Re: Ordinance No. 14-16 – Establishing a Tax Increment Financing District (Bridge Park) (Block A)

Summary

Ordinance 14-16 proposes the establishment of the Bridge Park Tax Increment Financing District for Block A within the Bridge Park development.

This particular Ordinance would establish a TIF under the provision of ORC 5709.41 on the parcels within Block A (identified in Exhibit A to the Ordinance). This section of ORC permits the legislative authority of a municipal corporation to declare any improvement to a parcel of real property to be a public purpose if (1) the municipal corporation held fee title to the parcel prior to the adoption of the ordinance and (2) the parcel is leased, or the fee of the parcel is conveyed, to any person either before or after adoption of the ordinance. Service payments generated on improvements to parcels within this type of TIF are permitted to be used to finance public and private improvements.

Upon Council approval of the final plat for Block A, staff, legal counsel and the property owner, Crawford Hoying, began the process of transferring ownership of the parcels within the proposed 5709.41 TIF so that the City could prove that it held fee title to the parcels prior to adoption of this particular Ordinance.

As the platting occurs on the other development blocks, staff will bring forward additional Ordinances to create additional TIFs under 5709.41 as development progresses and the incentive contingencies under the Development Agreement are met.

TIFs created under 5709.41 will be the base TIFs for the Bridge Park development with the Incentive District TIF [created under ORC 5709.40(c) – Ordinance 45-15] being “layered” on top, applying only to those “residential” properties. It is acceptable that the geography of these two TIFs overlap, which will allow flexibility in the future for any of the owner-occupied residential units (i.e. condominiums) to be converted to apartments without losing TIF revenues. The service payments generated within the Bridge Park TIFs will be used to fund the public roadway improvements, parking garages and a conference/events facility. The Development Agreement, and more specifically, Exhibit E, “Application of Service Payments and NCA Revenues,” indicates how the service payments generated from the improvements will be applied.

This proposed TIF is within the defined area covered by the Bridge Street District Cooperative

Agreement between the Dublin City School District (DCS) and the City. As a reminder, the Cooperative Agreement permits the City to authorize various tax incentives, including TIFs, within the BSD that provide for the following (for each incentive authorized):

- Years 1-15 – DCS agrees to forgo 100% of the applicable real estate taxes in respect of the improvements to any particular parcel within the applicable tax incentive district.
- Years 16-30 – DCS will receive 10% of what it would have received if the applicable tax incentive district had not been in place.

In exchange for this TIF structure, the City will pay \$50 million to DCS over a 33-year time period (from 2014 – 2046 with \$1.5 million paid annually in years 2014 through 2045, and \$2 million paid in 2046). Additionally, as part of the Cooperative Agreement, DCS waived any right to receive notification of the passage of any Ordinance or legislation authorizing the real property tax exemptions. However, staff has notified Dublin City Schools that this new TIF within the Bridge Street District is being considered by City Council.

Recommendation

Staff recommends that Ordinance No. 14-16 be adopted by City Council as an emergency at the second reading/public hearing on April 11, 2016. While it may sound contrary, without emergency language, the 30-year timeframe for the TIF begins immediately, regardless of when improvements are reflected on the tax duplicate. This would likely result in the loss of TIF revenues if the improvements on each parcel were not to begin immediately. With emergency language, the exemption becomes effective as to each parcel commencing with the first tax year an improvement to that parcel attributable to a new structure appears on the tax list and duplicate. This will allow for the maximum generation of TIF revenue. The previous TIF ordinances established under ORC 5709.41 have been approved as an emergency for the same reason.
