

270/33 Interchange Landscape Maintenance

Addendum #1

April 1, 2019

Item #1: Remove the following areas from bid (refer to attached updated map):

- All Wildflower areas are still under warranty by another contractor (map areas indicated by "REMOVE WILDFLOWER GRID FROM BID").
- Remove first spring pre-emergent weed control application from contract (this will be done prior to the awarding of this contract).

Item #2: Add the following areas / items to bid (refer to attached updated map):

- SR 33 western median at bridge over I-270.
- South western I-270 south ramp guardrail edge to be string trimmed at level 1 turf.
- South median area between the west bound 33 to I-270 south exit ramp and I-270 highway.

Item #3: Clarification on aeration for contract area:

- All Level 1 and 3 turf areas will need to be aerated per the specifications.

Item #4: Clarification on cutting height of Level 4 turf areas:

- All Level 4 Decorative Grass areas shall be cut at the end of the season to a height of 6-8 inches and clumps of decorative grass / no mow lawn clippings removed to keep a smooth lawn aesthetic.

End of Addendum #1
