

Little Medical School (5-11yrs)

Camp Overview

The Little Medical School Summer Camp program provides children the opportunity to have fun learning about the exciting and inspiring world of medicine! Interactive demonstrations, crafts, and games teach you: how the body and organs work; how to use the instruments that real doctors' use; administer first aid; and even tie knots like a real surgeon. Participants are exposed to many things in the field of medicine and make models of the spine, brain, bones, and the eye.

A Camp Newsletter is emailed to families the week before camp meets.
