

Driveway 3165 Lilly Mar Court

-We replaced our existing driveway as part of our remodel. The previous driveway curved wider at top portion which put it around 4 feet from the property line. We replaced that with a pad beside the garage. I have attached pictures of before and after to try to illustrate the old drive and new pad are similar in reference to distance from lot line. We hope we can get sign off on this, we understand that the ball was dropped between us, cement and general contractor to confirm with the City and we are very sorry about that, we aren't trying to go dramatically past previous driveway at all, we hope you can get a feel for that from the pics.

Before and After of Driveway

Before Pad (tree reference)

After Pad (tree reference)

Lot line almost equal distance between pads

46" Pad to lot line

55" asphalt to lot line

Before and after view of driveway

White line is side of Garage

Side pad about same as previous driveway
