Communications with Residents and Motorists

The following communication methods will be used to communicate construction information with the residents and motorists throughout the duration of this project.

- Brochures are placed on mail boxes at each residence on affected streets. These brochures are distributed by Dublin staff.
- Residents whose driveways will be closed during construction will be given written notice at their front door at least 24 hours in advance of the closure. These are distributed by the contractor.
- Temporary signs are placed along streets at least 24 hours in advance of construction to notify residents and motorists of upcoming construction work and anticipated construction dates.
- When appropriate, portable message board signs are used for construction notification on arterial and collector streets.
- The City of Dublin Engineering Division street maintenance website gives current construction schedule information. This website is listed on the signs posted in advance of construction activities and in the brochure placed on mail boxes. The website is www.dubin.oh.us/engineering.
- Due to the short notification time period for driveway closures, Dublin Engineering staff makes adjustments to the construction schedule to accommodate resident needs on a case-by-case basis.
- Social Media (e.g. Twitter, Facebook, Instagram) is used to communicate timely construction updates.
