Re: 21-085AFDP

The Country Club at Muirfield Village Phase 2 consists of a limited scope of work in the both the racquet sports and aquatics areas. The racquets sports portion of the project includes the addition of (2) new platform tennis courts and a warming hut with an adjacent firepit and exterior lounge area. Updates include exterior site work and connection to the existing parking lot. Updates to the aquatics area at the clubhouse pool include expanding the concrete pool deck and patio lounge area at the main pool with the addition of (2) raised platform areas featuring new poolside cabanas and additional lounge seating areas.
