## Review Criteria

### 153.231(H) NON-USE VARIANCE (PRACTICAL DIFFICULTY) REVIEW CRITERIA.

- (2) Non-Use Variances. Upon application, the Board of Zoning Appeals shall only approve a request for a non-use variance only in cases where there is evidence of practical difficulty present on the property in the official record of the hearing and that the findings required in (a) and (b) have been satisfied with respect to the following standards of review:
- (a) That all of the following findings are made:
- (1) That special conditions and circumstances exist which are peculiar to the land or structure involved and which are not applicable to other lands or structures in the same zoning district whereby the literal enforcement of the requirements of this Chapter would involve practical difficulties. Special conditions or circumstances may include: exceptional narrowness, shallowness or shape of a specific property on the effective date of this Chapter or amendment; or by reason of exceptional topographic or environmental conditions or other extraordinary situation on the land, building or structure; or by reason of the use or development of the property immediately adjoining the property in question.
  - (2) That the variance is not necessitated because of any action or inaction of the applicant.
  - (3) Granting the variance will not cause a substantial adverse effect to property or improvements in the vicinity or will not materially impair the intent and purposes of the requirement being varied or of this Chapter.
- (b) That at least two of the following findings are made:
- (1) That a literal interpretation of the provisions of the Zoning Code would not confer on the applicant any special privilege or deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of this Chapter.
  - (2) The variance request is not one where the specific conditions pertaining to the property are so general or recurrent in nature as to make the formulation of a general regulation for those conditions reasonably practicable.
  - (3) The variance would not adversely affect the delivery of governmental services (e.g., water, sewer, garbage).
  - (4) The practical difficulty could be eliminated by some other method, even if the solution is less convenient or most costly to achieve.

**VARIANCE APPLICATION FOR 6765 BARONET BLVD, DUBLIN, OHIO 43017**

**Property Owners:**

Brandon Sailors and Kio Morimoto

Current address: 7854 Jaymes St, Dublin, OH 43017

New address: 6765 Baronet Blvd, Dublin, OH 43017

Parcel 4000140580740

**Variance Statement**

- A. We request a variance on the 25' set back to allow the building of an outdoor living space. Specifically, we are requesting 10' to build a paver patio with outdoor kitchen and pergola for shade. This would have a negligible impact and should enhance both our home and neighborhood to blend in with the look and feel of Tartan Ridge
- B. Code Section 153.231
- C. It is my understand that the City of Dublin has put in place a 25' setback in the backyard to maintain quality greenscape environment for the citizens of Dublin to enjoy
- D. A permit was requested to add a hardscape at 6765 Baronet Blvd during the construction of the home and was denied due to encroachment of the 25' setback
- E. As a longtime resident of Dublin, my wife and I are requesting a minor variance to build a beautiful outdoor living space to enhance our property and the surrounding area of Tartan Ridge

**Property Survey**

See Appendix

**List of Property Owners within 150 feet**

See Appendix

**Address each of the following review criteria**

- A. Lot 209 is a smaller and more narrow lot within Tartan Ridge
- B. Throughout the design and purchasing process, we were never informed of any limitations by both the previous land owner (Edwards Companies) nor our builder (Coppertree Homes) for full use of the property to include an outdoor hardscape
- C. The requested variance will have no adverse effect on either the property or surrounding common green space. As you will see later in both the pictures and property design, there is over 100' between the end of our property and properties behind our lot.
- D. It is our belief that the granting of this variance is not a special privilege, but a commonsense approach to the continued beautification of both Dublin and Tartan Ridge

- E. The phase of development where Lot 209 is located contains a number of narrow and irregularly shaped lots, not all of which are impacted in the same way as Lot 209. The initial design for this section calls for many homes to be set back from the main street, which is what has caused the need for this variance.
- F. No government services would be impacted in any way with the acceptance of this variance request
- G. Multiple options have been explored, but are not feasible. These include evaluating the use of the side yard, which would require the relocation of 2 air conditioners. Unfortunately, only one of the two could be moved, due to the hard piping of the Freon lines, so this is not an option. We also explored the purchase of additional property, but were told this is also not an option. Lastly, we have created options that would be compliant with current zoning regulations, but they will not allow for the use and enjoyment of the backyard.

### **Site Plan**

See Appendix

### **Concluding Statements**

Through no fault of the homeowners, we are faced with a difficult predicament which requires the assistance of the City of Dublin Zoning Board. This is the first house my wife and I have built and overall, it has been an exciting and wonderful experience. We had the chance to move anywhere in the US, but we decided to stay in Dublin, OH as we both love living in such a beautiful, safe, and well maintained city. We take part in many civic events and are proud to call Dublin our home. When we designed this home, we specifically chose a lot that a view of a small pond with a large amount of green space in the backyard, since we spend most of our time in the summer outside. We designed the home so that it would flow from the covered steps to an area we envisioned would hold a table to enjoy the view of the pond. We also built a two-way fireplace, so that we could put patio furniture to enjoy the fire in the evening with neighbors and friends. This would then connect to an outdoor kitchen with pergola, since there is no natural shade available and this backyard will receive a large amount of sunshine during the day and early evening. Our property backs up to a beautiful greenscape that will host a walking path between our backyard and the neighbors' backyards. It is over 50' from the back of our lot to this path and then another 50' to the next closest lot. There is ample space. Our goal is to enhance the beauty of our home, our neighborhood, and create a warm inviting atmosphere to enjoy the comradery of our neighbors. We are asking for a mere 5' more than we were told we could have with the existing code. That is all. 5' more. This is an investment of over \$40,000 we are willing to make to help improve and create this living space. Please help us by granting this request. You will find supporting notes from the land owners of Tartan Ridge (Charlie Driscoll of Edwards Company) and our homebuilder (Tim Shear of Coppertree homes) attached in the appendix. Thank you for your consideration and assistance in this matter.

In regards to the variance requested by The Sailor Family....

Our experience throughout the entire design process with the Sailors has consistently met and exceeded the high standards of the Tartan Ridge neighborhood. Exterior elevation, interior design and selections have been exceptional. The landscaping plan is no exception. We did not fully understand, nor could we advise the Sailors of the restrictions the rear set back would have on their vision for their outdoor living plan.

As has been the case in each choice of the entire design/build process, the landscape plans we have reviewed are excellent and we feel enhance the neighboring homesites.

We hope the variance requested is carefully reviewed and accepted.
