

39 S High St  
Dublin, OH 43017

The following is the signage and handrail proposal for Vernacular located at 39 S. High St. in Historic Dublin.

The proposed handrail will be constructed of black powder coated steel and is in keeping with other existing handrails in the district. The handrail would be mounted on the left-hand side of the S. High St. entrance and would attach to the building facade at the top and to the existing limestone step at the bottom. The handrail will be manufactured and installed by Fortin Ironworks.

The proposed signage will include a projecting wall sign to the east and a pin mounted wall sign to the west, both signs will be constructed and installed by FastSigns Dublin.

The projecting sign will hang from a black metal bracket on the eastern gable of the building facing S. High St. The hanging sign will be made of 2" thick HDU with the Vernacular logo and "frame" sandblasted to 1/2" in depth. The body of the sign will be painted black with the engraved portions painted white. The sign is in keeping with existing business signs including Winans, Daso Custom Cabinetry, and Starbucks.

The pin mounted wall sign will be mounted on the western gable of the building facing our parking area that is accessed from Spring Hill Ln. The sign will be constructed of 1" thick HDU cut into the shape of the Vernacular logo and painted black. The sign is in keeping with existing business signs including Jeni's Ice Cream and Coast Wine House.
