## Internal Affairs Investigations

In 2013, one (1) internal affairs investigation was conducted by our agency. Compared to 2012, there was one (1) internal affairs investigation. The 2013 investigation was initiated due to a complaint of conduct unbecoming a city employee. A thorough investigation was conducted and the complaint was unfounded.

### Internal Affairs Investigations by Employee Status:

**January – December 2013**

Sworn: 1 Civilian: 0

### **Analysis and Conclusions:**

A review of the investigations conducted in 2013 and 2012 did not reveal a pattern of employee or type of misconduct.

### Formal Complaints

In 2013 there were five (5) formal complaints filed involving personnel of the division of police. The circumstances surrounding these complaints were as follows: 1) cruiser operation; 2) demeanor; 3) handling of suicidal subject; 4) demeanor; 5) demeanor. Thorough investigations were conducted into each complaint. The results of these complaints were as follows: 1) proper conduct; 2) proper conduct – unfounded complaint; 3) proper conduct; 4) unfounded complaint; 5) unfounded complaint. In comparison to the previous year, there were six (6) complaints filed against employees.

#### Complaints by Employee Status:

#### Formal Complaints January – December 2013

Sworn: 5      Civilian: 0

### Analysis and Conclusions:

A review of the complaints in 2013 did not indicate any one employee named in more than one complaint. There were no other identifiable patterns of employee or misconduct identified. In comparison to complaints filed in 2012 again there was no identifiable pattern of employee or misconduct identified.

### Grievances

In 2013 there were zero (0) grievances filed by employees. In 2012, there was one (1) grievance filed by an employee; which did not receive a response from the grievant at step two thus considered closed after seven (7) calendar days after written denial at step one.

#### Grievances by Employee Status:

#### January – December 2012

Sworn: 0      Civilian: 0

### Analysis and Conclusions:

No analysis could be conducted as there were no other grievances filed by employees in 2013 for comparison.

### Use of Force

Use of force reports are used to document bodily force by means of a defensive tactic or technique or any other bodily force to overcome resistive tension. Minor hand to hand control techniques, such as handcuffing, physically touching, or gripping to overcome minor resistive tension, shall be reported on an incident report or narrative of the arrest form. Use of force reports are also used to document the use of a less lethal and/or lethal weapon (in the course of a use of force). Any bodily force, use of a less lethal weapon, or use of a lethal weapon resulting in an injury must be reported on a use of force report.

In 2013, six (6) use of force incidents occurred that resulted in nine (9) use of force reports being filed. It should be noted that in some years, more reports were filed than total number of incidents due to more than one officer using force out of a single incident in some, but not all cases.

Use of Force	2013
Use of Force Incidents	6
Use of Force Reports	9

In 2013, the most common reasons for the use of force were: 1) Necessary to Effect an Arrest and 2) Other. In some cases, the numbers may not match up due to some reports having more than one description for the suspect or none being marked on the report.

Reasons for the Use of Force	2013
Necessary to Effect Arrest	4
Necessary to Defend Officer	0
Other	2

### ***Officer's Response – Use of Force Incidents***

<b>Officer's Response</b>	<b>2013</b>
Firearm/Other Deadly Force	0
Baton/Flashlight Techniques	0
Kicking/Striking Structural Area	0
Kicking/Striking Motor Point Areas	0
Chemical Agent (O.C.)	0
Taser	0
Baton Restraints	0
Takedowns	5
Joint Manipulation	1
Balance Displacement	1
Escort Position	3
Assistance from Other Officers	4
Verbal or Physical Commands	6
Officer Presence	6

In 2013, the most common officer responses to use of force incidents included: 1) Officer Presence, 2) Verbal or Physical Commands, 3) Takedowns, and 4) Assistance from Other Officers. Officer Presence, Takedowns, Verbal or Physical Commands, and Escort Position have been in the top five officer's responses to use of force incidents over the past three years, although the order may have been slightly different. In some cases, the numbers may not match up due to some reports having more than one description for the suspect or none being marked on the report.

### **Use of Force Conclusion**

In reviewing the six (6) use of force incidents that occurred in 2013, it was clear that all policies regarding the use of force were followed. All six (6) use of force incidents were correctly reported, investigated, and reviewed by the chain of command. All six (6) use of force incidents were classified as force reasonable and consistent with policy. Based on this analysis of use of force, no patterns or trends were identified that would require any further training needs or policy modifications. It is recommended that the police division continue its mandatory use of force training as part of the annual mandatory in-service training cycle.

## CALLS FOR SERVICE

### District 1

Includes all areas within the city limits that are south and east of Interstate 270 and west of the Scioto River. Also includes I270 northbound from US 33 westbound ramp up to Sawmill Road.

### District 2

Includes all areas within the city limits that are east of the Scioto River, west of Sawmill Road, south of the Delaware County Line and north of Martin Road. Also includes I270 westbound from Sawmill Road to US 33 and the ramp from I270 southbound to US 33 westbound.

### District 3

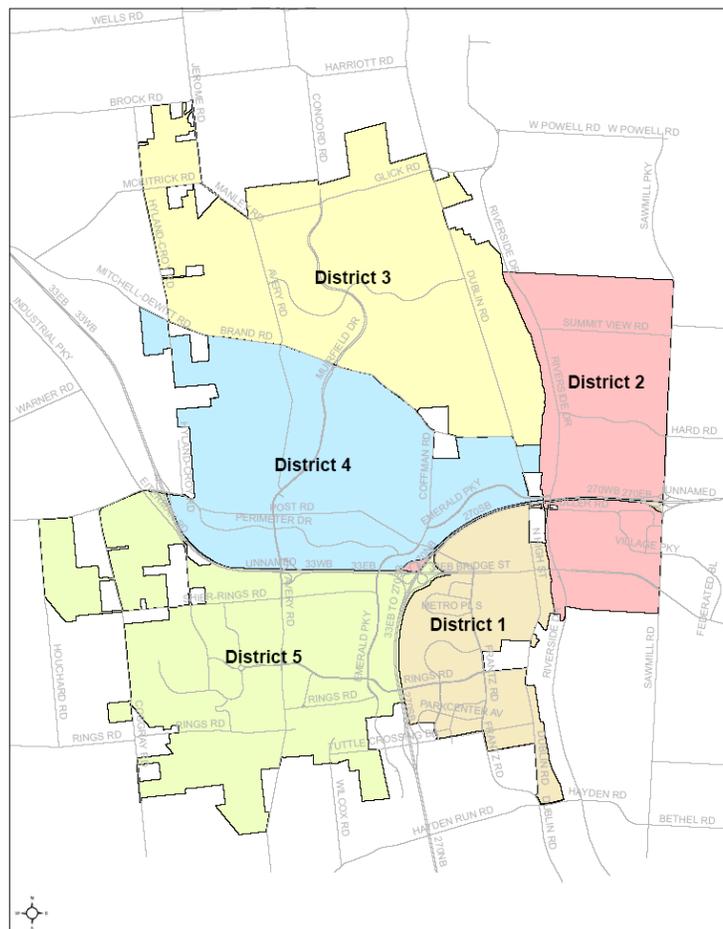

Includes all areas within the city limits that are north of Brand Road and west of the Scioto River. All addresses that are within the city limits on Brand Road including the intersections of Brand Road/Muirfield Drive and Brand Road/Dublin Road are covered by this district.

### District 4

This district includes all areas within the city limits that are south of Brand Road, north of US 33 and west of Interstate I270, Browning Court and Dublin Road. Addresses that are south of Brand Road to the I270 overpass that are within the city limits are part of District 4.

### District 5

This area includes all areas within the city limits that are south of the north edge of US 33 and west of I270. This area also covers both northbound and southbound lanes of I270 between Tuttle Crossing and US 33 and all ramps to and from I270 south of US 33.

**NOTE:** The following is a breakdown of calls for service. They represent initial reports. The number of actual offenses may be different after officer's investigation.

# WORKLOAD ANALYSIS REPORT

January - December 2013

The January through December 2013 Workload Analysis reflects a total of 22,857 calls for service. This figure does not include traffic stops, foot patrols or courtesy cards initiated by officers or activity occurring in District 0 (calls outside city limits/mutual aid). The average response time for calls was five (5) minutes from the time the call was received by our communications technician until the first responding officer arrived on the scene. The average time to reach a disposition and clear the call was twenty-three (23) minutes.

The Workload Analysis also allows us to track activity levels by hour by day. We analyze this data to determine our staffing levels for patrol shifts. By reviewing our Workload Analysis Graph on the following page, you can see that our busiest hour of activity was between 9AM and 10AM. Two thousand two hundred nineteen (2,219) calls for service were received during this time frame. The next busiest hour was between 10AM and 11AM when 1,984 calls for service were received. The ability to obtain this type of data is critical to effectively staff our patrol shifts.

While reviewing this report it is important to note that various factors can influence average response times. "Stacking" of calls where lower priority calls are held so that calls of a more urgent nature can be dispatched and responded to commonly occurs. "Cross dispatching" where an officer is dispatched out of district to a call will also increase response time. Low priority calls that are received during roll call/shift change negate an immediate response from patrol officers thus increasing response times.

As a matter of practice, we like to keep our average response time for all calls occurring inside the City under ten (10) minutes. As previously stated, there are certain incidents where that becomes impossible. However, our goal is realistic and as demonstrated by the January through December 2013 report, was met. The following is a breakdown of calls for service by district with the overall total calls, average response time and average time to resolve the call:

## District 1 Totals

4,050	Calls for Service

# WORKLOAD ANALYSIS REPORT

October - December 2013

The October through December 2013 Workload Analysis Report reflects a total of 4,947 calls for service. This figure does not include traffic stops, foot patrols or courtesy cards initiated by officers or activity occurring in District 0 (calls outside city limits/mutual aid). The average response time for calls was six (6) minutes from the time the call was received by our communications technician until the first responding officer arrived on the scene. The average time to reach a disposition and clear the call was twenty-six (26) minutes.

The Workload Analysis Report also allows us to track activity levels by hour by day. We analyze this data to determine our staffing levels for patrol shifts. By reviewing our Workload Analysis Chart on the following page, you can see that our busiest hour of activity was between 9AM and 10AM. Four hundred forty-five (445) calls for service were received during this time frame. The next busiest hour was between 10AM and 11AM when 421 calls for service were received. The ability to obtain this type of data is critical to effectively staff our patrol shifts.

While reviewing this report it is important to note that various factors can influence average response times. "Stacking" of calls where lower priority calls are held so that calls of a more urgent nature can be dispatched and responded to commonly occurs. "Cross dispatching" where an officer is dispatched out of district to a call will also increase response time. Low priority calls that are received during roll call/shift change negate an immediate response from patrol officers thus increasing response times.

As a matter of practice, we like to keep our average response time for all calls occurring inside the City under ten (10) minutes. As previously stated, there are certain incidents where that becomes impossible. However, our goal is realistic and as demonstrated by the October through December 2013 report was met. In an effort to assist the reader in reviewing the Workload Analysis Report the following is a list of some relevant interpretations for review.

## District 1 Totals
