

Dublink

Dublink fiber optics carries up to 100Gb of overall network speed.

Dublink Transport provides a no-cost lateral connection to a high speed, ultra-low latency fiber optic network. This effort supports Dublin's strategic focus in maintaining the community's fiscal health and economic vitality through job retention and growth, while supporting City Council's goal to keep multi-tenant office buildings competitive.

What is Dublink?

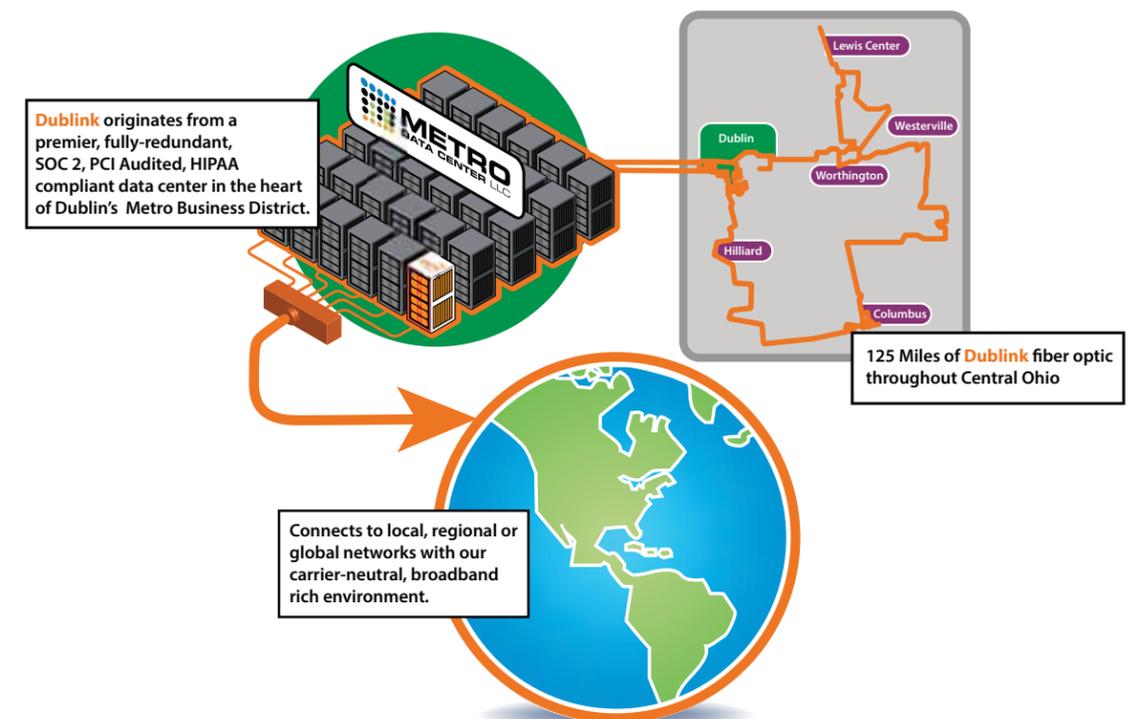

- Dublink is 125 miles of fiber optics that run underground throughout Dublin and many surrounding Central Ohio communities
- Dublink is a City-owned fiber optic network now available to small businesses
- Dublink makes Dublin the best-connected community in Central Ohio and beyond
- Dublink is recognized globally as a top broadband-rich environment

What is Dublink Transport?

- Dublink Transport is the Dublink lateral from your building carrying your highspeed data back to a data center at no cost to you
- Dublink Transport provides an ultra-high performance network up to 100 Gigabits
- Dublink Transport is carrier neutral, and provides you a vast choice of networks, through our network of broadband providers
- Dublink Transport provides a state-of-the-art Point of Presence (POP)

What are Dublink Services?

- Dublink Services are support services such as:
Website design & development, application development, marketing & branding, design, co-location, cloud, virtual desktop, hosting, Internet service providers, telecommunication, and more
- Dublink Services are provided by a community of businesses located within the Dublin Entrepreneurial Center (DEC) and beyond

Dublink - What's in it for my business?

The City of Dublin has invested in a unique fiber optic network called Dublink. Once only available to the Fortune 500 companies, now it is available to the Small to Medium Sized Businesses (SMB).
