**RE: Sanitary Sewer Extension Project – Areas 10C & 10D (18-029-CIP)
Public Information Meeting – Tuesday, April 2, 2019**

Dear Resident:

The City of Dublin will be extending public sanitary sewers to serve your neighborhood. The project is currently in design and scheduled for construction to start in late 2019. We are having a public information meeting to discuss the project on **Tuesday, April 2, 2019 from 6:30 P.M. to 8:00 P.M.** at the Dublin Service Center, 6555 Shier Rings Road, Dublin, Ohio 43017.

This project will extend public sanitary sewer service to developed properties in the following areas:

- East side of Dublin Road from Limestone Ridge Drive to Tuttle Road (Area 10C)
- East side of Dublin Road from Tuttle Road to Hertford Lane (Area 10D)

This project is part of the Public Water Utility and Sanitary Sewer Utility Extensions to Existing Developed Property Policy adopted by Dublin City Council on December 7, 2015. This policy includes a 15-year plan to provide sanitary sewers and water mains to unserved areas within Dublin.

We hope you can join us for the public information meeting. You will have the opportunity to view the preliminary construction layout for the sanitary sewer extensions, ask questions, and give your feedback to Dublin engineering staff. The agenda for the meeting will be:

- 6:30 p.m. Doors open
- 6:40 p.m. Brief presentation with group questions and answers
- 7:00 p.m. Individual property owner discussions
- 8:00 p.m. Adjourn

Extending and providing public utility infrastructure to our developed residential neighborhoods is a City of Dublin investment that adds value and high quality City services for our residents. Please feel free to contact me at 614.410.4621 or email me at msweder@dublin.oh.us with any questions.

We look forward to seeing you at the meeting on April 2nd.

Sincerely,

Michael Sweder, P.E.
Civil Engineer II
