On September 3, 2013, three (3) bids were received, publicly opened and read for the River Forest Sanitary Sewer Improvements Project. This project involves eight (8) individual point repairs on the existing eight-inch sanitary sewer system located within the River Forest subdivision and the construction of seven (7) new sanitary sewer manholes to replace existing cleanouts.

In the 2013-2017 Capital Improvements Program (project ES1302), \$310,000 was budgeted within the Sewer fund for this project. The Engineer’s estimate was \$240,000. Danbert, Inc. submitted the lowest and best bid of \$211,217.00. Staff has reviewed all bids and a summary of the bids is listed below.

Bidder	Bid as Read	Bid as Read Over (+) or Under (-) Engineer’s Estimate	Corrected Bid

Staff anticipates the construction to commence on March 1, 2014. The scheduled completion date for the project is June 15, 2014. For Council’s reference and review, a reduced set of project construction drawings has been placed in the Council Planning Room.

The River Forest subdivision residents will be contacted by staff in February 2014 to notify them of the improvements. Direct contact will be made with individual residents where the work will take place to coordinate any concerns or issues.

**Recommendation**

Staff has thoroughly reviewed the Danbert Inc. bid. Danbert, Inc. currently is performing the 2013 Sanitary Sewer Maintenance Project and the 2013 Storm Sewer Maintenance Project. Staff continues to be pleased with the attention to detail and performance of Danbert, Inc.

Staff recommends Council approval of Resolution 53-13, accepting as lowest and best the bid of Danbert, Inc. in the amount of \$211,217.00 and authorizing the City Manager to enter into a contract with Danbert, Inc. for this project.
