

Bricks4Kidz Camps (6-12yrs)

Camp Overview

Bricks4Kidz Camps provide an extraordinary atmosphere for children, where we learn, we build, we play... with LEGO® bricks. Programs are built around our proprietary model plans, designed by engineers and architects, with exciting themes such as space, construction, and remote controls. Our specially designed project kits and theme-based models provide the building blocks for the Bricks4Kidz approach to educational play. We believe that kids learn best through activities that engage their curiosity and creativity.

Please refer to the Healthy Brochure for complete camp descriptions.
