

Tim,

Per our conversation about the Loxon Vertical Concrete Stain for the exterior at Penzone. This product is a great choice on brick surfaces for the following reasons:

- Allows moisture vapor to escape through building interior
- Provides excellent water repellency
- Alkali resistance
- Good early blister resistance
- Excellent adhesion
- Excellent chalk resistance
- Excellent efflorescence resistance

The following projects have been completed with the above-mentioned product:

Faith Life Church- 284 Liberty St. Powell, OH 43065 (Completed 2020)

Columbus Aesthetic & Plastic Surgery (Caps)- 1356 Cherry Way Dr. Gahanna, OH 43230 (Completed 2023)

Best Regards,
