Public Comment *	<p>As owners of the commercial building at 138 S. High St. since 2005, my wife and I are particularly interested in the houses that are being built close by. This house is directly across the street from my office on South high St. Another new house is being constructed 2 lots south of us which has similar external facades.</p> <p>We have reviewed the architectural drawings and are very comfortable with what has been proposed.</p>
