Mr. Peltier,

In planning for the next block of Bridge Park Block J, we are supportive of a continuous one-way private drive at 13' for the width. In addition, there will also be loading zones located near the buildings to accommodate for deliveries. This is similar to Winder Drive located in an adjacent block. The surface will still be required to be able to handle the load of the apparatus. Should you have any additional questions or concerns related to this project, please feel free to contact me.

Best Regards,

Chad A. Hamilton
