Project Narrative:

The project will construct a 5'-0" high, black, welded wire fence and gate on cedar posts around the demonstration gardens planted in the historical garden area of the farmhouse. This is designed to protect current and future garden plants from animals. The materials being used would have been commonly used within the timeframe of the farmstead to protect crops or livestock. The fencing will protect the plantings that are intended to be used to teach about plant cultivation in the area's history. The Wyandotte Nation Cultural Center has offered the City of Dublin some rare heirloom seed as part of the educational opportunities, but Staff did not want to risk installing them without the protective fencing. Installing the fencing will provide opportunities to really educate the public on the cultures that inhabited the City of Dublin.

As this City Park is being used to teach about the cultures that have inhabited the land, Staff is trying to maintain a sense of the historic nature of the land, while also protecting the resources to teach the public the history. As such, Staff is requesting that the 5 foot high black colored wire fencing / gate on cedar posts be approved.

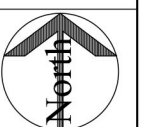

Note: There are no utilities present within the historic garden plot that is being planted again.

About this item

- **Basic Info:** Iron Material with Matte Black Finish, 4 inch x 4 inch, 5/8" Radius Corners, 2.7mm thickness - We are more tough as others with flimsy thickness.
- **Signature Features:** These spring hinges are heavy-duty, made with high-quality iron, the surface is specifically manufactured with Electroplating Coatings. They are tough enough to hold a variety of doors, such as wood, metal, interior, exterior, residential and commercial doors. We recommend you to apply minimum 2 hinges for each door.
- **Easy to Adjust:** Follow the manual inside the package, you can easily use the included hex wrench to adjust the closing speed.
- **Package Inclusion -** A Box of 4 Hinges comes with 64 screws, which are in the same color as the hinge.
- **One-Year Warranty:** Our hinges are UL Listed, meeting the requirements of UL's published and nationally recognized Standards for Safety. We only sell the great product for reasonable price. You can Enjoy the benefits of our proud customer services, if you have any issue or inquiry, please feel free to contact us ANYTIME!

Size Name: 1 Pack

1 Pack \$24.99	2 Pack \$43.99	3 Pack \$56.99
--------------------------	-------------------	-------------------

- **【Rustproof Aluminum Alloy】** Lumiadot flip gate latch lock is directly cut from an aluminum alloy ingot by CNC machine. No component is welded on the surface to ensure structural integrity as well as elegant appearance. Together with 3.5mm thickness weighted 7.8 oz to ensure the latch is strong, heavy duty and sturdy.
- **【Symmetric Mounting Plates】** The gate latch has 2 mounting plates and in this mounted with 8 screws on your gate frame/fence door. Most latches in the market has only one mounting plate reducing the sturdiness and damaging the look of your door or gate.
- **【0.3" Adjustable Padlock Hole】** The gate latch has a rounded rectangle shaped lock hole which allow you to adjust the gap width between the mounting plates from 0.2" to 1.4" to suit your doors. The lock hole can support padlocks with shackles small than 0.3".
- **【Sand-Blasting Oxidation Surface】** We use the same surface treatment as many electronics with aluminum shells like laptops. The door latch lock has smooth skin-like touch. If you just can not stand to see the rough powder painted latches to damage the look of your door, we might just be your perfect choice.
- **【Install Within Minutes】** Adjust the gap between the mounting plates. Mark the drill points on your door or gate. Drive all the 8 self-drilling screws to install the latch. Suitable for sliding and swing open door, double door, outdoor gate, wooden fence, barn door, shed, garage, yard, driveway, garden, horse stall, patio, balcony.
