

NOAH'S stands alone as the first corporation to consolidate multi-functional space perfect for corporate and family events.

NOAH'S stands alone as the first corporation to consolidate multi-functional space perfect for corporate and family events. NOAH'S serves international, national, and local corporate client needs for training, seminar, and business meetings by providing highly technological meeting rooms and other accommodations. NOAH'S weekend user typically includes family events such as weddings, birthday, anniversary celebrations, and other special life events. Noah's blends into the surrounding landscape by creating a community amenity using high quality brick, stone, and tile exteriors as well as a beautiful 4 ½ star interior finish package. NOAH'S prototypical building is 8,700 square feet broken down into 3 meeting spaces including a main hall, a medium conference room and a board room which can double for entertainment purposes (billiard, shuffle board, and state of the art a/v) designed more for the weekend user.

NOAH'S opened its first facility in February of 2007. Since then, NOAH'S has accomplished a national presence operating facilities in 16 major markets including Dallas, Houston, Chicago, Orlando, Phoenix, Denver, Salt Lake City and Little Rock, with additional locations coming in Oklahoma, Kansas City and San Antonio. NOAH'S plans to expand into the top 100 markets in the U.S., growing at a rate of approximately 12-14 new units per year, and anticipates a national build out of approximately 350 locations over the next ____ years.

Generally, Noah's seeks approximately 2-3 acres in Class A business parks such as Dublin's Business Park.
