Introduction: Project Information

The redevelopment of 17 N. Riverview Street is proposed to be done simultaneously with a companion project at 27 N. Riverview Street. Together, these two projects are intended to provide a housing option for owners wishing to live in the heart of the Historic District, but who do not want apartment or condominium-style living.

The existing home is a Bungalow with some Craftsman-style elements, built in 1927. It has a small addition on the rear and has been partially reconfigured on the interior. The home is 1.5 stories tall, with low ceilings on both floors. It has a full basement underneath. The exterior has suffered extensive weathering and neglect but the interior is in good condition.

A dilapidated barn/garage sits behind this home on Blacksmith Lane, partially within the city's highway easement. We are proposing to remove the barn/garage as a part of this project.

The area immediately surrounding this home is in the process of significant change. Properties to the north and west are being redeveloped with buildings proposed to be more massive, more tall, and covering more area than the existing buildings on those sites. Some of those proposed projects will contain high-end residential units, complementing the existing high-end residential units further north on High Street.

Additionally, the COhatch property to the north is proposed to be redeveloped into a “coworking and entrepreneurship community” which will bring increased foot traffic, small businesses, and desirability to the immediate area.

Zoning of this property is Historic Residential. Properties to the west are zoned Historic Core, and the COhatch property to the north is proposed to be rezoned to Historic Core.

The proposed redevelopment of this home keeps it as a single-family residence to complement the mixed-use character of the immediate area. The existing home will be retained, and the exterior will be completely restored. Additions are proposed, but the massing and character of the existing home will be preserved by keeping the additions subordinate to the original home. Materials and colors will be complementary and appropriate.

Lot coverage will increase, but will remain below the 45% threshold for the Historic Residential zoning classification.

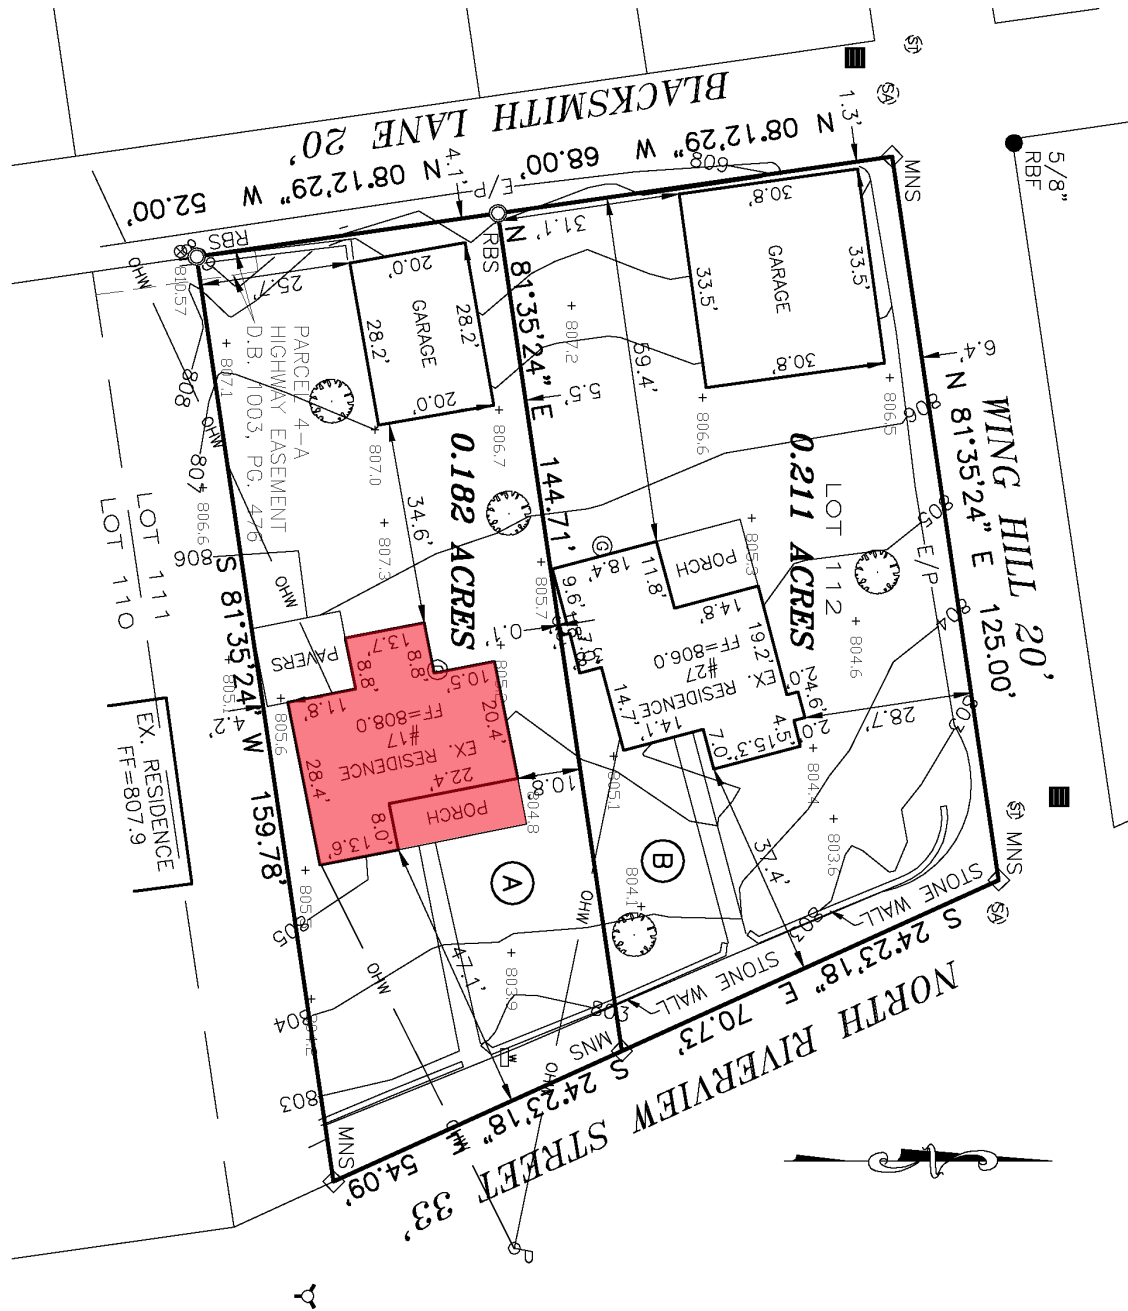

At the rear of the home, an attached garage will front on Blacksmith Lane. This garage will contain living space above, and will be designed with a “pedestrian-friendly” western side to complement the city’s plans to eventually add pedestrian access along Blacksmith Lane.

The current Historic Residential zoning classification will remain. However, several area variances will be required including footprint area and rear yard setback. Other variances may be proposed as development of the project proceeds.

The following documents show the proposed project in context with the immediate area of the Historic District, including buildings proposed but not yet built, and the companion project at 27 N. Riverview.

Context: Existing Building Footprints, Zoning, and Thoroughfares

BASIS OF BEARINGS:
THE BEARINGS ARE BASED ON THE OHIO STATE PLANE COORDINATE SYSTEM, SOUTH ZONE, NAD83 (CORR). SAID BEARINGS ORIGINATED FROM A FIELD TRAVERSE WHICH WAS REFERENCED TO SAID COORDINATE SYSTEM BY GPS OBSERVATIONS AND OBSERVATIONS OF SELECTED STATIONS IN THE OHIO DEPARTMENT OF TRANSPORTATION REAL-TIME-NETWORK.

NOTE:
THIS SURVEY DOES NOT REPRESENT ALL EASEMENTS THAT MAY AFFECT THIS TRACT AND DOES NOT REPRESENT ANY UNDERGROUND UTILITIES THAT MAY AFFECT THIS TRACT. ALL REBAR SETS ARE 5/8" DIA. 30" LONG, W/ RED PLASTIC CAP STAMPED "LANDMARK SURVEY"

FLOOD NOTE:
THE SUBJECT PROPERTY LIES IN ZONE X (AREA DETERMINED TO BE OUTSIDE THE 500 YEAR FLOODPLAIN), AS DETERMINED BY GRAPHIC INTERPOLATION FROM THE FLOOD INSURANCE RATE MAP NUMBER 39049C0151K, WITH AN EFFECTIVE DATE OF 6/17/2008, PUBLISHED BY THE FEDERAL EMERGENCY MANAGEMENT AGENCY.
