2. In the "Reference Projects" section it states the following:

Consultant should list and describe at least three (3) projects that best demonstrate their experience on similar projects and additionally provide the Estimated Cost and the Final Cost of each project.

Is the cost you are requesting the estimated and final cost of the design or total project?

- The requested costs are intended to be the estimated cost and the actual cost of a project. This could apply to the construction phase of a project, or if the reference project is not a traditional construction project, please adjust accordingly to demonstrate the firm's ability to control costs and meet budgets.
