

01. Project Statement

The Dublin Community Pool North is located at 5660 Dublinshire Dr. This project will include the removal and replacement of the existing outdoor pools with a new outdoor pool complex. The programming of the new pool complex was developed through a series of Community Engagement Workshops. The new pool complex will include a separate 8-lane lap pool, a leisure pool, and a tot pool. There will be a new slide structure, as well as a diving platform and a climbing wall. The existing spray pad will remain. New pool decking, landscaping, expanded parking, and other site amenities will be provided.

The project will include the removal and replacement of the existing pool building – the new building will be submitted under a separate P&Z submission to follow. Three (3) of the existing smaller support buildings will remain on site and utilized as part of the new complex.
