Re: Sign for Historic Dublin Business

Dear Committee,

I am petitioning to have a sign installed on the white beam on the left side of the front Porch. The beam measures 8' from the ground and 7' from the floor of the porch. The sign would be hung from the highest point of the white beam. See attached photo.

The sign material is 40"W x 20"H and is constructed of HDU material.

The bracket is a blade sign mount, made of powder coated steel. It is 43" long and approximately 9" high. See attached for photo.

Thank you,

Dyan Reckner
