Trevor Furbay  
Clothier For Men  
63 S. High Street  
Dublin, OH

Dear ARB Members:

We are submitting our request for permission to add signage in front of the property, 63 South High Street, along with painting the existing maroon window trim and front door to navy blue, (SW 6244, Naval). Navy blue represents our current branding of both our existing store fronts in Cincinnati, OH and Harbor Springs, Michigan.

This property had an existing yard sign and our plan is to place our sign in the same location. The logo and design will match the character of the home and character of the community. The sign will be mounted on an arm post. The size of the sign will be 3'x 2' with .5" raised lettering. It will be 2" thick. The sign will be double sided with the same logo on each side. The sign will be made of western red cedar and will have white font (SW 7005, Pure White) with a navy blue (SW 6244, Naval) background. It will be a hanging sign with metal brackets/loops. It will hang from a heavy duty bracket with a white finish (drawing attached) mounted to a treated red cedar 4"x4", 6' post that will be painted in white (SW 7005, Pure White).

We are also requesting to paint the existing maroon trim around the windows and front door on the house to the same navy blue (SW 6244 Naval) as the sign. We would like to add low voltage landscape lighting for the sign along with Liriope plants under the sign.

Thank you for reviewing and considering our requests.
