Re: Resolution 17-13 - Authorizing the Regulation of Traffic on Muirfield Drive and Other Roads in Muirfield Village and the Waiver of Certain Provisions of the Dublin Sign Code and Noise Ordinance during the Memorial Tournament

Background

As in previous years, during the week of the Memorial Tournament, there is a need to implement a plan, which best facilitates the safe and efficient movement of traffic to and from the Muirfield area.

In order to do this, the City and the Police Division need the ability to change traffic patterns and parking regulations in Muirfield Village to include implementing one-way traffic on designated streets and prohibiting parking on a variety of streets. For the most part, this resolution request is the same as presented last year with the exception of adding two waste receptacles – one additional at the sixth tee lot and one at the clubhouse. As noted in the accompanying resolution, staff is requesting that Council temporarily waive certain provisions of the sign code in order to facilitate traffic movement and to provide directional signage, waive the restrictions regarding the loading and/or unloading of commercial waste receptacles within 500 yards of any residentially zoned property between the hours of 7 a.m. to 11 p.m., and create temporary fire lanes on Strathmore Lane and Dunsinane Drive on the fire hydrant side of the roadways.

This resolution allows the City, once again, to implement a workable traffic and public safety plan to accommodate the large volume of traffic and spectators for one of the signature events in the City of Dublin. Again, we anticipate generally following the same plan as used in recent years.

Recommendation

Staff recommends approval of Resolution 17-13 at the April 8 Council meeting.
