PART I: APPLICATION OVERVIEW

<i>Zoning District</i>	BSC Historic Residential District
<i>Review Type</i>	Minor Project Review
<i>Development Proposal</i>	Deck replacement, new pergola and new front porch.
<i>Administrative Departures</i>	None
<i>Waivers</i>	None
<i>Property Address</i>	134 South Riverview Street
<i>Property Owner</i>	Paula Sharpin
<i>Case Manager</i>	Jennifer Rauch, AICP, Planner II (614) 410-4690 jrauch@dublin.oh.us

Application Review Procedure: Minor Project Review

The purpose of the Minor Project Review is to provide an efficient review process for smaller projects that do not have significant community effects. The Minor Project Review is necessary to ensure that applications for development meet the requirements of Chapter 153 of the Dublin Code. Following acceptance of a complete application for Minor Project Review, the Administrative Review Team shall make a recommendation to the Architectural Review Board to approve, deny, or approve with conditions the application based on the criteria of §153.066(F)(5) applicable to Site Plan Reviews.

A determination by the Administrative Review Team is required not more than 14 days from the date the request was submitted. The Architectural Review Board shall make a decision on the application not more than 28 days from the date of the Administrative Review Team's recommendation.

Proposal Overview

The applicant is proposing to make modifications to the front and rear of the existing single-family structure.

Front: Removal of the existing wooden walkway leading to the existing front porch and replacement with a new covered open porch with a flagstone walkway.

Rear: Removal of the existing wood stairs, second floor deck and railing material to be replaced with new composite decking and railing. A 10-foot by 12-foot pergola is also proposed above the second story deck. The area where the stairs are removed will become additional deck area and a new spiral staircase is proposed to access the lower level. The lower level improvements include the removal of the wood deck and railing material, which will be replaced with composite to match; and the enclosure of the lower level to create a screened-in porch.

Zoning Code Analysis

§153.063(B) – Neighborhood Standards – BSC Historic Residential District

The BSC Historic Residential District requirements were intended to maintain those provisions that were in place prior to adoption of this new District. The applicable standards for development include minimum setback requirements.

§153.062(E) – Building Types – Materials and Colors

Code permits stone, brick, glass, wood and fiber cement siding as primary materials and requires the use of appropriate colors from a historic color palette.

PART II: ADMINISTRATIVE REVIEW TEAM COMMENTS

Land Use and Long Range Planning

The proposed materials and colors are consistent with Code and complement the existing structure. The open porch meets the requirements of Section 153.062(1)(2). The proposed improvements occur within the existing building envelope; however, the applicant will need to verify the setbacks and provide this information as part of the building permit.

Engineering

The rear of the property is also located within the floodplain. The proposed improvements are shown within the existing building footprint; however, the plans will need to be revised to include the floodplain limits at part of the building permit.

Building Standards, Parks and Open Space, Fire, Police, Economic Development

No comments.

PART III: APPLICABLE REVIEW STANDARDS

Applicable Administrative Review Team

Minor Project Review Criteria

This application has been reviewed based on the review criteria for Minor Projects, which include the following:

(c) **Meets Applicable Zoning Regulations**

Criterion met with condition: The proposed improvements meet the Zoning Code requirements for materials and colors and location; however, the applicant will need to provide a revised site plan verifying the front setback and the floodplain limits as part of the building permit review.

(j) **Consistency with Bridge Street Corridor Vision Report, Community Plan, and other Policy Documents**

Criterion Met. The proposed modifications maintain the character desired within the Historic Residential District.

PART IV: PROPOSED ADMINISTRATIVE REVIEW TEAM RECOMMENDATION

Recommendation of approval to the Architectural Review Board with one condition.

- 1) The applicant provide a revised site plan verifying the front setback and the floodplain limits as part of the building permit review.
