To whom it may concern,

On behalf of Skin Spirit, Moore Signs is requesting to install a new wall sign with the new tenant's business name onto the wall of 4375 W. Dublin-Granville Rd., as well as add copy of the tenant's business name to the awning over the entrance.

The new sign will be internally LED illuminated channel letters installed onto an aluminum pan face that will be flush mounted to the exterior wall of the building. The pan face aluminum will be painted all satin black, and will be used to house the connection for the channel letters. The channel letters will be fabricated with white faces and black returns and trim. The sign will be 13'-8" L x 2'-6" H, which will give it an area of 34.17 Sq. Ft. This area will match the previous wall sign for the tenant before, Solutions IV Boutique & Medispa.

Additionally, the new copy for the awning will only be first surface applied high performance white vinyl onto the existing black awning above the left set of doors, and will be externally lit with the existing goose-neck lighting.

The wall sign will be mounted using COSA Wall Sign Standards, #SS08-105-24. The aluminum angle frame will be installed onto the wall with ¼" Lag bolts and Shield anchors, then the pan face will be attached to the angle frame with a minimum of one connector per ten square feet of area and no more than 5'-0" on centers.

We feel that installing this new sign will not only be integral to the wayfinding within the shopping strip, but will be a great addition to the aesthetic standards of the Bridge Street District. There are many shops sharing the same parking lot in this block, so installing this sign would be helpful to Skin Spirit's customers and other pedestrian traffic for identification. The proposed look of the sign and high-quality materials to be used will mesh well with the solid color background and single-color copy motif of the signs in the same shopping strip, while still bringing its own subtle distinctive factor.

Thank you.
