

Creating social impact through design.

April 17, 2023

Astra Studios
470 W. Broad St.
Columbus, Ohio 43215

Project Number: 23005 J.Hilburn

Project Narrative:

The project scope includes the removal of existing base-building anodized storefront system and replacement with an upgraded, well-appointed retail storefront that greatly enhances the pedestrian experience on Longshore St. New wood doors with full glazing, dark painted cement fiber trims, and elevated light fixtures have all been carefully selected to enhance the Bridge St. corridor and convey the elevated style of the J.Hilburn retail brand. Careful consideration has been taken throughout the design to respect and enhance the Bridge Park design guidelines.
