

AURA DUBLIN

ARCHITECTURAL PACKAGE

OCTOBER 20, 2026

PROJECT DESCRIPTION

AURA DUBLIN RETAIL BUILDING

The Aura Dublin is a new standalone 7,818 sf multi-tenant building. Aura is located at the corner of Sawmill Road and Martin Road in the southeast corner of Gabe's parcel. The existing 3.598 acre site contains a large commercial, Gabe's, building with surface parking along the east and north sides. The proposed outparcel occupies the southeast corner of the site where parking currently exists. The new building footprint removes a portion of the southeast parking field. The overall site currently includes 170 parking spaces, which would be reduced to 136 spaces.
The site is zoned BSD-C, Bridge Street District – Commercial. The proposed uses (general retail and eating/ drinking) are principal uses under the Mixed-Use Urban FLU and are permitted in BSD-C.

ARCHITECTURE WAIVERS:

Item #1 - Code Section 153.062(O)(7)(b) Building Ht (Maximum height of 18'-0")

- The southeast corner of this design has a higher roof element that exceeds the 18'-0" requirement. This element was added to create a corner element responding to the site. In design meetings with staff, it was discussed that the building needs a taller element to respond to the corner. Our maximum building height at the tower location is 25'-6".

Item #2 - Code Section 153.062(O)(7)(a)(2) – Maximum Lot Coverage (75%)

- The existing site exceeds the maximum lot coverage for the proposed 0.45-acre parcel as well as the overall 3.598 -acre parcel that will be split by this project. For the proposed 0.45-acre parcel, the existing lot coverage is 19,487 SF, and the proposed will be 20,582 SF, increasing the lot coverage from 78% to 82%. For the entire existing parcel (3.598 acre) the percentage in the existing condition and proposed condition is 79% as the minor increase will not impact the percentage. The increase in lot coverage is due to additional impervious area adjacent to the right of way in order to facilitate the building being placed in the RBZ as well as the required sidewalk/patio within the RBZ.

Notes

1. All radii are 5' unless otherwise noted

Stormwater Management Notes

1. The proposed improvements will create less than 2000 SF of impervious area.
2. The proposed improvements will disturb less than 1 acres, therefore water quality will not be required.
3. The existing site utilizes parking lot ponding for detention. Portions of the existing ponding will be removed by the project. The proposed site will utilize parking lot ponding and an underground pipe storage system.

Landscape Calculations (Out Lot Only)

153.065.D.5.a
1171.04 - Street Frontage Screening
Sawmill Road:
Parking 20'-40' From R/W
1 Tree/40' 5 Shrubs/25'
Required: 0'=0 Shrubs & 0 Tree
Provided: =0 Shrubs & 0 Tree

Martin Road:
Parking 20'-40' From R/W
1 Tree/40' 5 Shrubs/25'
Required: 57'=12 Shrubs & 2 Tree
Provided: 14 Shrubs & 2 Tree (1 Existing & 1 Proposed)

153.065.D.5.c.2 - Interior Landscaping
1 Tree/12 Parking Spaces
Required: 134 Parking Spaces/12 = 12 Trees
Provided: 19 (16 Existing)

153.065.D.7.a - Foundation Planting
Shrubs & Perennials Provided at locations where sidewalk is not present

153.133.B - Interior Landscaping
One Shade Tree provided per Island.

153.133.B.2 - Landscape Area
Required: 5,401 SF/100 x 5 = 270 SF
Provided: 706 SF

153.133.B.3.a - Tree Planting Requirement
Required: 13,219 SF (Vehicular Use & Structure)/5000 = 3 Trees
Provided: 8 (1 Existing)

153.133.D.2.b - Site Planting Requirements
Required: 7,818 SF (Structure) x 2% = 156 SF
Provided: 722 SF

153.134 Street Tree and Public Tree Requirement
Sawmill Road
Existing Street Trees + 1 Small Tree/25' For Impacted Frontage

Martin Road
Existing Street Trees
