Nicki,

The siding is damaged in some areas and appears to be natural wood, that will be painted to match the existing.

Lot Coverage (building and parking lot):

Existing:	70%
Proposed:	73%

Building SF:

Existing:	3,188 SF
Proposed:	3,534 SF

Let me know if there is anything further.

Thanks,

Susan Hinz Assoc. AIA, LEED AP

Hi Susan,

I don't think that we need photos of the site. We can have an intern take those photos.

I do have one more question – do you know what the existing siding is? Is it natural wood painted – just curious what material is being matched. Just trying to get out in front of questions the Board may have.

Thanks so much again!
