Block Frame Option

Availability: Region 5 For New Construction and Replacement. A block frame is for a window with a frame that does not include a nail fin. Installation can be done simply and neatly without disturbing exterior siding, stucco, interior trim, paint or wallpaper. The block frame is ideal for new construction installation into concrete or masonry walls. This frame has the same inside and outside dimensions.

DIVIDED LITES

- Simulated Divided Lites Simulated Divided Lites

Simulated Divided Lites

Availability: Region 4 Add architectural interest to your windows with our divided lite options. These options include simulated divided lites (SDL) for an authentic look. They feature grilles that are permanently attached to both the interior and exterior glass and optional shadow bars that are placed between the two panes of insulating glass to provide design detail. Grilles are available in 7/8" widths in several grille patterns. These grilles are available in the color that matches the exterior color of the window you choose.
