

Pottery Open Studio Class

Pottery Open Studio

For both new and experienced ceramics students of all skill levels. New students begin with the basics of clay hand building techniques such as pinch pots, slab rolling and coils. Textures, color, shape and differing styles are introduced as well as glazing and finishing techniques. Time permitting we work on the basics of throwing on the potter's wheel. Experienced students continue to refine their skills and work on ceramic projects of their own choice. The studio is open for independent ceramic projects; instructional aid is available for individualized assistance, project ideas and technical expertise. Students can practice wheel throwing, hand building and have access to high-fire and low-fire applications. All supplies are included in the fee, including firings done by the on-site instructor.
