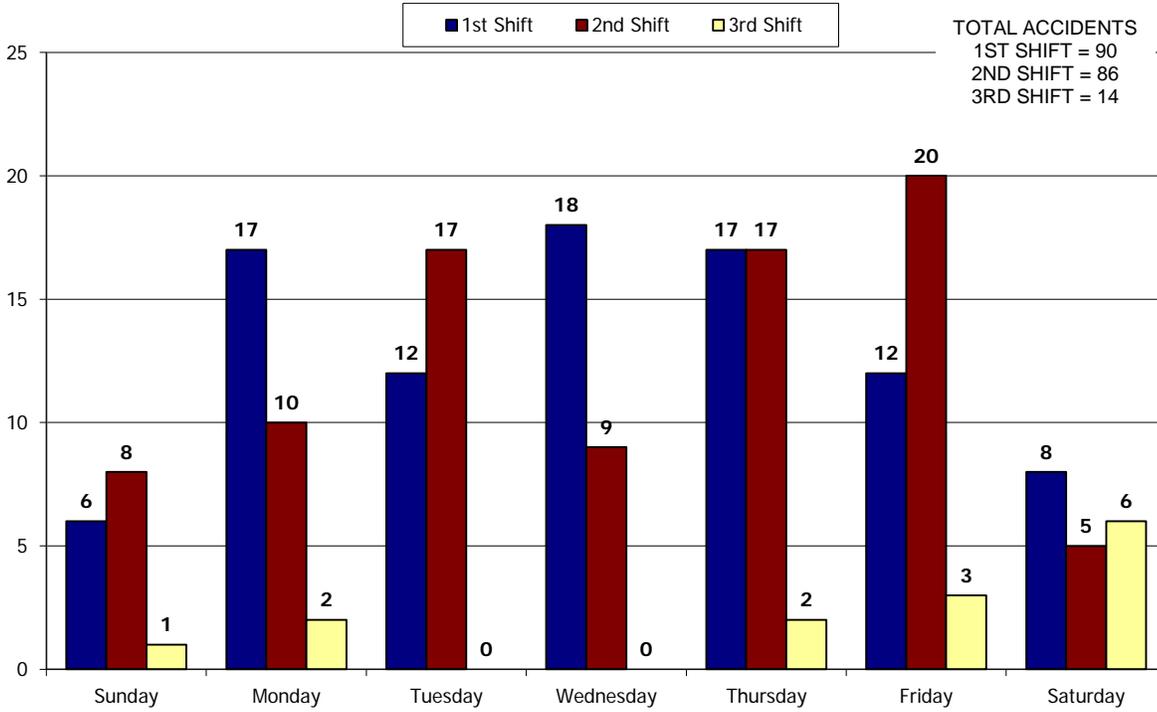

Five (5) crashes were identified as having been alcohol related (2.63%). The drivers in these accidents were arrested and charged with OVI. One hundred thirty-five (135) citations were issued to at fault drivers as a result of their accidents (71.05%).
