Re: Giving Garden Eagle Project

Hi, this letter is to approve and support the proposed 'Giving Garden Eagle Scout Project' to be completed at the current Coffman Homestead. This project not only replaces the current deteriorating landscape beds but also enhances the gardens and makes them more accessible to our seniors and disabled residents. The project supports the spirit of the historic homestead, and we appreciate the efforts that were made in keeping the project design historically appropriate. This project will only enhance the visitor experience when visiting the Coffman Homestead.

Sincerely,

Michael Jewell, President
Dublin Historical Society
