Subject: rezoning proposal in park at Brandonway/Brandbury

Marie Downie:

I am concerned and dismayed at this proposal for Brandon Park! I live in a Treetops Condo and watch the deer and their babies going to and fro to the only pond in this area for water and recreation. What will happen to them?

I have lived here for almost 15 years and the view and scenery are wonderful. But the deer walking, playing with one another, seeing the new baby deer are very special. I WOULD MISS THIS VERY MUCH!!!!!! But aside what are to become of all the deer if this proposal is approved? Are any plans being made to accommodate them and provide a drinking hole and rest area?

I love this area and the "backyard of squirrels, chipmunks, and the wonderful deer" was the main reason I chose Treetops when I came to Columbus to live.

Please reconsider passing this proposal.

Thank you very much,
