| Independent Auditor's Report on Internal Control Over Financial Reporting<br>and on Compliance and Other Matters Required by <i>Government Auditing Standards</i> ..... | 1                    |

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS***

City Council  
City of Dublin  
Franklin County  
5555 Perimeter Drive  
Dublin, Ohio 43017

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dublin, Ohio (the City), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated July 28, 2022.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

July 28, 2022

To Members of Dublin City Council and Citizens of the City of Dublin, Ohio:

We are pleased to present our Annual Comprehensive Financial Report of the City of Dublin for the year ended December 31, 2021. This report includes financial statements and other financial and statistical data which conforms to generally accepted accounting principles in the United States of America (GAAP) and in conformance with standards of financial reporting as established by the Government Finance Officers Association of the United States and Canada (GFOA).

Ohio law requires that every city file its unaudited financial statements with the Auditor of the State of Ohio and publish their availability within five months of the close of each year. The general purpose external financial statements from this report were filed on June 30, 2022, to fulfill that requirement.

The City's Department of Finance is responsible for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of operations of the City. The City is responsible for establishing and maintaining an internal control structure designed to protect its assets from loss, theft or misuse. The internal control structure is designed to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and that the valuation of costs and benefits requires estimates and judgments by management.

We believe the data presented is accurate in all material aspects and that all disclosures necessary to enable the reader to acquire the maximum understanding of the City's financial activity have been included.

State law requires that local governments provide an annual audit of its financial statements by independent certified public accountants in accordance with generally accepted auditing standards. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Dublin for the calendar year ended December 31, 2021 are free of material misstatement. Plattenburg and Associates, Inc., (the City's independent auditor) has issued an unmodified ("clean") opinion on the City of Dublin's financial statements for the year ended December 31, 2021. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the year ended December 31, 2021, are fairly presented in conformity with GAAP. The Independent Auditor's Report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This Letter of Transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the Independent Auditor's Report.

## **FORM OF GOVERNMENT AND REPORTING ENTITY**

The City operates under and is governed by its Charter. The City's original Charter was adopted by the voters in 1979. In 1994, City Council identified the need to revise the City's Charter. The Dublin Revised Charter was approved by the voters in 1996. The Charter may be amended by the voters from time to time. The City's original Charter and the Revised Charter have provided for a Council-Manager form of government.

Legislative authority is vested by the Charter in a Council, whose seven members each hold overlapping four year terms. Three members are elected at-large and four members are elected from wards. The City Council fixes compensation of City officials and employees, and enacts ordinances and resolutions relating to City services, tax levies, appropriating and borrowing money, licensing and regulating businesses and trades, and other municipal purposes. The Council's presiding officer is the Mayor. Both the Mayor and Vice-Mayor are members of City Council and are elected by Council for two-year terms. The City Manager is the chief administrative and law enforcement officer of the City and is charged with the responsibility for the administration of all municipal affairs as empowered by the Charter.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the organization's budget, the issuance of its debt, or the levying of its taxes. The City determined in 2021 that the Bridge Park New Community Authority (BPNCA) met the criteria to be reported as a component unit of the City. However, for the reporting period of 2021, the BPNCA was deemed to be immaterial and was not presented with the financial statements of the City. The BPNCA had previously been reported as a related organization. See note S in the notes to the financial statements.

The City is a member of the Central Ohio Interoperable Radio System (COIRS), which is a jointly-governed organization between the City, the City of Worthington, the City of Hilliard, and Delaware County (See Note A).

Certain organizations, although sharing some degree of name similarity with the City, are separate and distinct entities, not only from the City but also from each other. The City is not financially accountable for these entities. Because of their independent nature, none of these organizations' financial statements are included in this report. Based on these criteria, the Dublin City School District, the Dublin Arts Council, and the Dublin Branch of the Columbus Metropolitan Library have been excluded.

## **ECONOMIC CONDITION AND OUTLOOK**

The City is located approximately 17 miles northwest of the central business district of the City of Columbus, the State's capital and largest city within portions of Franklin, Delaware, and Union Counties. The City has experienced tremendous growth, both residential and nonresidential, over the past three decades. Dublin's growth can be attributed to several factors: its excellent location - there are three interchanges on Interstate 270 within the City, with quick access to downtown Columbus and John Glenn Columbus International Airport; the high quality of office space; the high quality of housing; the high quality of public education; and the favorable image of the community.

In light of the City's reliance on income tax revenues, nonresidential development is critical to funding the services and facilities required by residential growth, and is an integral part of the City's quality of life for all residents, both residential and nonresidential. City Council, through strategic planning, has recognized the need to maintain that tax base.

The City's economic development team has undertaken numerous studies and analysis over the last 30+ years (1994, 2004, 2014, and 2019); developed, adopted and implemented different economic development programs/strategies; and adjusted its efforts to best compete in a more highly competitive environment. In inventorying the City's economic development programs, initiatives, and assets, it quickly becomes apparent that Dublin has a long and successful history of planned development, a track-record of proactive economic development initiatives, and a well-regarded economic development office and professional staff.

As part of Council's goal setting process in 2019, it was determined that while economic development strategies of the past served the City well, the changing economy, future of work and workforce, and rapid changes in technology make it imperative that the City chart a new course for the City's economic development strategy. The City's partnered with TEconomy Partners, LLC to develop a new strategy using sound objective and subjective data to understand where we are now, how we compare regionally and nationally, and opportunities and objective to be pursued as we move forward. As part of this strategy, the City will implement a proactive economic development strategy that focuses on key facets of the economic development ecosystem to help ensure future economic vitality. The City will initiate a set of four strategies to focus its efforts. These strategies include: the creation of distinctive development nodes to meet 21st Century industrial demand for vibrant physical space while maintaining Dublin's high quality place standards; streamlining and making more predictable development processes thereby reducing uncertainty; nurturing the growth of targeted industry clusters through proactive attraction and business retention/expansion activities; and fostering sustainable partnerships to catalyze value-added collaborations.

Furthermore, the City acknowledges that no economic development strategy can be successful unless the underpinning foundational assets of a community, its high-quality infrastructure and quality of place assets, are not only maintained but further enhanced.

With income tax collections representing the City's most significant revenue source, the financial health of the City is reflective of the health of the City's corporate residents, as employee withholding taxes generally represents over 80% of the total income tax receipts. Through the City's economic development efforts, income tax receipts have grown an average of 3.6% annually over the last ten years, showing the strength and stability of our existing tax base.

Based on the continued strength of the economic development efforts completed in 2019 and 2020, the 2021 original income tax revenue projection reflected a 7.5% increase over the 2020 budget. Cash-basis income tax revenues in 2021 increased 9.6% from 2020, resulting in over \$101 million in receipts. Income tax revenue generated from payroll withholdings from individuals working in the City represented approximately 78.2% of the City's total income tax revenue, decreasing 3.0% over 2020. Revenue from business net profit returns, representing 13.7% of total income tax revenue, increased 38.1% from 2020 while revenue from individuals, representing 8.1% of total income tax revenue, remained steady.

In 2021, Council authorized the execution of 3 new Economic Development Agreements ("EDAs") with various companies each within different sectors. These EDAs provide for an annual performance incentive payment based on withholdings collected on the company's employees for a specified period of time. Of those 3, one was with an existing City-based business and is expected to expand on the existing employment base while the others were with businesses new to the City. In total, it is expected that these companies will retain 94 jobs while creating 193 new jobs in the City.

Including the 32 other active EDAs approved in previous years, economic development incentive payments totaling over \$1.6 million were made by the City for tax year 2021, based on related income tax withholdings received of \$11.3 million.

The City has used tax increment financing (TIF) and selected economic development incentives to attract new business and to assist existing business expansions. TIFs have been successfully used as a mechanism to provide a funding source for public infrastructure improvements needed to provide access to undeveloped sites or to improve existing infrastructure to accommodate new development. As of December 31, 2021, 40 City-approved TIF districts had been established, resulting in approximately \$925.3 million in building activity and providing funding for over \$221.1 million in public infrastructure improvements. In 2021, approximately \$15.1 million in service payments were received from property owners located in the TIF districts to reimburse the City for public infrastructure improvements or fund future infrastructure improvements. Since 1995, the City has received a cumulative total of \$187.7 million in service payments.

The City's continued economic vitality is the result of quality development, strategic planning, and the City's ongoing efforts to attract and retain high-end nonresidential development. Although the future is uncertain, Dublin has remained competitive in attracting new businesses while retaining current business customers. Dublin's economic base is diverse, with no single dominating industry. This results in a strong, well-balanced corporate climate.

## **MAJOR INITIATIVES**

The City of Dublin's strategic focus areas are fiscal health, economic vitality, smart, customer-focused government, being a safe and resilient community of choice, and community engagement. Under the leadership of the Dublin City Council, the City has developed innovative programs to meet these goals, leading the way in local government and forging a reputation as a premier community. Goals have been achieved through innovative City services, premier residential and corporate developments and capital improvement projects. The progress of fulfilling these goals and strategies are routinely monitored by City management through the use of ClearPoint Strategy software. This is a new data platform launched by the City within the past several years to track financial data and measure performance management.

In Dublin, much effort has been directed toward planning and managing the growth and development of the community. Building and maintaining public infrastructure is a critical component in providing a high quality of life to the residents and providing for the long-term fiscal health of the City. The City annually revises and adopts a five-year Capital Improvements Program (CIP). The CIP is the blueprint for City investments in its capital infrastructure and defines the financial guidelines for completing as many capital projects as possible while maintaining the ability to adapt to change as it occurs. The 2022-2026 CIP was adopted by City Council in September 2021, and reflects programming for approximately \$174.5 million in new major public improvement projects and initiatives during that five-year timeframe.

In recent years, the major focus has been on building and improving the City's transportation and public recreation systems. Approximately 57%, or \$99.5 million, of the programmed new projects and initiatives in the 2022-2026 CIP are transportation and park related. Great emphasis is also placed on ongoing maintenance efforts of existing public infrastructure, including the street network, water and sewer lines, bike paths and pedestrian tunnels. Approximately \$77.4 million is programmed in the 2022-2026 CIP to ensure that the City's assets are maintained and remain in excellent condition.

In order to reinforce the City's long-term fiscal health and sustainability and promote economic development competitiveness and market-driven adaptability, one of City Council's goals has been centered on leveraging investment in technology to attract innovators. The Broadband system owned and operated by the City remains the foundation of a robust program of economic development and operational efficiency. The value and viability of the Dublin Fiber Optics System depends upon the ongoing investment in maintaining, enhancing, and extending it with additional capacity, equipment, services, and users. The deployment of a transport network to legacy office buildings at Metro Place to connect businesses at speeds up to 100 gigabits per second has generated competitive interest from multiple data centers and other service providers to deliver broadband services to area businesses. This interest extends to opportunities to lease fiber for additional revenue for the City.

A significant amount of interest and attention from numerous sectors is being paid to the City thanks to investments in connected vehicles testing and intelligent transportation systems including the construction of the Beta District/33 Smart Mobility Corridor Project. This Project includes the deployment of wireless devices on roads and streets, and enabled by our fiber network. Data from these devices is expected to enable research and analytics toward intelligent traffic systems, increased safety, and reduced traffic congestion. In addition, the City is working with private industry to create a smart mobility ecosystem in Dublin. This partnership will test and implement infrastructure technologies, create value-added mobility services, and gather previously untapped data that will increase road and predestination safety and reduce travel times.

The City continued to leverage investments in network, equipment, and systems to impact the lives of citizens more directly. Previously, the City selected a residential neighborhood and one business location to prove the viability of TRAXyl fiber installation technology and evaluate it for widespread distribution across the City to promote fiber connectivity to homes and businesses in Dublin. Additionally, the City examined utilizing its network infrastructure and home broadband connections to establish a pilot data and analytics programs toward establishing the first Smart Neighborhoods. The City continues to advance on our Smart Neighborhood/Smart Homes concept with our Fiber to the Home Proof of Concept to prove the viability and economics of the technology by displaying a new vision of Smart Home connectivity. This is an examples of how the City of Dublin is using innovation and technologies to improve the efficiency of its administration and ultimately the experiences of its residents.

In addition to leveraging technology for economic development competitiveness and market-driven adaptability, City Council has been focused on the continued success of its highly acclaimed Bridge Street District (the District). The District is generally bounded on the west and north by I-270, on the east by Sawmill Road and on the south by Bridge Street, including the City's Historic District, and is providing a new, densely developed, mixed-use environment to further enhance the City's long-term economic competitiveness. By creating these new living and working environments and community amenities, the City will be positioned to continue to attract and retain the next generation of residents, workforce and businesses to the City while creating a vibrant core that will not only benefit the City, but also the central Ohio region.

The largest private development currently underway in the District is Bridge Park. Spanning 30 acres along the Scioto River, Bridge Park integrates retail and residential uses within a walkable and inviting neighborhood, Bridge Park features condominium homes and apartments, structured parking, retail, office, multiple hotels, a public market and community event/conference facility. This includes approximately two million square feet of private building improvements within 20 or more mixed-use buildings, served by over 4,350 garage parking spaces within seven parking structures. To date, approximately \$288 million in private improvements have occurred with another \$130 million currently under construction. The overall private investment in this project is currently estimated to be in excess of \$600 million.

The vision for the Bridge Street District is coming to reality as a number of public infrastructure improvements are underway or have been completed in careful coordination with private development including an iconic pedestrian bridge spanning the Scioto River, connecting Historic Dublin to the heart of the Bridge Street District. Additionally, Riverside Crossing Park, which began construction in 2020, was recently completed. This park will be part of a broader system of regional parks and local recreational systems, linking to these assets through extensive bicycle/pedestrian facilities, canoe/kayak access points and scenic natural connections. The west side of the park is envisioned as a more naturalized area with connections to the Indian Run greenway, water access and trail systems. The east side of the park is elevated outside of the floodplain and will feature areas for public gatherings and cultural events, recreational programs, pavilion building, rock climbing, planting beds and scenic river overlooks.

Civic space is an important component to the Bridge Street District. In a public-public-public partnership, the Columbus Metropolitan Library ("CML"), the Dublin City School District ("DCSD") and the City partnered together in providing a 21st century civic facility located in the heart of Historic Dublin and the Bridge Street District. The CML invested approximately \$21.0 million to develop a new 42,500 square foot library at the site of its current library. In return, the City agreed to construct, own, operate and maintain a new 500-space parking garage (in which the CML would retain an easement for 200 parking spaces) and the roadway system surrounding the new library and garage. A substantial portion of right-of-way required to construct the roadway grid surrounding the library, the garage development site, and the existing CML site was owned by DCSD. In exchange for these real estate considerations, the City agreed to connect all but three school buildings to Dublink. This successful partnership exemplifies the City's tradition of collaborating with other entities, both public and private, for the betterment of the community at large.

## Prospects for the Future

The City's Community Plan (Plan) provides a framework for preserving the City's heritage, while creating a blueprint for the future. This Plan is used to evaluate private development requests and make decisions regarding future development, capital improvements, economic incentives, and other issues affecting the City's residents and corporate citizens. The Plan is available for download on the City's website at [dublinohiousa.gov](http://dublinohiousa.gov)

A key component of an update of the Plan was a study of the fiscal impact of projected future growth of the City through the year 2030. The fiscal impact study concluded that 1) if the City is successful in its efforts to increase its presence as a regional employment center, its existing revenue structure will be sufficient to provide current levels of service to both existing and new development and 2) the projected new growth will generate net revenue surpluses in the City's operating budget. This is the result of land-use planning which maintains a balance between residential and nonresidential development and considers its impact on the City's 2% income tax. Given that future growth is expected to be heavily weighted towards nonresidential development, it is anticipated to have a positive impact on the City's income tax base and on its financial ability to provide services to citizens.

This diverse and healthy economic base provides the foundation for the future of the Dublin community. The employment tax base has allowed the City to provide quality services and funding for an aggressive capital improvements program. Continuing to attract new nonresidential development while retaining our current business customers will provide for a strong financial future.

In 2018, the City updated a Special Area Plan (within the Community Plan) for the West Innovation District which reevaluated recommendations and policies from previous Economic Advancement Zones. The West Innovation District Plan provides recommendations for land use, transportation and utility infrastructure improvements to support future growth of 1,100 acres of mostly undeveloped land on the western edge of the City. The land use recommendations focus on business growth for office – flex, research, lab and tech space and clean manufacturing – to help diversify the City's economic base. The Plan also includes a coordinated plan for the Ohio University campus.

The City also adopted a new Special Area Plan, the Dublin Corporate Area Plan in 2018, to address the City's legacy office districts. The Plan provides an in-depth analysis of approximately 1,000 acres of area located within the Metro, Blazer and Emerald business districts located south of SR 161, north of Tuttle Crossing Boulevard and between Britton Parkway and Frantz Road. The Plan is intended to address the needs of the business community and ensure these aging office parks remain competitive by introducing mixed uses to the area, provide increased infrastructure, updating parking, building facades and landscaping treatments and provide additional transportation options.

In 2019, the City continued to work on the Mobility Study. The objective of the Mobility Study is to provide for a range of mobility options within the community. Currently, the implementation of a workforce shuttle and additional transportation options for aging and disabled populations is underway. The City finalized recommendations and strategies for a Parking Study focusing on parking management strategies in the City's downtown area.

In 2020, the City continued to implement and evolve the Community Plan, and various Special Area Plans and study initiatives provided the basis for well-managed growth and development within the City. These Plans serve as the primary basis for decision making in public policy areas such as land use, densities, annexation and capital programming for identified public infrastructure needs.

In 2021, an update to the Dublin Corporate Area Plan was presented to the Council, which contemplated opportunities for infill and redevelopment within the Metro Center area. The recommendations target mixed-use development, including residential, retail, restaurants to support office use, focus on sustainability, integration of open space, and focus on transportation and mobility for all modes. Also, in

2021, the City began an initiative called the Dublin 2035 Framework, which sought to identify transformational ideas for the City as it looks to the future. The Framework included input from stakeholders and the public to identify these ideas for the Council's consideration, which include such topics as connectivity, education, culture, recreation and mobility.

The continued implementation and evolution of the Community Plan, various Special Area Plans and study initiatives will provide the basis for well-managed growth and development within the City. These Plans serve as the primary basis for decision making in public policy areas such as land use, densities, annexation and capital programming for identified public infrastructure needs.

The City also continued to work toward its visionary goal to become the most connected in the nation. This goal was identified prior to the COVID-19 global pandemic as the City recognized the changing nature of work and the impact it was likely to have on the community. While the movement to remote work and connected environments was anticipated, the timeline for its adoption was certainly accelerated. This goal continues to inform and inspire a whole portfolio of projects and initiatives that have as their foundation the availability of Broadband Internet Services. Additionally, "connection" in a larger sense is inclusive of a range of technologies, programs, services, and processes. A number of initiatives have been advanced under the umbrella of the City's Smart City Program including Smart City, Intelligent Community, Smart Spaces, Smart Neighborhoods, Smart Homes and Smart Mobility. Each of these is dependent on broadband which for the City of Dublin depends on our fiber program. The City is continuing to work to promote the availability of competition in areas of the City where there currently is none as well as promote the availability of higher bandwidths so that all residents have access to 100 Mbps or greater.

The City of Dublin continues to make tremendous strides in establishing a thriving community for residents and corporate citizens. As we set our priorities for the coming years, Dublin City Council and management continue to strive toward achieving superior results in our services, residential and nonresidential development, fiscal health and corporate community. In 2018, the National Citizen Survey (NCS), in partnership with the National Research Center, was sent via mail to 1,500 randomly selected residents representing all four wards of the City. The survey data helps measure resident perceptions of livability, governance and city services, and is used in guiding policy decisions to enhance and continue high-quality city services and quality of life in Dublin. Results from the latest survey reveal 99% of residents consider Dublin an excellent or good place to live, ranking #7 in the NCS total database compared to communities across the country. While we are humbled and proud of the results from the most recent survey, we strive to continuously improve our service delivery and implement policies that are supportive of the City's strategic focus areas. As public servants, we are committed to creating an environment in which both our residents and businesses can thrive.

## **FISCAL POLICIES AND PROCEDURES**

### Internal Control Structure

Management of the City is responsible for establishing and maintaining an adequate internal control structure. Internal accounting controls are designed to ensure that the assets of the City are protected from loss, theft or misuse and that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits require estimates and judgment by management.

We believe the City's internal control structure adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions. Because of inherent limitations in any internal control structure, errors or irregularities nevertheless may occur and not be detected. Also, projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or the degree of compliance with the procedures may deteriorate.

### Budgetary Controls

The annual budget serves as the foundation for the City's financial planning and control. All departments of the City are required to submit requests for budget appropriations to the City Manager in accordance with the annual budget calendar. After numerous meetings with department directors, the City Manager, in concert with the City's Director of Finance present a proposed annual operating and capital improvements program plan to City Council for their review and approval.

In addition to internal accounting controls, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriation ordinance approved by City Council. Activities of all funds are included in the annual appropriation ordinance. All funds except Agency Funds are legally required to be budgeted. Upon adoption of the annual appropriation ordinance by City Council, it becomes the formal budget for City operations. The appropriation ordinance controls expenditures at the fund and department or major organizational unit level, further classified by office or division, and, within each, the amount appropriated for personal services, other expenses, capital outlay, debt service, and transfers and advances (the legal level of control), and may be amended or supplemented by Council during the year as required. Appropriations within a division may be transferred within the same fund and division with approval of the City Manager, or their designee.

### Debt Administration

As evidenced by the \$251.9 million that has been programmed in the 2022-2026 CIP, the City has significant demand for additional infrastructure. Several capital projects over the past few years have been funded utilizing proceeds from long-term debt. The City's CIP document provides a summary of additional infrastructure needs anticipated to be funded with long-term debt – primarily water and sewer improvements as well as parkland development. Annual debt service payments are paid from multiple revenue sources, including income tax revenue allocated for debt service, fees from utility operations, service payments from TIF districts, and property tax revenue.

As of December 31, 2021, the City had \$206,054,460 in long-term obligations outstanding, excluding compensated absences and net pension and other postemployment benefit (OPEB) liabilities. Under current state statutes, the City's general obligation debt issuances are subject to a legal limitation based on the total assessed value of real and personal property. Total general obligation debt of the City, exclusive of certain exempt debt, shall never exceed 10.5% of the total assessed valuation. The unvoted general obligation debt of the City cannot exceed 5.5% of the total assessed valuation. As of December 31, 2021, the City had a legal debt margin for total debt of \$276,661,133 and a legal debt margin for unvoted debt of \$144,917,736. Of the legal limit of \$276,661,133 for total debt, the City does not have any outstanding debt, leaving a debt capacity of \$276,661,133. Of the \$144,917,736 legal limit for unvoted debt, the City does not have any outstanding debt, leaving the entire \$144,917,736 available.

In October of 2021, the City received a "Aaa" rating from Moody's Investors Service ("Moody's"), and a "AAA" rating from both Fitch Ratings ("Fitch") and S&P Global Ratings ("S&P") on three new issues - a \$6.96 million general obligation bond issue, a \$7.27 million general obligation bond issue and a \$1.5 million general obligation bond issue. The bonds were issued for the purpose of refunding previous bond issues and improving the City's sanitary sewer system. See note I in the notes to the financial statements for more information. The ratings achieved on the City's general obligation bonds represent each respective agency's highest rating available, and enable the City's debt to be issued at lower interest rates, resulting in substantial reductions in future debt service payments. The City's diverse and growing economic base, strong regional and local economies, the City's history of operating surpluses and the continued use of that surplus to fund capital projects, and the City's continued long-term planning efforts will help maintain high credit ratings.

## OTHER INFORMATION

### Use of This Report

This report is published to provide to City Council, as well as to our residents and other interested persons, detailed information concerning the financial condition of the City. We believe the information, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial activity of our funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial activity have been included. Copies of this report have been placed in the Dublin branch of the Columbus Metropolitan Library system, for use by the general public. It is also available on the City's website at [dublinohiousa.gov](http://dublinohiousa.gov).

### Awards

The GFOA awarded a *Certificate of Achievement for Excellence in Financial Reporting* to the City of Dublin, Ohio for its Annual Comprehensive Financial Report for the fiscal year ended December 31, 2020. The Certificate of Achievement is the highest form of recognition for excellence in financial reporting. This was the thirty- second consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized. This report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### Acknowledgments

This annual comprehensive financial report was made possible by the dedicated efforts of the entire Department of Finance staff, and in particular Jerry O'Brien, CPA, MBA, CGFM, Chief Accountant and Robyn Howard, CPA, Accountant. Our sincere appreciation is extended to each of them, and the others throughout the City, whose efforts have made this report possible.

Sincerely,

Dana L. McDaniel  
City Manager

**Report on the Audit of the Financial Statements**

***Opinions***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dublin, Ohio (the City) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules, schedules for infrastructure assets accounted for using the modified approach, and schedules of pension information and other postemployment information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated July 28, 2022, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

#### (Unaudited)

As management of the City of Dublin (the City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2021. We encourage readers to consider the information presented here in conjunction with the City's basic financial statements and required supplementary information, which follow this section.

#### Financial Highlights

- The City's total net position increased \$53.8 million. Net position of Governmental Activities increased \$53 million, while net position of Business-Type Activities increased \$762,000.
- Governmental activities had general revenues that accounted for \$120.9 million of all governmental revenues. Program specific revenues in the form of charges for services, grants, and contributions accounted for \$38.1 million of total governmental revenues of \$158.9 million.
- Enterprise funds reflected a total operating loss of approximately \$539,000. Specifically, the Water Fund reflected an operating loss of \$1 million, while the Sewer Fund reflected operating income of \$463,000. The change in net position for the enterprise funds was an increase of \$762,000 primarily due to an increase in capital contributions from governmental funds and from developers.
- The City had \$105 million in expenses related to governmental activities. \$38.1 million of these expenses were offset by program specific charges for services, grants, and contributions. General revenues (primarily income taxes) of \$120.9 million were sufficient to provide for these programs. The City had \$5 million in expenses related to Business-Type Activities. \$4.9 million in program specific charges for services were insufficient to cover expenses.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to private-sector business.

The *statement of net position* presents information on all of the City's assets, deferred outflows/inflows of resources, and liabilities with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses reported in this statement for some items will only result in cash flows in future fiscal periods, such as special assessments revenue and employees' earned but unused vacation leave.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees or charges (business-type activities). The governmental activities of the City include general government, community environment, basic utility services, leisure time activity, security of persons and property, public health services, and transportation. The business-type activities of the City include a water system, a sanitary sewer system, and a merchandising operation.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that are segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

*Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental funds' balance sheet and governmental funds' statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 70 individual governmental funds. Information is presented separately in the governmental funds' balance sheet and in the governmental funds' statement of revenues, expenditures, and changes in fund balances for the General Fund, the Safety Fund, the General Obligation Debt Fund, the Capital Improvements Tax Fund, the Capital Construction Fund, and the Bridge Street Fund, all of which are considered to be major governmental funds. Data from the other 57 governmental funds are combined into a single aggregated presentation for all nonmajor governmental funds.

*Proprietary funds* maintained by the City are comprised of two different types, enterprise and internal service. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. Enterprise funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match. The City uses enterprise funds to account for its water, sanitary sewer, and merchandising operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions, including employee benefits self-insurance, and workers' compensation self-insurance. The services provided by these funds primarily benefit the governmental rather than the business-type functions. As such, they have been included within governmental activities in the government-wide financial statements.

*Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is similar to that used for proprietary funds.

**Notes to the basic financial statements.** These detailed disclosures provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents budgetary comparison schedules for the General Fund and Safety Fund as required supplementary information (RSI). The schedules provide both original and final budgeted amounts, and actual results, for 2021. A summary of the condition levels for road and bridge infrastructure assets accounted for using the modified approach and information regarding the City's net pension liability and net other postemployment benefits (OPEB) liability are also included as RSI.

## Government-wide Financial Analysis

The statement of net position looks at the City as a whole. Table 1 provides a summary of the City's net position for 2021 compared to 2020.

\* These categories of net position have been reclassified while total net position remained the same.

The net pension liability (NPL) and the postemployment benefits liability (OPEB) are the two largest liabilities reported by the City at December 31, 2021 and are reported pursuant to GASB Statement 68,

"Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27" and GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises accounting for costs related to postemployment benefits. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the City's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB

liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

Current and other assets of the City's governmental activities decreased \$3 million. The most significant decrease was in cash which decreased \$22.4 million from 2020. This was due to purchasing three parcels of land for development and due to paying significant costs on the Riverside Park project. Service payments receivable increased by \$5.3 million primarily due to the expected increase in service payments from the Perimeter West TIF and the Bridge Park Incentive District TIF.

Similarly, capital assets, net of depreciation increased \$50.8 million for governmental activities. This increase was due to the purchase of land for future economic development and several new and continuing infrastructure projects. Also, there was a significant increase in developer donated infrastructure assets mostly related to the Bridge Street District project. Significant projects in 2021 included continued work on the Riverside Park, the Shier Road to Eiterman Road project, and the Avery Road/Shier Rings Road roundabout project.

Total liabilities of the City's governmental activities (excluding the pension/OPEB liability) increased \$9 million. The increase was primarily due to an increase in long-term liabilities in the amount of \$5.9 million. This was primarily due to the issuance of a long-term note payable to the Ohio Department of Transportation for the US33/ST RT161 project.

As noted previously, net position may serve over time as a useful indicator of a government's financial position. The largest portion of the City's net position reflects its investment in capital assets (e.g. land, buildings, improvements other than buildings, machinery and equipment, and infrastructure), less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; therefore, they are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

At the end of the 2021 fiscal year, the City is able to report positive balances in all categories of net position except for unrestricted.

Total net position for governmental activities increased \$53 million. This increase was due to a decrease in expenses due a decrease in the OPEB liability because of changes to the health care plan. A significant amount of donated capital infrastructure by developers also contributed to the increase.

There was an increase in net investment in capital assets, for governmental activities of \$53.1 million. This increase is due to the addition of land, both depreciable and non-depreciable infrastructure, buildings, and improvements other than buildings, various pieces of equipment, and vehicles, as well as construction in progress for various infrastructure projects.

An additional portion of the City's net position represents resources that are subject to legal restrictions as to how they may be used. The remaining balance of unrestricted net position may be used to meet the City's ongoing obligations to citizens and creditors. It is important to note the unrestricted net position of the City's business-type activities may not be used for governmental activities.

The restricted net position of the City's governmental activity increased \$7.5 million primarily due to a significant increase in grants to the Capital Improvements Tax Fund. Some of the larger grants are intended to fund the US33/ST RT161 and Ohio University Boulevard projects.

Unrestricted net position of governmental activities decreased \$7.6 million due primarily to expenses for projects that will not be capitalized.

Total net position of the City's business-type activities increased \$762,000, primarily due to to a decrease in decrease in expenses on maintenance projects and a decrease in expenses due to changes in the OPEB liability.

Table 2 shows the changes in net position for the years ended December 31, 2021 and December 31, 2020.

Overall, governmental activities program revenues increased \$20.3 million from 2020.

Charges for services is derived mostly from user fees collected from the City's various recreation facilities, programs, community events, permit, inspection, and license fees charged by the City for development-related activities. Charges for services increased \$1.9 million due to the return of the annual Dublin Irish Festival albeit on a smaller scale, as well as the Dublin Recreation Center being open the entire year as opposed to being closed for part of the year in 2020 due to the COVID pandemic.

Capital grants and contributions increased \$20.8 million due to developer donations of infrastructure. Most of the donated infrastructure was in the Bridge Street District. Operating grants and contributions decreased \$2.4 million due to the receipt of grant monies through the CARES Act in 2020. This grant was to help with expenses incurred by the City because of the COVID pandemic. The City received \$2.6 million in grant monies through the American Rescue Plan Act in 2021. However, due to accounting requirements

for this type of grant, this money was reported as unearned revenue in 2021 since it had not been expensed at year-end.

The City's most significant general revenue source is its 2% local income tax, which experienced a \$7.9 million increase in 2021 due to an increase in net profits from businesses located within the City. Some of the businesses provided services that helped mitigate the impact of the pandemic. Also, there were increased withholdings of income taxes as businesses began to recover from the pandemic.

The "General government" expense function includes the activities of City Council, Boards and Commissions, Legislative Services, City Manager, Human Resources, Volunteer Resources, Communications, Administrative Services, Finance, Economic Development, and Legal Services functions. Maintenance of City-owned buildings, vehicles and equipment is also considered a general government expense. "Community environment" includes Land Use and Long Range Planning, Engineering, and Building Standards. "Basic utility services" are primarily costs associated with refuse collection and recycling programs. "Leisure time activities" relate to the Dublin Community Recreation Center, outdoor pools, maintenance of parks and recreation facilities, community events such as the annual Dublin Irish Festival, and other recreation programs. "Security of persons and property" includes the Police and street lighting. "Public health services" are comprised of the City's contracted services with Franklin County Board of Health and operations of the City-owned cemetery. "Transportation" reflects costs incurred by Public Service in maintaining the City's roads, traffic signals, storm sewers, bike paths, sidewalks, and snow removal.

Expenses reported for governmental activities decreased \$4.2 million. There were significant decreases to all functions except transportation. This decrease was due to changes in the OPERS OPEB liability. On January 15, 2020, the OPERS Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care Plan. These changes significantly decreased the total OPEB liability reported as of December 31, 2021.

The transportation function expenses increased \$14 million due to expenses for the cost of the City's portion of the US33/ST RT161 project that will not be a capital asset of the City.

### **Business-type activities**

Business-type activities increased the City's net position by \$762,000 in 2021. There was an increase in operating revenue in 2021 from 2020 of \$119,000 and \$103,000 in the Water Fund and Sewer Fund, respectively, which was insignificant. There was a decrease in nonoperating revenues of \$594,000 due to changes in the fair value of investments. There were decreases in operating expenses in the Water and Sewer Funds of \$92,000 and \$2.0 million, respectively, due primarily to a decrease in the Sewer Fund of expenses for sewer line maintenance that were not capitalized.

Total current assets decreased \$61,000 which was insignificant. Total non-current assets increased in the Sewer Fund \$1.6 million due to new construction-in-progress and developer donated assets. Additions to capital assets also included developer donated water lines. Total non-current assets decreased in the Water Fund due to depreciation expense exceeding additions to assets.

The increase in net position of \$762,000 is primarily due to a decrease in decrease in expenses on maintenance projects and a decrease in expenses due to changes in the OPEB liability.

Investment in capital assets decreased \$22,000, which was due to depreciation expense. Restricted net position increased due to unspent bond proceeds in the Sewer Fund at year-end that had not been expensed for capital projects. Unrestricted net position increased \$225,000 overall due to the reduction in OPEB expenses in the Sewer Fund.

## Financial Analysis of the City's Funds

As previously noted, the City uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

**Governmental funds.** The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of December 31, 2021, the City's governmental funds reported combined ending fund balances of \$169.5 million, a decrease of \$20.1 million in comparison with the prior year. There was a \$34.6 million deficit in unassigned fund balance overall, primarily due to projects in capital funds whereby the capital funds received cash from other funds to pay for projects that will be repaid in the future with service payment revenue. The General Fund had a \$42.1 million unassigned balance which is available for spending at the City's discretion. The remainder of fund balance is not available for new spending because it is either in nonspendable form, or is restricted, committed, or assigned to other uses. A discussion of each the City's major governmental funds follows:

The *General Fund* is the primary operating fund of the City. As noted above, at December 31, 2021, unassigned fund balance of the General Fund was \$42.1 million, while total fund balance was \$110 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to the total fund expenditures, including transfers out. Unassigned fund balance represents 48.5% of total General Fund expenditures, including transfers out, while total fund balance represents 126.8% of that same amount.

The fund balance of the General Fund decreased \$9.8 million during 2021. Revenues exceeded expenditures by \$14.2 million during 2021. In 2020, revenues had exceeded expenditures by \$29.3 million. Overall, revenues in 2021 increased \$1.9 million. The most significant changes in revenues between 2021 and 2020 were in income taxes and investment earnings. There was a \$3.8 million increase in income taxes and a \$2.3 decrease in investment earnings. The increase in income taxes was due to increased profits of businesses. Some of the businesses provided services that helped mitigate the impact of the pandemic. Investment earnings decreased due to negative trends in the market.

Expenditures increased approximately \$17 million during the same period. The most significant increase was in capital outlay due to three significant purchases of land intended for future economic development projects.

There was a \$15.1 million decrease in cash in the General Fund in 2021. This decrease was due to the land purchase discussed above.

The General Fund continues to have a healthy fund balance, exceeding the City's minimum level of 50% of General Fund expenditures pursuant to the General Fund Balance Policy (cash basis).

The *Safety Fund* is a special revenue fund that accounts for revenues and expenditures for the operations of the City's Police Department. Major revenue sources are property taxes, charges for services, and subsidies from the General Fund. The fund balance as of December 31, 2021, was \$1.9 million.

Revenues for 2021 were \$4.5 million with charges for services of \$3.9 million being the most significant. Revenues were consistent from 2020 to 2021 with a decrease of only \$68,000, which was insignificant.

Expenditures were \$17.3 million, which was an increase of \$1.5 million from 2020. The increase was primarily due to an increase in wages and benefits. This increase was due to the hiring of new officers and

increases in wages that included retroactive salary payments that were negotiated in the new labor contract.

Transfers in from the General Fund to support operations were \$12.6 million, which was a decrease of \$820,000.

The *General Obligation Debt Fund* is a fund used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources. Major sources of revenue are transfers from other governmental funds, investment income, and premiums from debt issuances. The fund balance as of December 31, 2021, was \$2.6 million. Transfers in were \$13.5 million, which was an increase of \$1.3 million from 2020. Debt service payments in 2021 were \$13.9 million, which was a \$700,000 decrease from 2020. The debt service payments decreased in 2021 due to the refunding of some bond issues in 2020. There was a \$14.9 million payment to an escrow agent to refund previously issued bonds.

The *Capital Improvements Tax Fund* receives 25% of the total City income tax collections as mandated by the voted levy. The fund had a balance of \$83.3 million as of December 31, 2021, an increase of \$5 million from the prior year. Revenues in 2021 increased \$6.4 million from 2020. There was a \$2.0 million increase in income taxes due to increased profits of businesses. Some of the businesses provided services that helped mitigate the impact of the pandemic. There was a \$4.0 million increase in intergovernmental revenue due to grants received for the University Boulevard project and the US33/ST RT161 projects.

As in prior years, significant expenditures were made on various transportation projects, building improvements, park and recreational infrastructure improvements, capitalized equipment, and maintenance of the City's infrastructure such as streets, sidewalks, bridges and shared-use paths. Expenditures increased \$12.2 million primarily due to the Shier Rings Road and the Ohio University Boulevard projects.

The *Capital Construction Fund* is a capital projects fund that accounts for bond proceeds received to be expended for public infrastructure projects. Revenue decreased \$65,000 from 2020, which was insignificant. Expenditures in the Capital Construction Fund decreased \$2 million, primarily due to the Riverside Park and Dublin Link Bridge projects nearing completion.

During 2020, proceeds of bonds of \$20 million were received into the fund for the construction of new projects while in 2021, there were no debt proceeds. This caused the fund balance to decrease by \$12.7 million. The fund had a deficit balance of \$7.9 million as of December 31, 2021.

The *Bridge Street Fund* is a capital projects fund that accounts for the construction of public infrastructure improvements to be made in accordance with the Bridge Street Corridor Vision Plan adopted by City Council. There were no revenues in 2021 as well as 2020. Expenditures decreased \$12,000 which was not significant. At December 31, 2021, the fund had a deficit fund balance of \$38 million. In future years, the deficit fund balance is expected to be eliminated as service payments received will be used to repay the amounts owed to other funds.

**Proprietary funds.** The City's proprietary funds provide the same information found in the government-wide financial statements, but in more detail.

Unrestricted net position at the end of the year amounted to approximately \$12.8 million, (\$1.3) million, and \$0 for the Water, Sewer and Merchandising funds, respectively. The Merchandising Fund was closed by an ordinance from Council and the balance of the fund was transferred to the General Fund. The changes in net position in the Water, Sewer and Merchandising enterprise funds were approximately (\$335,000), \$1.1 million, and (\$34,000) respectively. Major factors related to the change in net position of these funds were discussed earlier.

## **General Fund Budgetary Highlights**

The City's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of receipts, disbursements, and encumbrances. The City's budget is adopted at the object level (personal services and other expenditures) within each fund and department by City Council in the form of an appropriations ordinance. Total original appropriations for fiscal year 2021 in the General Fund, including those for transfers out and advances out, were \$92.5 million, while the final total appropriations for the fiscal year were \$114.2 million.

General Fund appropriations were amended during the course of the year in the amount of approximately \$21.7 million (revised appropriations more than the original appropriations). The largest portion of that total, (\$15.1) million, was for the purchase of three parcels of real estate property intended for future economic development not in the original budget. The second significant increase in appropriations was two advances totaling \$5.7 million made to Fund 457 to be used to help fund the Riverside Park project.

Actual expenditures for the year were \$8.1 million less than appropriated, exclusive of interfund transfers and advances. Actual expenditures were well below appropriations in a number of divisions. The most significant reason for this decrease was that salaries and wages were less than expected due to vacancies that went unfilled. Some services and projects were scaled down or delayed due to the COVID pandemic. Among these were a reduction in fuel usage by the City and a reduction in fuel sales to other entities. There was a reduction in economic incentive payments to companies due to the impact of the pandemic.

Final budgeted revenues increased over original budgeted revenues by \$4.4 million all of which was in income taxes. In total, actual revenues were more than budgeted final revenues by \$4.4 million. The majority of this increase was in income taxes.

The increase of budgeted income tax revenues and the increase in actual over budgeted was because some of the businesses provided services that helped mitigate the impact of the pandemic. Also, there were increased withholdings of income taxes as businesses began to recover from the pandemic.

## **Capital Assets**

At the end of 2021, the City had \$702.6 million invested in capital assets (net of accumulated depreciation) for governmental activities. This was an increase of \$50.8 million from 2020. Additions to capital assets included land, both depreciable and non-depreciable infrastructure, buildings, various pieces of equipment, and vehicles, as well as construction in progress for various infrastructure projects. Disposals for the year consisted of land, a building, various pieces of equipment and vehicles.

At the end of 2021, the City had \$81 million invested in capital assets (net of accumulated depreciation) for business-type activities. This was an increase of \$1.2 million from 2020. This increase was a result of infrastructure contributed by developers and additions to construction-in-progress for several ongoing water and sewer projects.

For further information regarding the City's capital assets, refer to Note G in the notes to the basic financial statements.

The City uses a *modified approach* in accounting for its road and bridge infrastructure assets. This method of accounting does not charge depreciation expense against the underlying asset, and costs incurred in preserving the asset (e.g. costs that extend the useful life of the asset, such as road resurfacing) are not capitalized but treated as current year expenses. However, an assessment of each asset's condition must be made periodically to determine if the infrastructure is being sufficiently maintained at an established minimum acceptable condition level. City policy is for condition assessments to be made at least once every three years.

The overall condition of the City's road and bridge infrastructure network in the three most recent assessment periods, 2019, 2016, and 2013, met the City's condition requirement of having a majority of the street mileage and bridges rated as "good" or better, and having no more than 10% of the bridges rated as worse than "poor" condition.

In 2019, 58.1% of the City's road-miles were considered to be in a "good" condition or better, compared to 67.8% in 2016 and 70.5% in 2013. The average PCI ratings of the streets for the latest three assessments were above 75.0 which is the minimum requirement.

In 2019, 89.3% of the City's bridges were rated "good" or better, as compared to 86.8% and 96.1% in 2016 and 2013, respectively. One bridge was rated "poor or worse" in 2019 and no bridges were rated in a condition "poor or worse" in 2016, or 2013.

The required level of expenditures determined to be needed for 2021, 2020, 2019, 2018, and 2017 was \$4,710,763, \$4,137,858, \$4,055,101, \$3,972,344, and 3,889,586, respectively. In 2021, 2020, 2019, 2018, and 2017 the City expended \$6,330,653, \$5,032,552, \$6,579,887, \$4,199,077, and \$3,992,014, respectively, towards maintaining its road network. The trend has been to increase expenditures over the last five years, which produced an excess of actual expenditures over required expenditures of \$5,368,531. The City expects to continue to expend an amount in excess of the amount required to maintain its streets and bridges at the levels of condition that it has determined meets the needs of the citizens of the City.

For further information regarding the City's non-depreciable infrastructure, refer to the required supplementary information.

### **Long-term debt**

At December 31, 2021, the City had \$206.1 million of long-term bonds, loans and other obligations outstanding, excluding compensated absences, pension and OPEB liabilities and unamortized deferred amounts. Of this total, \$189.7 million was accounted for in governmental activities and \$16.3 million was supported by business-type activities.

For 2021, the City is reporting a net pension liability of \$43.6 million in governmental activities and \$545,000 in business-type activities. In addition, for 2021, the City is reporting a net other post-employment benefits (OPEB) liability of \$2.8 million in governmental activities.

During 2021, the City issued the 2021 Various Purpose Improvement and Refunding Bonds in the amount of \$15.7 million. Proceeds of the refunding portion of the bonds issued were used to refund outstanding balances of previous bond issuances in governmental activities in the amount of \$12.5 and in business-type activities in the amount of \$1.7 million. Bonds were issued in the amount of \$1.5 million for the purpose of paying the costs of the municipal sanitary sewer system by extending certain sewer lines and repairing and lining certain existing sewer lines.

Moody's Investors Service, S&P Global Ratings, and Fitch Ratings assigned a "AAA", "AAA", and "Aaa" rating, respectively, in conjunction with this issuance. These are the highest ratings available from the three agencies.

Additional details on the City's long-term liability can be found in Note I to the basic financial statements.

## **Current Issues**

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the City. The City's investment portfolio and the investments of the pension and other employee benefit plan in which the City participates have incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the City's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

The financial impact of the Covid-19 pandemic on the City of Dublin's revenues and expenditures have, to this point, been manageable without having to reduce city services or operations that impact residents. The latest COVID-related federal response bill, the American Rescue Plan (ARP) Act of 2021, was enacted on March 11, 2021. This is the sixth federal bill appropriating funds to respond to and recover from the pandemic. The law allows the funds to be used through December 31, 2024.

## **Request for Information**

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to show accountability for the money it receives. This report is also available at the Dublin branch of the Columbus Metropolitan Library system, and on the City's website at [www.dublin.oh.us](http://www.dublin.oh.us). Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Department of Finance, City of Dublin, 5555 Perimeter Drive, Dublin, Ohio 43017 or by calling (614) 410-4400.

IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2021

|                                                                                                                                                                                                                                                                                                                                                                                                             |                    |                        |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|------------------------|
| <b>Net change in fund balances - total governmental funds</b>                                                                                                                                                                                                                                                                                                                                               |                    | <b>\$ (20,051,239)</b> |
| <i>Amounts reported for governmental activities in the statement of activities are different because:</i>                                                                                                                                                                                                                                                                                                   |                    |                        |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital asset additions exceeds depreciation expense in the current period.                                                                                                |                    |                        |
| Capital asset additions                                                                                                                                                                                                                                                                                                                                                                                     | 50,191,026         |                        |
| Current year depreciation                                                                                                                                                                                                                                                                                                                                                                                   | <u>(9,631,856)</u> |                        |
| Total                                                                                                                                                                                                                                                                                                                                                                                                       |                    | 40,559,170             |
| The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net position.                                                                                                                                                                                                                                               |                    | (1,810,912)            |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.                                                                                                                                                                                                                                                                          |                    |                        |

| Investment and miscellaneous income                                                                                                                                                                                                                                                                                                                                                                         | <u>12,037</u>      |                        |
| Total                                                                                                                                                                                                                                                                                                                                                                                                       |                    | 18,053,623             |
| Proceeds of bonds, notes, and loans are reported as an other financing source in the governmental funds, however, in the statement of activities, they are not reported as revenues as they increase the liabilities on the statements of net position.                                                                                                                                                     |                    | (29,161,123)           |
| Repayment of bond, loan, and other long-term principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position.                                                                                                                                                                                                                       |                    | 24,809,561             |
| Premiums on general obligation bonds are recognized as other financing sources in the governmental funds, however, they are amortized over the life of the issuance in the statement of activities.                                                                                                                                                                                                         |                    | (2,601,802)            |
| Deferred outflows of resources include deferred charges on refundings which do not consume current financial resources and, therefore, are not reported in the funds.                                                                                                                                                                                                                                       |                    |                        |
| In the statement of activities, interest is accrued on outstanding bonds and loans, whereas in governmental funds, an interest expenditure is reported when due. Amortization of bond premiums and deferred charges on refundings are not reported in the funds, but are allocated as an expense over the life of the debt in the statement of activities.                                                  |                    |                        |
| Decrease in accrued interest payable                                                                                                                                                                                                                                                                                                                                                                        | 38,101             |                        |

| Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.                                                                                                                                                                                            |                    | (101,125)              |
| The internal service funds used by management to charge the costs of health and workers' compensation insurance to individual funds are not reported in the government-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service funds are allocated among the governmental activities. |                    | (284,181)              |
| Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.                                                                                                                                                                                                                                 |                    | 5,416,296              |
| Except for amounts reported as deferred inflows/outflows, changes in the net pension liability/net OPEB liability are reported as pension expense/OPEB expense in the statement of activities.                                                                                                                                                                                                              |                    | <u>17,095,942</u>      |

SEE ACCOMPANYING NOTES TO THE BASIC FINANCIAL STATEMENTS

## CITY OF DUBLIN, OHIO

### NOTES TO THE BASIC FINANCIAL STATEMENTS

For the Year Ended December 31, 2021

#### **NOTE A--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the City of Dublin, Ohio (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

#### **1. Reporting Entity**

The City was incorporated as a Village under the laws of the State of Ohio in 1881. The City is a home rule municipal corporation and operates under its own Charter. The original Charter, which provided for a Council/Manager form of government, was adopted on July 24, 1979. A revised Charter was approved by voters on March 19, 1996 and was effective on July 4, 1996.

The reporting entity of the City includes the following services: security of persons and property (police protection), public health services, leisure time activity (maintenance of parks and recreational programming), community environment (development), basic utility services (solid waste management, and depreciation on the "Dublink" fiberoptic network infrastructure), transportation (highway and street maintenance) and general government services. The City is also responsible for the construction, maintenance and repairs associated with the water and sewer lines, while the City of Columbus provides water and sewer treatment services.

The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, *The Financial Reporting Entity as amended by GASB Statement No. 61*, in that the financial statements include all the organizations, activities, functions of the City and component units for which the City (the reporting entity) is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and either (1) the City's ability to impose its will over the component unit, or (2) the possibility that the component unit will provide financial benefit to or impose a financial burden on the City. The City may also be considered financially accountable for organizations that are fiscally dependent on it. Based on this definition, the City of Dublin has no component units.

The following organization is discussed due to its relationship to the City:

Central Ohio Interoperable Radio System. The Central Ohio Interoperable Radio System (COIRS) is a jointly-governed organization between the City, the City of Worthington, the City of Hilliard, and Delaware County (the "members"). Formed as a Council of Governments as permitted under Ohio Revised Code Section 167.01, the intent of the COIRS is for the four members to share in providing the financial resources and infrastructure needed to operate a digital 800 MHZ public safety radio system used for dispatching emergency response and law enforcement services across the four jurisdictions. The COIRS is controlled by a Governing Board consisting of the City Managers or County Administrators, or their representatives, of the members. The degree of control exercised by any member is limited to its representation on the Governing Board. Each member initially contributed radio system infrastructure assets, and annually are assessed a required contribution based on its utilization of the system and related operating costs. In accordance with GASB Statement No. 14 as amended by GASB Statement No. 61, the City does not have any equity interest in the COIRS. Financial information may be obtained by writing to Jerry O'Brien, Treasurer, at 5555 Perimeter Drive, Dublin, Ohio 43017, or by calling 614-410-4423.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

### 2. **Government-wide and Fund Financial Statements**

The basic financial statements include both government-wide and fund financial statement presentations.

*Government-wide financial statements* consist of a statement of net position and a statement of activities. These statements report all the assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, and expenses of the City. Governmental activities are presented separately from business-type activities. Governmental activities are normally supported by taxes and intergovernmental revenues, while business-type activities are normally supported by fees and charges for services, are paid for by users of the service, and are intended to be self-sustaining. Fiduciary activities are not included in the government-wide statements but are shown separately.

Interfund activity, and related interfund receivables and payables, have been eliminated in the government-wide statements. These eliminations remove the duplicating effect on assets, liabilities, revenues and expenses that would otherwise occur. Internal service fund balances, whether positive or negative, have been eliminated against governmental activity program expenses shown in the statement of activities. The effect of such interfund services provided and used, however, has not been eliminated.

The statement of activities relates direct program expenses to the direct program revenues for each function in governmental activities and each activity of the business-type activities. Direct expenses are those that are clearly identifiable with a specific function or activity. Indirect expenses, including certain maintenance and overhead costs, are included in the general government function and are not allocated. Program revenues include charges paid by the recipients of the goods or services provided by a program or segment, and grants or contributions that are restricted to meeting the operational or capital requirements of a particular program or segment. Revenues that are not classified as program revenues, including all taxes, are reported instead as general revenues.

*Fund financial statements* consist of a series of presentations reporting on the City's governmental funds, proprietary funds, and fiduciary funds. Major individual governmental funds and major individual enterprise funds are shown as separate columns in the fund financial statements.

The City's major governmental funds are as follows:

General Fund. The General Fund is the accounting entity in which all governmental activity is accounted for, except for activities required to be accounted for in other funds. Revenues in the general fund come primarily from taxes, intergovernmental sources, and fines, licenses and permits. Expenditures involve all the defined program functions, but are mostly general government, community environment, and leisure time activities. Significant amounts are also transferred to other funds to support them.

Safety Fund. A fund provided to account for revenues and expenditures for the operations of the City's Police Department. Major revenue sources are property taxes and subsidies from the General Fund.

General Obligation Debt Service Fund. A fund provided to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources.

Capital Improvements Tax Fund. A capital projects fund into which 25% of the City's income tax receipts are deposited as mandated by the voter-approved levy. Expenditures are restricted or committed to capital improvement projects, and may also be used to support debt service payments on debt issued for capital projects.

Capital Construction Fund. A capital projects fund provided to account for bond issuance proceeds received to be expended for public infrastructure projects.

Bridge Street Fund. A capital projects fund provided to account for the construction of public infrastructure improvements, to be made in accordance with the Bridge Street Corridor Vision Plan adopted by City Council.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

All other governmental funds which are not defined as major funds are aggregated into a single *nonmajor governmental funds* column in the governmental fund statements. These include special revenue funds, debt service funds, and capital projects funds.

The City's major proprietary funds include the following:

Water Fund. The Water Fund is an enterprise fund that accounts for activities associated with the City's water supply. The City is connected to the City of Columbus water system, which provides supply, purification and distribution services. The City is responsible for the construction and maintenance of the water lines. Revenues are derived from user charges, specifically surcharges based on consumption and one-time initial tap-in fees. Expenses relate to the ongoing maintenance of the system.

Sewer Fund. The Sewer Fund is an enterprise fund that accounts for activities associated with the City's sanitary sewers. The City is connected to the City of Columbus sanitary sewer system, which provides sewage treatment services. The City is responsible for the construction and maintenance of the sanitary sewer lines. Revenues are derived from user charges, specifically surcharges based on usage and one-time initial tap-in fees. Expenses relate to the ongoing maintenance of the system. The City's storm water sewers and drainage systems are not included in the fund's activities, but are instead included in governmental activities.

The only other enterprise fund is the Merchandising Fund, which in prior years was classified and presented as a single nonmajor fund in the proprietary fund statements. The activity for this fund had ceased prior to 2021 and the fund was no longer needed. Therefore, during 2021, the fund was dissolved and the balance transferred to the General Fund.

The City also maintains two internal service funds to account for the City's employee benefits self-insurance plan and workers' compensation self-insurance plan activities. Citywide program expenditures are incurred in the funds and the City's various departments reimburse the internal service funds for those costs. These funds are aggregated in a single column in the proprietary fund statements.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing goods and services in connection with the fund's primary ongoing operations. Operating revenues in the enterprise and internal service funds are charges to customers and users for the sales and services provided. Likewise, operating expenses include recurring expenses required to provide the goods and services, such as personal (employee) and contractual services, materials and supplies, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. These include interest earned on investments and interest expense incurred on debt.

The City also maintains fiduciary funds, classified as custodial funds, which are used to account for assets held by the City as agent on behalf of individuals, private organizations, or other governments. The custodial funds are presented separately from the governmental fund and proprietary fund statements.

### 3. **Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment applied to a financial statement is determined by its measurement focus and basis of accounting. *Measurement focus* is the objective of the presentation, that is, what is being expressed in reporting an entity's financial position and activities. *Basis of accounting* is the timing of recognition, that is, when the effects of transactions or events should be included for financial reporting purposes.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

The government-wide financial statements and proprietary fund statements are reported using the *economic resources* measurement focus and the *accrual* basis of accounting. Fiduciary (Custodial) funds present a statement of changes in fiduciary net position which reports additions to and deductions from custodial funds and are presented using the accrual basis of accounting as well. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include income taxes, hotel/motel taxes, property taxes, service payments received in lieu of property taxes, special assessments, intergovernmental revenues, grants and donations. On an accrual basis, revenue from income taxes, special assessments, and hotel/motel taxes is recognized in the period in which the taxpayer's liability occurs. Revenue from property taxes and service payments is recognized in the fiscal year for which the taxes are levied. On an accrual basis, intergovernmental revenues are recognized when the provider government recognizes its liability to the City. Revenue from grants and donations is recognized in the period in which all eligibility requirements have been met.

All governmental funds are reported using the *current financial resources* measurement focus and the *modified accrual* basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). *Measurable* means the amount of the transaction can be determined and *available* means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The availability period for the City is defined as 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for certain compensated absences and claims and judgments, which are recognized when the obligations mature or become due. Principal and interest on general long-term debt is recorded as a fund liability when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year. Proceeds from issuing general long-term debt are reported as other financing sources.

Those revenues susceptible to accrual are income taxes withheld by employers (net of refunds that are paid out of the general fund), hotel/motel taxes, property taxes, service payments, special assessments, interest revenue, intergovernmental revenues and charges for services. Other revenues, including licenses, permits, income taxes other than those withheld by employers, fines and forfeitures and miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received.

The City reports *deferred inflows* on its governmental fund balance sheets. Deferred inflows arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for deferred inflows is removed from the balance sheet and revenue is recognized. Special assessment installments and service payments to be received in governmental funds are recorded as deferred inflows because they do not meet the availability criteria. Property taxes measurable as of year-end and delinquent property taxes, whose availability is indeterminate and which are not intended to finance the current year, have also been recorded as deferred inflows as further described in Note D.

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities, at the date of the basic financial statements and the reported amounts of revenues and expenses (or expenditures) during the reporting period. Actual results could differ from those estimates.

### 4. **Fund Accounting**

The City uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate fund types.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

*Governmental funds* are those through which most governmental functions typically are financed. The acquisition, use and balances of the City's expendable financial resources and the related liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds.

The following are the City's governmental fund types:

General Fund. The General Fund is the general operating fund of the City and is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds. Special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are restricted or committed to expenditures for specified purposes.

Debt Service Funds. Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Capital Projects Funds. Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

*Proprietary funds* are used to account for the City's ongoing activities, which are similar to those often found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds). The following are the City's proprietary fund types:

Enterprise Funds. Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises--where the intent of the City is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis are financed or recovered primarily through user charges; or (b) where the City has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Internal Service Funds. Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost-reimbursement basis.

*Fiduciary fund* types account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, or other governmental units. Custodial funds are the only fiduciary funds maintained by the City. They include deposits (held for individuals and private organizations); hotel/motel taxes (collected on behalf of the Dublin Visitors' & Convention Bureau); sewer capacity charges (City of Columbus); building surcharges and Mayor's Court assessments (State of Ohio); cash held on behalf of the COIRS as its fiscal agent. Amounts collected and held in the Custodial funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations.

### 5. **Encumbrances**

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of money are recorded in order to reserve that portion of the applicable appropriation, is utilized by the City. An encumbrance is a reserve on the available spending authority due to a commitment for a future expenditure and does not represent a liability. In the fund financial statement balance sheets, encumbrances outstanding at year-end are offset by an assigned fund balance in the General Fund only.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

### 6. **Cash and Investments**

For investment purposes, the City pools all individual fund cash balances, except balances with fiscal and escrow agents and certain certificates of deposits in the enterprise funds, in a central bank account and short-term cash equivalents. Individual fund balance accounting integrity is maintained. Detailed information regarding all of the City's cash deposits and investments is provided in Note B. In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the City records all its investments at fair value as defined in the statement.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

### 7. **Materials and Supplies Inventories**

Inventories are valued at cost, using the first-in/first-out (FIFO) method and are determined by physical count. Inventory consists of expendable supplies held for consumption. The consumption method is used to account for inventories. As such, inventories are recognized as expenditures when the goods are used. Reported inventories in governmental funds are offset by a nonspendable fund balance, which indicates they are unavailable for appropriation.

### 8. **Prepayments**

Payments made to vendors for services that will benefit periods beyond year-end are recorded as prepayments. The consumption method is used to account for prepaids. Prepayments in governmental funds are offset by a nonspendable fund balance, which indicates they are unavailable for appropriation.

### 9. **Capital Assets**

Capital assets include land and improvements, buildings, equipment, and major network infrastructure (e.g., roads, curbs and gutters, bridges, drainage systems, traffic signals and street lighting, parkland improvements, bicycle paths, water and sanitary sewer lines) and are reported in the applicable governmental or business-type activities columns in the government-wide financial statements, and in the proprietary fund statements. Capital assets are defined by the City as assets with an individual cost in excess of \$5,000 and an estimated useful life of more than one year. All capital assets are valued at cost, where historical cost information is available, or at estimated historical cost, where no historical cost information is available. Donated or contributed capital assets are valued at their acquisition values on the date received.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation is calculated using the straight-line method over the following estimated useful lives:

| Capital Asset                     | Life (Years) |
|-----------------------------------|--------------|
| Buildings                         | 20-50        |
| Machinery and equipment           | 5-20         |
| Improvements other than buildings | 10-20        |
| Water and sanitary sewer lines    | 40-70        |
| Storm sewer lines and structures  | 40-70        |
| Other depreciable infrastructure  | 20-50        |
| Vehicles                          | 5-10         |

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

The City's road and bridge infrastructure network is accounted for using the *modified approach* permitted by GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. The modified approach does not charge depreciation expense against the related infrastructure network as long as 1) the City manages the network using an asset management system and 2) the network is being preserved approximately at or above a stated minimum condition level. The asset management system must provide an up-to-date inventory of the infrastructure network, must perform a condition assessment of the network at least every three years, and must estimate the annual amount each year required to maintain and preserve the asset network at the established minimum condition level. Infrastructure network maintenance and preservation costs that would otherwise be capitalized are instead expensed in the period incurred; only the costs of network additions and capacity improvements are capitalized.

### **10. Compensated Absences**

Vacation and compensatory time benefits are accrued as a liability as the benefits are earned if the employee's right to receive compensation is attributable to services already rendered and it is probable that the City will compensate the employees through paid time off or other means. Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the City's past experience of making termination payments.

The entire compensated absences liability (accumulated vacation, compensatory time and sick leave) is reported on the government-wide financial statements. For employees paid out of governmental funds, those amounts are recognized as liabilities in the respective fund financial statements when they mature or become due. For employees paid out of enterprise funds, those amounts are recorded as an expense and liability in the Business-type activities.

### **11. Service Payments Receivable**

The City receives service payments, in lieu of property taxes, which are assessed on and secured by liens on, the taxable value of private property located in Tax Increment Financing (TIF) districts, as provided for in Ohio Revised Code Section 5709.42. As defined in each respective TIF district agreement, the cumulative total of service payments to be received by the City is limited to the cost of specified public infrastructure constructed by the City in the district. The accrued service payment receivables include those which were measurable at December 31, 2021, but which are offset similar to property taxes discussed in Note D, by a deferred inflow of resources on both basis of accounting.

### **12. Special Assessments**

The City's special assessment bonds are secured by liens on properties and are backed by the full faith and credit of the City as additional security. Accordingly, they are accounted for and reported as long-term liabilities for governmental activities in the government-wide financial statements. The accumulation of resources for, and the payment of principal and interest on these bonds is accounted for in the Special Assessment Debt Service Fund.

### **13. Long-Term Liabilities**

Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the Debt Service Fund for payment early in the following year. For other long-term liabilities, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the government-wide financial statements as long-term liabilities for governmental activities. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds and in the business-type activities.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

### 14. **Net Position**

Net position reflects the accumulated difference between the costs of providing services and the revenues generated from those services, plus general revenues. Net position is comprised of the following:

Net Investment in capital assets. This consists of capital assets, net of accumulated depreciation and net of outstanding debt used to acquire or construct them.

Restricted. This consists of amounts that are legally restricted by outside parties, state law, or enabling legislation. *Restricted for capital projects* includes net position limited to being spent for capital projects by terms of either the City's income tax levy, various TIF agreements, or debt issues. *Restricted for debt service* relate to special assessment tax amounts restricted for retiring the related debt by terms of the levy. When both restricted and unrestricted amounts are available for use, it is the City's policy to use restricted net position first, then unrestricted. As of December 31, 2021, net position restricted by enabling legislation relates to restrictions imposed in TIF agreements entered into by the City and total \$12,112,517.

Unrestricted. This consists of net position that is not defined as net investment in capital assets or restricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

### 15. **Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable. The nonspendable fund balance category includes amounts that cannot be spent because they are not in a spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criteria includes items that are not expected to be converted to cash.

Restricted. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed. The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (ordinance) of City Council. Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned. Amounts in the assigned fund balance classifications are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent outstanding encumbrances established by the City Manager or Director of Finance, as authorized by City Council ordinance.

Unassigned. Unassigned fund balance is the residual classifications for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

## **NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)**

It is the City's policy to use restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

### **16. Interfund Transactions**

During the course of normal operations, the City has numerous routine transactions between funds, most of which are in the form of transfers of resources to provide services, construct assets and service debt. The fund financial statements reflect such transactions as transfers. Operating subsidies are also recorded as transfers. In 2021, there were no nonroutine interfund transactions. In the government-wide statement of activities, the effect of these interfund transactions has been eliminated to avoid the duplicating effect on revenues and expenses.

### **17. Interfund Receivables/Payables**

During the course of operations, transactions occur between individual funds for goods provided or services rendered. In the fund financial statements, these receivables and payables are reported as "due from other funds" or "due to other funds" on the balance sheet, and are normally expected to be liquidated in a year or less. No such amounts were outstanding as of December 31, 2021.

In the fund financial statements, transactions that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans) on the balance sheet.

In the government-wide statement of net position, these interfund receivable and payable balances between governmental funds have been eliminated to avoid the duplicating effect on assets and liabilities, and those amounts between governmental activities and business-type activities are reported as internal balances on the statement of net position.

### **18. Contributed Capital**

Contributions of capital arise from outside contributions of capital assets and from the construction or transfer of capital assets between governmental and business-type activities.

### **19. Pensions/Other Postemployment Benefits (OPEB)**

For purposes of measuring the net pension/OPEB liability, net OPEB asset, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

## **NOTE B--CASH AND INVESTMENTS**

The City maintains a cash and investment pool used by all funds except cash held by fiscal and escrow agents. Each fund type's portion of the pool is displayed on the balance sheet as "cash and investments." Earnings on cash and investments are allocated to the appropriate funds at the discretion of management as permitted by law. For the statement of cash flows, the proprietary fund types consider all highly liquid investments (maturities of three months or less when purchased) to be cash equivalents. In addition, all cash and investments in the pool are also considered to be cash equivalents because they are available to the proprietary funds on demand.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

A reconciliation of cash and investments as shown in the basic financial statements as of December 31, 2021 is as follows:

### Cash and investments per note

|                                    |                       |
|------------------------------------|-----------------------|
| Carrying amount of deposits        | \$ 6,047,623          |
| Carrying amount of all investments | 179,004,361           |
| Cash with fiscal agent             | 987,947               |
| Cash on hand                       | 1,500                 |
| Total                              | <u>\$ 186,041,431</u> |

### Cash and investments per financial statements

|                          |                       |
|--------------------------|-----------------------|
| Governmental activities  | \$ 162,447,447        |
| Business-type activities | 22,991,990            |
| Custodial funds          | 601,994               |
| Total                    | <u>\$ 186,041,431</u> |

**Deposits:** At December 31, 2021, the carrying amount of all the City's deposits was \$186,041,431 and the bank balance was \$6,047,623. Of the bank balance, \$250,000 was covered by federal depository insurance and \$5,797,623 was collateralized with securities held by the financial institution or by its trust department or agent but not in the City's name as defined by GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, and are exposed to custodial credit risk as described below. The Cash with fiscal agent is monies received from the \$5 permissive license tax and is held with the Franklin County Auditor. The cash on hand is monies held by the various City departments to make change when cash payments are received.

Custodial credit risk is the risk that, in the event of a bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the City and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2021, the City's financial institution participated in the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the City to a successful claim by the FDIC.

During 2021, the City and public depositories complied with the provisions of these statutes. All the City's deposits were collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. The collateral was held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the Federal Reserve System, in the name of the depository bank and pledged as a pool of collateral against all of the public deposits held.

**Investments:** The City's investment policies are governed by state statutes and city ordinances which authorize the City to invest in: obligations of the U.S. Treasury or other agencies and instrumentalities of the United States; no-load money market funds; certificates of deposit; commercial paper; bankers' acceptances; repurchase agreements collateralized by United States obligations; medium term notes issued by domestic corporations with greater than \$500 million in assets, or the State Treasury Asset Reserve of Ohio (STAR Ohio). Investment in collateralized mortgage obligations or any form of derivate is expressly prohibited. The City purchases investments only through member banks of the Federal Reserve System or broker-dealers registered with the U.S. Securities and Exchange Commission, STAR Ohio, or directly through the Federal Reserve Bank.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

STAR Ohio was created by state statute and allows governments within the state to pool their funds for investment purposes. The State Treasurer's office manages the investment of STAR Ohio assets subject to the general limitations of Section 135.143 of the Ohio Revised Code (ORC). STAR Ohio is not registered with the Securities Exchange Commission as an investment company, but has adopted GASB Statement No. 79, *Accounting and Financial Reporting for Certain External Investment Pools and Pool Participants*. Investments in STAR Ohio are valued on the basis of the amortized cost valuation technique. For the year ended December 31, 2021, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Management of STAR Ohio states that its policy also prohibits investing in derivatives and/or engaging in the use of reverse repurchase agreements. Ohio law requires STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The weighted average of maturity of the portfolio held by STAR Ohio as of December 31, 2021, is 60 days or less. STAR Ohio carries a rating of AAAm by Standard and Poor's.

As of December 31, 2021, the City had the following investments and maturities:

| Measurement/Investment<br>Type | Measurement<br>Amount | Less than one<br>year | 13 to 24<br>Months   | Greater than 2<br>years |
|--------------------------------|-----------------------|-----------------------|----------------------|-------------------------|
| Fair value:                    |                       |                       |                      |                         |
| Commerical paper               | \$ 13,021,245         | \$13,021,245          | \$ -                 | \$ -                    |
| Corporate Bonds                | 5,301,229             | 3,166,686             | 2,134,543            | -                       |
| FAMC                           | 2,501,495             | -                     | 2,501,495            | -                       |
| FFCB                           | 22,505,237            | -                     | 7,019,385            | 15,485,852              |
| FHLB                           | 17,892,622            | 1,720,417             | 991,010              | 15,181,195              |
| FHLMC                          | 34,918,088            | 1,500,975             | 14,087,443           | 19,329,670              |
| FNMA                           | 19,155,276            | 1,007,520             | 2,487,625            | 15,660,131              |
| GNMA                           | 228,925               | -                     | 23,464               | 205,461                 |
| Money Market Funds             | 2,550,447             | 2,550,447             | -                    | -                       |
| Municipal Bonds                | 7,245,316             | 901,665               | 3,390,345            | 2,953,306               |
| Negotiable CDs                 | 14,545,338            | 3,753,106             | 7,750,445            | 3,041,787               |
| U.S. Treasury Notes            | 35,868,881            | 5,820,401             | 8,671,014            | 21,377,466              |
| Totals                         | <u>\$ 175,734,099</u> | <u>\$33,442,462</u>   | <u>\$ 49,056,769</u> | <u>\$ 93,234,868</u>    |

Not included in the fair value totals above is STAR Ohio, an external investment pool, which was recorded at amortized cost totaling \$3,270,262 at December 31, 2021.

The weighted average maturity of investments is 2.34 years. Callable securities are assumed to remain uncalled prior to maturity.

The City's investments in U.S. Government money market mutual funds are valued using quoted market prices (Level 1 inputs). The City's investments in commercial paper, federal agency securities, corporate bonds, municipal bonds and negotiable CD's are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

Interest Rate Risk – As a means of limiting its exposure to fair value losses arising from fluctuating interest rates and in accordance with the ORC, the City's investment policy limits investment portfolio maturities to five years or less. The investment policy also requires sufficient liquidity to be maintained in the portfolio, and that investments be scheduled to mature concurrently with ongoing cash requirements so that the City's obligations can be met without selling securities.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

**Credit Risk** – The City's investments in FAMC (Federal Agricultural Mortgage Corporation), FFCB (Federal Farm Credit Bank), FHLB (Federal Home Loan Bank), FHLMC (Federal Home Loan Mortgage Corp.), FNMA (Federal National Mortgage Association), Government National Mortgage Association (GNMA), corporate asset backed securities, and the U.S. Treasury securities, were rated Aaa and AA+ by Moody's Investor Services (Moody's) and Standard & Poor's (S&P), respectively. Commercial paper securities were rated at P-1 and A-1 by Moody's Investor Services (Moody's) and Standard & Poor's (S&P), respectively. Corporate bonds were rated Aaa to A3 and AA+ to AA- by Moody's Investor Services (Moody's) and Standard & Poor's (S&P), respectively. Municipal bonds were rated Aa2 to A1 and AAA and A+ by Moody's and S&P, respectively. STAR Ohio and the US Treasury Money Market Funds have both been given an AAAM money market rating by S&P, the highest available. The City's investments in individual marketable certificates of deposit are fully insured by the Federal Deposit Insurance Corporation. The City's investment policy requires that any investments permitted to be held must conform to minimum credit rating restrictions as follows:

| Investment Type      | Maximum Maturity | Minimum Required Credit Rating |         |
|----------------------|------------------|--------------------------------|---------|
|                      |                  | Standard & Poor's              | Moody's |
| Money market funds   | -                | Highest                        | Highest |
| Commercial paper     | 270 days         | A2                             | P2      |
| Bankers' acceptances | -                | Highest                        | Highest |
| Corporate notes      | 2 years          | A-                             | A3      |
| Corporate notes      | 3 years          | AA-                            | Aa3     |
| Corporate notes      | >3 years         | AAA                            | Aaa     |

**Concentration of Credit Risk** – The City's investment policy places no maximum on the amount that may be invested with any one issuer, with the exception of medium-term corporate notes which are limited to \$1 million per issuer. Aggregate totals invested by type of issue may not exceed the following percentages of the average portfolio total: commercial paper, 10%; bankers' acceptances 10%; medium-term corporate notes, 15%. Investments held as a percentage of the total (excluding amounts invested in marketable certificates of deposit, the STAR Ohio pool and the Fidelity money market fund), by issuer, are as follows as of December 31, 2021:

| Investment Type     | Fair Value  | % of Total |
|---------------------|-------------|------------|
| Commercial paper    | 13,021,245  | 8.21%      |
| Corporate Bonds     | 5,301,229   | 3.34%      |
| FAMC                | 2,501,495   | 1.58%      |
| FFCB                | 22,505,237  | 14.19%     |
| FHLB                | 17,892,622  | 11.28%     |
| FHLMC               | 34,918,088  | 22.01%     |
| FNMA                | 19,155,276  | 12.07%     |
| GNMA                | 228,925     | 0.14%      |
| Municipal Bonds     | 7,245,316   | 4.57%      |
| U.S. Treasury Notes | 35,868,881  | 22.61%     |
| Total               | 158,638,314 | 100.00%    |

### **NOTE C--DEFICIT FUND BALANCES**

The funds shown on the next page had deficit fund balances at December 31, 2021 as a result of advances used to fund the projects. The capital projects fund deficits will be eliminated through the future collection of tax increment financing (TIF) service payment revenues. The deficit in the State Highway Improvement and Permissive Tax Special Revenue Funds and the Workers' Compensation Internal Service Fund will be eliminated through normal operations.

| Lifetime Fitness TIF        | 1,464,342               | Workers' Compensation Self-Insurance | 490,178                 |

### **NOTE D--PROPERTY TAXES**

Property taxes include amounts levied against all real and public utility property located in the City. Property tax revenue received during 2021 for real and public utility property taxes represents collections of 2020 taxes.

2021 real property taxes were levied after October 1, 2021, on the assessed value as of January 1, 2021, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2021 real property taxes are collected in and intended to finance 2022.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2021 public utility property taxes which became a lien December 31, 2020, are levied after October 1, 2021, and are collected in 2022 with real property taxes.

The full tax rate for all City operations for the year ended December 31, 2021, was \$2.95 per \$1,000 of assessed value. The assessed values of real property and public utility tangible property upon which 2021 property tax receipts were based are as follows:

| Category                | Assessed Value         | Percent        |
|-------------------------|------------------------|----------------|
| Real Property           | \$2,575,084,720        | 97.73%         |
| Public Utility Personal | 59,783,210             | 2.27%          |
| Totals                  | <u>\$2,634,867,930</u> | <u>100.00%</u> |

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including the City. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real and public utility property taxes and outstanding delinquencies which were measurable as of December 31, 2021, and for which there was an enforceable legal claim. In the governmental funds, the entire receivable is offset to deferred inflows of resources – property taxes, since current taxes were not levied to finance 2021 operations and the collection of delinquent taxes during the available period is not subject to reasonable estimation. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

### NOTE E—RECEIVABLES

Receivables at December 31, 2021, consisted of accounts, due from other governments, including grants, entitlements and shared revenues, income taxes, property taxes, other local taxes, special assessments, service payments, and interest on investments and notes. All receivables are considered fully collectible and will be received within one year with the exception of property taxes, income taxes, and special assessments. Property taxes and income taxes, although ultimately collectible, include some portion of delinquents that will not be collected within one year.

Special assessments expected to be collected in more than one year amount to \$40,919.

A summary of due from other governments follows:

| Governmental Activities:                        | Amount               |
|-------------------------------------------------|----------------------|
| Homestead Exemption and Rollbacks               | \$ 196,366           |
| Fuel purchased by other governments             | 74,252               |
| State shared revenue                            | 1,692,579            |

| Total business-type activities                  | <u>\$ 199,856</u>    |

The City issued a loan through the State Infrastructure Bank Loan program to help fund the I-270/33 Interchange project. The loan was part of the agreement between the City, the Mid-Ohio Regional Planning Commission (MORPC), and the Ohio Department of Transportation. The agreement provides that the City will repay the loan and MORPC will remit funds to the City to pay the principal amount of MORPC's share of the loan. Therefore, a loan receivable is being reported by the City in the amount of \$14,934,081 for the outstanding amount of MORPC's share of the loan as of December 31, 2021.

### NOTE F--INCOME TAXES

The City levies a 2.0% income tax on income earned within the City. Of the 2.0% income tax, 1.0% is voter approved and of the 1.0%, 0.5% is for the sole purpose of funding capital improvements. Additional increases in the income tax rate require voter approval. The tax is applied to gross salaries, wages and other personal service compensation. It also applies to net income of for-profit organizations conducting business within the City. In addition, residents of Dublin are required to pay city income tax on income they earn outside the City; however, a credit is allowed for income taxes paid to other municipalities.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

Employers within the City are required to withhold income tax on employees' compensation and remit this tax at least quarterly. Insofar as these income tax withholdings amount to over \$100 a month and \$1,000 a month, the employer is required by City ordinance to remit withholdings monthly and semi-monthly, respectively. Corporations and other individual taxpayers pay estimated taxes quarterly and file a declaration annually. The City has established its own Division of Taxation to administer and collect taxes for the City.

### **NOTE G--CAPITAL ASSETS**

A summary of capital asset activity for the year ended December 31, 2021 is as follows:

|                                             | Balance at<br>12/31/2020 | Additions            | Deletions           | Transfers           | Balance at<br>12/31/2021 |

The City has also awarded construction contracts for various capital improvements, roadway and other infrastructure projects, as well as significant maintenance projects, which total \$92,850,351. As of December 31, 2021, \$74,141,675 had been expended on these projects. The City has capitalized the appropriate costs of capital related projects as governmental activity capital assets in the government-wide statement of net position. These projects are funded by income tax revenues, service payments, and intergovernmental revenues.

### **NOTE H--OPERATING LEASES**

The City is committed under various leases for office space and equipment. These leases are considered for accounting purposes to be operating leases. Lease expenditures for the year ended December 31, 2021 were \$69,225. Future minimum lease payments are as follows:

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

| Year Ending | Amount            |

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

In 2004, the City entered into a loan agreement with the Columbus Regional Airport Authority through the Ohio Municipal Bond Pooled Financing Program in the amount of \$2,986,000 for the purpose of paying the cost of constructing and equipping a municipal swimming pool. The loan has a final maturity date of January 1, 2025. This loan is considered a direct borrowing. Direct borrowings have terms negotiated directly between the City and the lender and are not offered for public sale. In the event of a default, the Columbus Regional Airport Authority could exercise one or more of the following: (a) take any action permitted or required pursuant to the Indenture; (b) tender the City note to the City for immediate purchase; and (c) take whatever other action at law or in equity may appear necessary or desirable to collect the amounts then due and thereafter to become due hereunder or to enforce any other of its rights.

During 2012, the City issued \$2,185,000 in general obligation bonds for new construction. The bonds were issued for the purpose of providing funds to improve the municipal street lighting system by replacing the existing street lighting with light emitting diode street lights. The bonds were issued at an interest rate of 2.49% and a premium of \$137,966.

During 2014, the City issued a loan through the Ohio Public Works Commission (OPWC) in the amount of \$107,574 to help fund the Dublin/Glick Road intersection improvement project. During 2015, the loan was increased by \$142,426. The loan was issued at an interest rate of 0.0% and will mature in 2025. The Village of Shawnee Hills obtained a grant and loan from the OPWC and the City of Dublin received the grant and loan proceeds according to an agreement signed with the Village. The City will be responsible for repaying the loan.

The OPWC loan is considered a direct borrowing. Direct borrowings have terms negotiated directly between the City and the lender and are not offered for public sale. In the event of default, the OPWC may (1) charge an 8% default interest rate from the date of the default to the date of the payment and charge the City for all costs incurred by the OPWC in curing the default, (2) in accordance with Ohio Revised Code 164.05, direct the county treasurer of the county in which the City is located to pay the amount of the default from funds that would otherwise be appropriated to the City from such county's undivided local government fund pursuant to ORC 5747.51-5747.53, or (3) at its discretion, declare the entire principal amount of loan then remaining unpaid, together with all accrued interest and other charges, become immediately due and payable.

During 2015, the City issued \$49,200,000 in general obligation bonds for various improvements throughout the City. Of this total, \$10,600,000 was for the purpose of providing funds to expand the City's Justice Center; \$2,500,000 was for the purpose of providing funds to improve the City's sewer system; \$25,000,000 was for the purpose of providing funds to improve the City's transportation system within the Bridge Street District and more specifically, for the construction of a roundabout at Riverside Drive and SR 161 and the relocation of Riverside Drive; and \$11,100,000 was for the purpose of providing funds to improve the City's transportation system within the Bridge Park development (within the Bridge Street District). The bonds were issued at interest rates between 2.00%-5.00% at an overall premium generated of \$4,111,109 with \$881,889 generated on the Justice Center renovation, \$208,661 on the sewer improvements, \$2,079,945 on the Riverside Drive and roundabout improvements, and \$940,614 on the Bridge Park transportation system.

Additionally, the City issued \$16,000,000 of tax-exempt special obligation nontax revenue bonds and \$16,000,000 of federally taxable special obligation nontax revenue bonds for the purpose of constructing two parking garages within the Bridge Street District. The bonds were issued at interest rates between 2.45%-5.00% with an overall premium generated of \$1,992,122. Of that amount, \$1,322,278 was generated on the tax-exempt bonds while the remaining \$669,944 was generated on the taxable bonds.

In 2015, the City entered into a State Infrastructure (SIB) Loan agreement with the State of Ohio for \$35,100,000 for improvements to the Interstate 270/US 33 Interchange. This amount represents the City's \$10,100,000 construction commitment and the Mid-Ohio Regional Planning Commission's (MORPC) construction commitment of \$25,000,000. Repayment of MORPC's portion of the loan will come from the agency's annual federal funding allocation which is administered by the State of Ohio Department of Transportation. The City has agreed to pay the interest costs on MORPC's portion of the loan. This 20-year loan has a 3.00% interest rate. The City receives the proceeds of the loan from the Ohio Department of Transportation as expenditures are incurred. During 2015, the City received \$133,074 which is being reported as a liability. During 2016, the City received \$18,564,198 which is being reported as a liability. During 2017, the City received \$7,416,271 which is being reported as a liability. During 2018, the City received \$966,615 which is being reported as a liability. During 2019, the City received \$676,628 which is being reported as a liability. A final amortization schedule was not available at year-end. The SIB loan is considered a direct borrowing. Direct borrowings have terms negotiated directly between the City and the lender and are not offered for public sale. In an

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

event of default, the Ohio Department of Transportation (ODOT) may assess a late charge equal to 5% of such unpaid amount shall be assessed, in addition to all other sums due, for each month during which the default exists.

During 2016, the City issued \$9,325,000 in general obligation bonds for new construction. \$9,325,000 of the bonds were issued for the purpose of providing funds for improving the City's vehicular transportation system at interest rates between 3.00%-4.00% at a premium of \$672,637.

During 2017, the City issued \$31,880,000 in general obligation bonds for various improvements throughout the City. Of this total, \$3,300,000 was for the purpose of providing funds to improve the 5800 Building and the Dublin Service Center Building; \$1,380,000 was for the purpose of providing funds to improve the City's sewer system; and \$27,200,000 was for the purpose of providing funds to improve the City's vehicular and pedestrian transportation system within the Bridge Street District, including but not limited to, constructing a pedestrian suspension bridge and making improvements to N. High Street. The bonds were issued at interest rates between 2.00%-5.00% at an overall premium generated of \$3,840,387 with \$397,273 generated on the City facilities renovations, \$166,087 on the sewer improvements, \$3,277,027 on the pedestrian bridge and N. High Street projects

During 2018, the City issued \$22,700,000 in general obligation bonds. The bonds were issued for the purpose of paying the costs of constructing a parking garage, roadway improvements and landscaping enhancements, each in conjunction with the Columbus Metropolitan Library's construction of a new 41,000 square foot facility, constructing the West Plaza of the Riverside Crossing Park, and improving the City's sanitary sewer system.

During 2020, the City issued \$20,000,000 in general obligation bonds. The bonds were issued for the purpose of paying the costs of municipal parks and recreation system by (A) constructing the Riverside Crossing Park and (B) reconstructing, renovating, rehabilitating, equipping and furnishing the Dublin Community Pool North Complex.

During 2021, the City issued the 2021 Various Purpose Improvement and Refunding Bonds in the amount of \$15,730,000. The bond issuance included amounts issued in the Water and Sewer funds which are discussed in the business-type activities of this note. The bonds were issued at interest rates between 2.00%-5.00% at a premium of \$2,601,802 in governmental activities and \$510,519 in business-type activities. Proceeds of the refunding portion of the bonds issued were used to refund outstanding balances of previous bond issuances in governmental activities as follows:

| Issue                                                                                                      | Outstanding Balance |
|------------------------------------------------------------------------------------------------------------|---------------------|
| Capital Facilities Improvement Bonds, Series 2013 (Bridge Street Portion)                                  | \$3,805,000         |
| Capital Facilities Improvement Bonds, Series 2013 (Emerald Parkway Portion)                                | 4,675,000           |
| Capital Facilities Improvement and Refunding Bonds, Series 2014 (Refunding of 2009 BAB Portion - Roads)    | 4,500,000           |
| Capital Facilities Improvement and Refunding Bonds, Series 2014 (270/33 Interchange Portion)               | 1,960,000           |
| Total amount of governmental activity outstanding bonds refunded with proceeds from the 2021 bond issuance | <u>\$14,940,000</u> |

The City decreased its total debt service payments by \$2,239,074 as a result of the current refunding. The City also incurred an economic gain (difference between the present values of the old and new debt service payments) of \$2,128,070. These figures include the amounts for the business-type activities which will be discussed in the business-type activities section of this note.

As a result, the liability for these bonds has been removed from the City's financial statements.

During 2021, the City issued a bank loan to purchase 2 skid steer loaders in the amount of \$140,080. The bank loan is considered a direct borrowing. Direct borrowings have terms negotiated directly between the City and the lender and are not offered for public sale. In an event of default, KS StateBank may take possession of the equipment at the City's expense.

During 2021, the City issued a note payable as part of an infrastructure agreement and construction project with The Daimler Group, Inc. Daimler, the developer building the project, deposited \$1,810,000 with the City as part of the funding for the project. The City will reimburse Daimler the amount of the deposit in annual payments along with interest to be accrued at the rate of 5%. Final payment will be in 2033. No amortization schedule has been included

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

in the 2021 notes since the project is on-going. An amortization will be included in future reports when the final dates for accruing interest will be known.

During 2021, the City entered into an agreement with the Ohio Department of Transportation (ODOT) which required the City to pay ODOT \$14,669,840 in two payments to pay part of the cost of the US33/ST RT161 road project. The payments are to be made in 2022 and 2023. Most of this project will not be a City of Dublin capital asset. Therefore, this liability was reported as a non-capital debt for purposes of calculating invested in capital assets.

All of the general obligation bond agreements include default provision. In the event of a default, those bondholders may, in the case of any default in payment of debt charges bring action to require the City to account as if it were the trustee of an express trust for the bondholders or to enjoin any acts that may be unlawful or in violation of bondholder rights.

Debt service payments are made with transfers to the General Obligation Debt Service fund and the Economic Development Bonds fund from the following funds: State Highway Improvement, Hotel/Motel Tax, Capital Improvement Tax, Parkland Acquisition, Ruscilli TIF, Pizzuti TIF, Thomas/Kohler TIF, McKittrick TIF, Rings Road TIF, Perimeter West TIF, Upper Metro Place TIF, Emerald Parkway Phase 8 TIF, River Ridge TIF, Shamrock Crossing TIF, Bridge and High Streets TIF, Vrable TIF, Tuller TIF, Bridge Park TIF, Penzone TIF, and the H2 Hotel TIF.

Liquidations of the Governmental activities' compensated absence liability are charged primarily to the General Fund, the Street Maintenance and Repair Fund, the Recreation Fund, or the Safety Fund, as appropriate.

The City pays obligations related to employee compensation from the fund benefitting from their service. See Note K for further information.

Annual debt service requirements to maturity for long-term liabilities recorded in Governmental activities, excluding other contractual liabilities and compensated absences, at December 31, 2021 are as follows:

| Year      | General Obligation Bonds |                      | Revenue Bonds        |                      |

| Total sewer activities                          |                 | <u>13,380,000</u>    | <u>2,386,998</u>    | <u>1,700,000</u>    | <u>14,066,998</u>    |
| Total business-type activities                  |                 | <u>\$ 15,995,000</u> | <u>\$ 3,188,797</u> | <u>\$ 2,850,000</u> | <u>\$ 16,333,797</u> |

The City has used revenues from the Water Fund for retirement of the water tower construction issues, and revenues from the Sewer Fund for retirement of the sanitary sewer lining and repair issues, respectively. As the City is committed to continue to do so in the future, the debt has been recorded as a long-term liability in the Business-type activities.

During 2012, the City issued \$4,900,000 in general obligation bonds for new construction. Of this total, \$2,360,000 was for the purpose of providing funds for the construction of the Dublin Road Water Tower. The bonds were issued at an interest rate of 2.88% and a premium of \$49,800. \$2,540,000 was for the purpose of improving the municipal sewer system by repairing and relining sewer lines. The bonds were issued at an interest rate of 2.88% and a premium of \$52,800.

During 2018, the City issued \$1,350,000 in general obligation bonds. The bonds were issued for the purpose of paying the costs of improving the City's sanitary sewer system. As of December 31, 2021, the City had \$352,173 in unspent proceeds.

During 2020, the City issued \$6,000,000 in general obligation bonds. The bonds were issued for the purpose of paying the costs of the municipal sanitary sewer system by extending certain sewer lines, repairing and lining certain existing sewer lines and installing a new pump station and force main. As of December 31, 2021, the City had \$630,625 in unspent proceeds.

During 2021, the City issued the 2021 Various Purpose Improvement and Refunding Bonds in the amount of \$15,730,000. Information about interest rates, premiums, and savings on the refunding was discussed previously. Proceeds of the refunding portion of the bonds issued were used to refund outstanding balances of previous bond issuances in business-type activities as follows:

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

| Issue                                                                                                       | Outstanding Balance |
|-------------------------------------------------------------------------------------------------------------|---------------------|
| Capital Facilities Improvement and Refunding Bonds, Series 2014 (Refunding of 2009 BAB Portion - Sewer)     | \$1,040,000         |
| Capital Facilities Improvement and Refunding Bonds, Series 2014 (Refunding of 2009 BAB Portion - Water)     | 940,000             |
| Total amount of business-type activity outstanding bonds refunded with proceeds from the 2021 bond issuance | <u>\$1,980,000</u>  |

A portion of the 2021 Various Improvement and Refunding Bonds issuance was used for the purpose of paying the costs of the municipal sanitary sewer system by extending certain sewer lines and repairing and lining certain existing sewer lines. The amount of bonds issued was \$1,500,000. As of December 31, 2021, the City had \$72,135 in unspent proceeds.

Annual debt service requirements to maturity for liabilities recorded in Business-type activities, excluding compensated absences, at December 31, 2021 are as follows:

| Year      | General Obligation Bonds |                     |
|-----------|--------------------------|---------------------|
|           | Principal                | Interest            |
| 2022      | 906,276                  | 601,334             |
| 2023      | 958,851                  | 548,670             |
| 2024      | 973,548                  | 513,003             |
| 2025      | 1,000,594                | 476,375             |
| 2026      | 1,043,018                | 437,595             |
| 2027-2031 | 5,271,510                | 1,567,158           |
| 2032-2036 | 3,920,000                | 708,256             |
| 2037-2041 | 2,260,000                | 160,950             |
| Total     | <u>\$ 16,333,797</u>     | <u>\$ 5,013,341</u> |

### 3. Other disclosures

The Ohio Revised Code provides that voted net general obligation debt of the City, exclusive of certain exempt debt, shall never exceed 10.5% of the total assessed valuation of the City. In addition, the unvoted net debt of the City cannot exceed 5.5% of the total assessed valuation. At December 31, 2021, the City had a legal debt margin for total debt of \$276,661,133 and a legal debt margin for unvoted debt of \$144,917,736.

### NOTE J--FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds as of December 31, 2021 are as follows:

### NOTE K - DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

#### **Net Pension Liability/Asset and Net OPEB Liability/Asset**

Pensions and OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period.

The net pension liability/asset and the net OPEB liability/asset represent the City's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost-of-living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

GASB 68/75 assumes the liability/asset is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability. Resulting adjustments to the net pension/OPEB liability would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require, the retirement systems to provide health care to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension/OPEB liability/asset on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in accrued wages and benefits on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the pension disclosures. See Note L for the OPEB disclosures.

### ***Plan Description - Ohio Public Employees Retirement System (OPERS)***

Plan Description - City employees, other than full-time police, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost of living adjustment is 3 percent. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.00%.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Beginning in 2022, the Combined Plan will be consolidated under the Traditional Pension Plan (defined benefit plan) and the Combined Plan option will no longer be available for new hires beginning in 2022.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

\* This rate is determined by OPERS' Board and has no maximum rate established by ORC.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City's contractually required contribution for the Traditional Pension Plan was \$3,981,741 for 2021. Of this amount, \$160,230 is reported as accrued wages and benefits.

### ***Plan Description - Ohio Police & Fire Pension Fund (OP&F)***

Plan Description - City full-time police participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at [www.op-f.org](http://www.op-f.org) or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.00% for each of the next five years of service credit and 1.50% for each year of service credit in excess of 25 years. The maximum pension of 72.00% of the allowable average annual salary is paid after 33 years of service credit (see OP&F Annual Comprehensive Financial Report referenced above for additional information, including requirements for Deferred Retirement Option Plan provisions and reduced and unreduced benefits).

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit, surviving beneficiaries, and statutory survivors. Members participating in the DROP program have separate eligibility requirements related to COLA.

The COLA amount for members who have 15 or more years of service credit as of July 1, 2013, and members who are receiving a pension benefit that became effective before July 1, 2013, will be equal to 3.00% of the member's base pension benefit.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

The COLA amount for members who have less than 15 years of service credit as of July 1, 2013, and members whose pension benefit became effective on or after July 1, 2013, will be equal to a percentage of the member's base pension benefit where the percentage is the lesser of 3.00% or the percentage increase in the consumer price index, if any, over the twelve-month period that ends on the thirtieth day of September of the immediately preceding year, rounded to the nearest one-tenth of one percent.

Members who retired prior to July 24, 1986, or their surviving beneficiaries under optional plans are entitled to cost-of-living allowance increases. The annual increase is paid on July 1st of each year. The annual COLA increase is \$360 under a Single Life Annuity Plan with proportional reductions for optional payment plans.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

|                                                  | <u>Police</u>  |
|--------------------------------------------------|----------------|
| <b>2021 Statutory Maximum Contribution Rates</b> |                |
| Employer                                         | 19.50 %        |
| Employee                                         | 12.25 %        |
| <b>2021 Actual Contribution Rates</b>            |                |
| Employer:                                        |                |
| Pension                                          | 19.00 %        |
| Post-employment Health Care Benefits             | <u>0.50 %</u>  |
| Total Employer                                   | <u>19.50 %</u> |
| Employee                                         | 12.25 %        |

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$1,479,130 for 2021. Of this amount, \$64,803 is reported as accrued wages and benefits.

### ***Net Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

The net pension liability and net pension asset for OPERS was measured as of December 31, 2020, and the total pension liability or asset used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2020, and was determined by rolling forward the total pension liability as of January 1, 2020, to December 31, 2020. The City's proportion of the net pension liability or asset was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

|                                                                        | <u>OPERS -<br/>Traditional</u> | <u>OP&amp;F</u>     | <u>Total</u> |
|------------------------------------------------------------------------|--------------------------------|---------------------|--------------|

### **Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2020, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2020, are presented below.

|                                              |                                                                                                                  |
|----------------------------------------------|------------------------------------------------------------------------------------------------------------------|

In October 2020, the OPERS Board adopted a change in COLA for Post-January 7, 2013 retirees, changing it from 1.40% simple through 2020 then 2.15% simple to 0.50% simple through 2021 then 2.15% simple.

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015. During 2020, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 11.70% for 2020.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic real rates of return were provided by the Board's investment consultant.

For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2020, these best estimates are summarized in the following table:

| Asset Class            | Target<br>Allocation | Weighted Average<br>Long-Term Expected<br>Real Rate of Return<br>(Arithmetic) |
|------------------------|----------------------|-------------------------------------------------------------------------------|
| Fixed income           | 25.00 %              | 1.32 %                                                                        |
| Domestic equities      | 21.00                | 5.64                                                                          |
| Real estate            | 10.00                | 5.39                                                                          |
| Private equity         | 12.00                | 10.42                                                                         |
| International equities | 23.00                | 7.36                                                                          |
| Other investments      | 9.00                 | 4.75                                                                          |
| Total                  | <u>100.00 %</u>      | <u>5.43 %</u>                                                                 |

**Discount Rate** - The discount rate used to measure the total pension liability/asset was 7.20%, post-experience study results, for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan. The discount rate used to measure total pension liability prior to December 31, 2020 was 7.20%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the City's Proportionate Share of the Net Pension Liability/Asset to Changes in the Discount Rate** - The following table presents the proportionate share of the net pension liability/asset calculated using the current period discount rate assumption of 7.20%, as well as what the proportionate share of the net pension liability/asset would be if it were calculated using a discount rate that is one-percentage-point lower (6.20%) or one-percentage-point higher (8.20%) than the current rate:

|                                                             | 1% Decrease   | Current<br>Discount Rate | 1% Increase  |
|-------------------------------------------------------------|---------------|--------------------------|--------------|
| City's proportionate share<br>of the net pension liability: |               |                          |              |
| Traditional Pension Plan                                    | \$ 49,598,564 | \$ 26,001,797            | \$ 6,381,122 |

### **Actuarial Assumptions - OP&F**

OP&F's total pension liability as of December 31, 2020, is based on the results of an actuarial valuation date of January 1, 2020, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases,

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered were: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2021, are presented below.

|                            |                                                                                                                      |
|----------------------------|----------------------------------------------------------------------------------------------------------------------|
| Valuation date             | 1/1/20 with actuarial liabilities rolled forward to 12/31/20                                                         |
| Actuarial cost method      | Entry age normal (level percent of payroll)                                                                          |
| Investment rate of return  | 8.00%                                                                                                                |
| Projected salary increases | 3.75% - 10.50%                                                                                                       |
| Payroll increases          | 3.25% per annum, compounded annually, consisting of inflation rate of 2.75% plus productivity increase rate of 0.50% |
| Cost of living adjustments | 2.20% per year simple                                                                                                |

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

| Age        | Police | Fire |
|------------|--------|------|
| 67 or less | 77%    | 68%  |
| 68-77      | 105%   | 87%  |
| 78 and up  | 115%   | 120% |

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

| Age        | Police | Fire |
|------------|--------|------|
| 59 or less | 35%    | 35%  |
| 60-69      | 60%    | 45%  |
| 70-79      | 75%    | 70%  |
| 80 and up  | 100%   | 90%  |

The most recent experience study was completed for the five-year period ended December 31, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy and Guidelines. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2020 are summarized as follows:

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

| Asset Class                      | Target<br>Allocation | Long Term Expected<br>Real Rate of Return ** |
|----------------------------------|----------------------|----------------------------------------------|
| Cash and Cash Equivalents        | - %                  | 0.00 %                                       |
| Domestic Equity                  | 21.00                | 4.10                                         |
| Non-US Equity                    | 14.00                | 4.80                                         |
| Private Markets                  | 8.00                 | 6.40                                         |
| Core Fixed Income *              | 23.00                | 0.90                                         |
| High Yield Fixed Income          | 7.00                 | 3.00                                         |
| Private Credit                   | 5.00                 | 4.50                                         |
| U.S. Inflation<br>Linked Bonds * | 17.00                | 0.70                                         |
| Midstream Energy Infrastructure  | 5.00                 | 5.60                                         |
| Real Assets                      | 8.00                 | 5.80                                         |
| Gold                             | 5.00                 | 1.90                                         |
| Private Real Estate              | 12.00                | 5.30                                         |
| Total                            | <u>125.00 %</u>      |                                              |

Note: assumptions are geometric.

\* levered 2x

\*\* numbers include inflation

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return and creating a more risk-balanced portfolio based on the relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

**Discount Rate** - The total pension liability was calculated using the discount rate of 8.00%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.00%. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

### ***Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate***

- Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.00%), or one percentage point higher (9.00%) than the current rate.

|                                                            | 1% Decrease   | Current<br>Discount Rate | 1% Increase   |
|------------------------------------------------------------|---------------|--------------------------|---------------|
| City's proportionate share<br>of the net pension liability | \$ 25,294,007 | \$ 18,169,310            | \$ 12,206,658 |

## **NOTE L - DEFINED BENEFIT OPEB PLANS**

### ***Net OPEB Liability/Asset***

See Note K for a description of the net OPEB liability/asset.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

### ***Plan Description - Ohio Public Employees Retirement System (OPERS)***

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. Currently, Medicare-eligible retirees are able to select medical and prescription drug plans from a range of options and may elect optional vision and dental plans. Retirees and eligible dependents enrolled in Medicare Parts A and B have the option to enroll in a Medicare supplemental plan with the assistance of the OPERS Medicare Connector. The OPERS Medicare Connector is a relationship with a vendor selected by OPERS to assist retirees, spouses and dependents with selecting a medical and pharmacy plan. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are deposited into an HRA. For non-Medicare retirees and eligible dependents, OPERS sponsors medical and prescription coverage through a professionally managed self-insured plan. An allowance to offset a portion of the monthly premium is offered to retirees and eligible dependents. The allowance is based on the retiree's years of service and age when they first enrolled in OPERS coverage.

Medicare-eligible retirees who choose to become re-employed or survivors who become employed in an OPERS-covered position are prohibited from participating in an HRA. For this group of retirees, OPERS sponsors secondary coverage through a professionally managed self-insured program. Retirees who enroll in this plan are provided with a monthly allowance to offset a portion of the monthly premium. Medicare-eligible spouses and dependents can also enroll in this plan as long as the retiree is enrolled.

OPERS provides a monthly allowance for health care coverage for eligible retirees and their eligible dependents. The base allowance is determined by OPERS.

The health care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

Effective January 1, 2022, OPERS will discontinue the group plans currently offered to non-Medicare retirees and re-employed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. Current retirees eligible (or who become eligible prior to January 1, 2022) to participate in the OPERS health care program will continue to be eligible after January 1, 2022. Eligibility requirements will change for those retiring after January 1, 2022, with differing eligibility requirements for Medicare retirees and non-Medicare retirees. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2021, state and local employers contributed at a rate of 14.00% of earnable salary and public safety and law enforcement employers contributed at 18.10%. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2021, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2021 was 4.00%.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City did not make any contributions to fund OPEB during 2021.

### ***Plan Description - Ohio Police & Fire Pension Fund (OP&F)***

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a new model for health care. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements.

OP&F contracted with a vendor who assists eligible retirees in choosing health care plans that are available where they live (both Medicare-eligible and pre-65 populations). A stipend funded by OP&F is available to these members through a Health Reimbursement Arrangement and can be used to reimburse retirees for qualified health care expenses.

A retiree is eligible for the OP&F health care stipend unless they have access to any other group coverage including employer and retirement coverage. The eligibility of spouses and dependent children could increase the stipend amount. If the spouse or dependents have access to any other group coverage including employer or retirement coverage, they are not eligible for stipend support from OP&F. Even if an OP&F member or their dependents are not eligible for a stipend, they can use the services of the third-party administrator to select and enroll in a plan. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

OP&F maintains funds for health care in two separate accounts: one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. IRS Code Section 401(h) account is maintained for Medicare Part B reimbursements.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at [www.op-f.org](http://www.op-f.org) or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.50% and 24.00% of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.50% of covered payroll for police employer units and 24.00% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

The Board of Trustees is authorized to allocate a portion of the total employer contributions for retiree health care benefits. For 2021, the portion of employer contributions allocated to health care was 0.50% of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded.

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$38,924 for 2021. Of this amount, \$1,705 is reported as accrued wages and benefits.

### ***Net OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB***

The net OPEB liability/asset and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2020, and was determined by rolling forward the total OPEB liability as of January 1, 2020, to December 31, 2020. The City's proportion of the net OPEB liability was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities.

Following is information related to the proportionate share and OPEB expense:

|                                                                     | <u>OPERS</u>        | <u>OP&amp;F</u>     | <u>Total</u> |
|---------------------------------------------------------------------|---------------------|---------------------|--------------|
| Proportion of the net OPEB liability prior measurement date         | 0.18231000%         | 0.27499660%         |              |
| Proportion of the net OPEB liability/asset current measurement date | <u>0.17484600%</u>  | <u>0.26652590%</u>  |              |
| Change in proportionate share                                       | <u>-0.00746400%</u> | <u>-0.00847070%</u> |              |
| Proportionate share of the net OPEB liability                       | \$ -                | \$ 2,823,885        | \$ 2,823,885 |
| Proportionate share of the net OPEB asset                           | (3,115,021)         | -                   | (3,115,021)  |
| OPEB expense                                                        | (19,102,931)        | 343,617             | (18,759,314) |

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|                                                                                          | OPERS                | OP&F                | Total                |
|------------------------------------------------------------------------------------------|----------------------|---------------------|----------------------|
| <b>Deferred outflows of resources</b>                                                    |                      |                     |                      |
| Changes of assumptions                                                                   | \$ 1,531,381         | \$ 1,560,043        | \$ 3,091,424         |
| Changes in employer's proportionate percentage/difference between employer contributions | 45,382               | 403,312             | 448,694              |
| Contributions subsequent to the measurement date                                         | -                    | 38,924              | 38,924               |
| Total deferred outflows of resources                                                     | <u>\$ 1,576,763</u>  | <u>\$ 2,002,279</u> | <u>\$ 3,579,042</u>  |
|                                                                                          | OPERS                | OP&F                | Total                |
| <b>Deferred inflows of resources</b>                                                     |                      |                     |                      |
| Differences between expected and actual experience                                       | \$ 2,811,289         | \$ 465,789          | \$ 3,277,078         |
| Net difference between projected and actual earnings on OPEB plan investments            | 1,659,104            | 104,943             | 1,764,047            |
| Changes of assumptions                                                                   | 5,047,268            | 450,179             | 5,497,447            |
| Changes in employer's proportionate percentage/difference between employer contributions | 1,066,514            | 112,660             | 1,179,174            |
| Total deferred inflows of resources                                                      | <u>\$ 10,584,175</u> | <u>\$ 1,133,571</u> | <u>\$ 11,717,746</u> |

\$38,924 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending December 31, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

|                          | OPERS                 | OP&F              | Total                 |
|--------------------------|-----------------------|-------------------|-----------------------|
| Year Ending December 31: |                       |                   |                       |
| 2022                     | \$ (4,839,427)        | \$ 194,661        | \$ (4,644,766)        |

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

### ***Actuarial Assumptions - OPERS***

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2019, rolled forward to the measurement date of December 31, 2020.

The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

|                                                    |                                            |
|----------------------------------------------------|--------------------------------------------|
| Wage Inflation                                     | 3.25%                                      |
| Projected Salary Increases,<br>including inflation | 3.25 to 10.75%<br>including wage inflation |
| Single Discount Rate:                              |                                            |
| Current measurement date                           | 6.00%                                      |
| Prior Measurement date                             | 3.16%                                      |
| Investment Rate of Return                          |                                            |
| Current measurement date                           | 6.00%                                      |
| Prior Measurement date                             | 6.00%                                      |
| Municipal Bond Rate                                |                                            |
| Current measurement date                           | 2.00%                                      |
| Prior Measurement date                             | 2.75%                                      |
| Health Care Cost Trend Rate                        |                                            |
| Current measurement date                           | 8.50% initial,<br>3.50% ultimate in 2035   |
| Prior Measurement date                             | 10.50%, initial<br>3.50%, ultimate in 2030 |
| Actuarial Cost Method                              | Individual Entry Age Normal                |

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

During 2020, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, if any contribution are made into the plans, the contributions are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made. Health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was 10.50% for 2020.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2020, these best estimates are summarized in the following table:

| Asset Class                  | Target<br>Allocation | Weighted Average<br>Long-Term Expected<br>Real Rate of Return<br>(Arithmetic) |
|------------------------------|----------------------|-------------------------------------------------------------------------------|
| Fixed Income                 | 34.00 %              | 1.07 %                                                                        |
| Domestic Equities            | 25.00                | 5.64                                                                          |
| Real Estate Investment Trust | 7.00                 | 6.48                                                                          |
| International Equities       | 25.00                | 7.36                                                                          |
| Other investments            | 9.00                 | 4.02                                                                          |
| Total                        | <u>100.00 %</u>      | <u>4.43 %</u>                                                                 |

**Discount Rate** - A single discount rate of 6.00% was used to measure the total OPEB liability on the measurement date of December 31, 2020. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20- year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on the actuarial assumed rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 2.00%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through the year 2120. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2120, the duration of the projection period through which projected health care payments are fully funded.

**Change in Benefit Terms** - On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care Plan. These changes are effective January 1, 2022 and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in the December 31, 2020 measurement date health care valuation which are reported by the City at December 31, 2021. These changes significantly decreased the total OPEB liability for the measurement date December 31, 2020.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

***Sensitivity of the City's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate*** - The following table presents the proportionate share of the net OPEB asset calculated using the single discount rate of 6.00%, as well as what the proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is one-percentage-point lower (5.00%) or one-percentage-point higher (7.00%) than the current rate:

|                                                     | 1% Decrease | Current<br>Discount Rate | 1% Increase  |
|-----------------------------------------------------|-------------|--------------------------|--------------|
| City's proportionate share<br>of the net OPEB asset | \$ 774,568  | \$ 3,115,021             | \$ 5,039,062 |

***Sensitivity of the City's Proportionate Share of the Net OPEB Asset to Changes in the Health Care Cost Trend Rate*** - Changes in the health care cost trend rate may also have a significant impact on the net OPEB asset. The following table presents the net OPEB asset calculated using the assumed trend rates, and the expected net OPEB asset if it were calculated using a health care cost trend rate that is 1.00% lower or 1.00% higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2021 is 8.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

|                                                     | 1% Decrease  | Current Health<br>Care Trend Rate<br>Assumption | 1% Increase  |

| City's proportionate share<br>of the net OPEB asset | \$ 3,190,940 | \$ 3,115,021                                    | \$ 3,030,081 |

### ***Actuarial Assumptions - OP&F***

OP&F's total OPEB liability as of December 31, 2020, is based on the results of an actuarial valuation date of January 1, 2020, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

|                            |                                                                                 |
|----------------------------|---------------------------------------------------------------------------------|
| Valuation Date             | January 1, 2020, with actuarial liabilities rolled forward to December 31, 2020 |
| Actuarial Cost Method      | Entry Age Normal (Level Percent of Payroll)                                     |
| Investment Rate of Return  | 8.00%                                                                           |
| Projected Salary Increases | 3.75% to 10.50%                                                                 |
| Payroll Growth             | 3.25%                                                                           |
| Single discount rate:      |                                                                                 |
| Current measurement date   | 2.96%                                                                           |
| Prior measurement date     | 3.56%                                                                           |
| Cost of Living Adjustments | 2.20% simple per year                                                           |

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

| Age        | Police | Fire |
|------------|--------|------|
| 67 or less | 77%    | 68%  |
| 68-77      | 105%   | 87%  |
| 78 and up  | 115%   | 120% |

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Conduent Modified 2016 Improvement Scale.

| Age        | Police | Fire |
|------------|--------|------|
| 59 or less | 35%    | 35%  |
| 60-69      | 60%    | 45%  |
| 70-79      | 75%    | 70%  |
| 80 and up  | 100%   | 90%  |

The most recent experience study was completed for the five-year period ended December 31, 2016.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2020, are summarized below:

| Asset Class                      | Target<br>Allocation | Long Term Expected<br>Real Rate of Return ** |
|----------------------------------|----------------------|----------------------------------------------|
| Cash and Cash Equivalents        | - %                  | 0.00 %                                       |
| Domestic Equity                  | 21.00                | 4.10                                         |
| Non-US Equity                    | 14.00                | 4.80                                         |
| Private Markets                  | 8.00                 | 6.40                                         |
| Core Fixed Income *              | 23.00                | 0.90                                         |
| High Yield Fixed Income          | 7.00                 | 3.00                                         |
| Private Credit                   | 5.00                 | 4.50                                         |
| U.S. Inflation<br>Linked Bonds * | 17.00                | 0.70                                         |
| Midstream Energy Infrastructure  | 5.00                 | 5.60                                         |
| Real Assets                      | 8.00                 | 5.80                                         |
| Gold                             | 5.00                 | 1.90                                         |
| Private Real Estate              | 12.00                | 5.30                                         |
| Total                            | <u>125.00 %</u>      |                                              |

Note: assumptions are geometric.

\* levered 2.5x

\*\* numbers include inflation

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

**Discount Rate** - For 2020, the total OPEB liability was calculated using the discount rate of 2.96%. For 2019, the total OPEB liability was calculated using the discount rate of 3.56%. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return of 8.00%. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 2.12% at December 31, 2020 and 2.75% at December 31, 2019, was blended with the long-term rate of 8.00%, which resulted in a blended discount rate of 2.96% for 2020 and 3.56% for 2019. The municipal bond rate was determined using the Bond Buyers General Obligation 20-year Municipal Bond Index Rate. The OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments until 2034. The long-term expected rate of return on health care investments was applied to projected costs through 2034, and the municipal bond rate was applied to all health care costs after that date.

**Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate** - Net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 2.96%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.96%), or one percentage point higher (3.96%) than the current rate.

|                                                         | 1% Decrease  | Current<br>Discount Rate | 1% Increase  |
|---------------------------------------------------------|--------------|--------------------------|--------------|
| City's proportionate share<br>of the net OPEB liability | \$ 3,521,224 | \$ 2,823,885             | \$ 2,248,663 |

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

***Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate*** - The total OPEB liability is based on a medical benefit that is a flat dollar amount; therefore, it is unaffected by a health care cost trend rate. An increase or decrease in the trend rate would have no effect on the total OPEB liability.

### **NOTE M—INTERFUND TRANSFERS**

A description of the accounting policies for interfund transactions is provided in Note A.16. Amounts transferred were to subsidize ongoing operations or functions of the recipient funds, as well as to pay scheduled debt service payments as they come due, and are not intended to be repaid. All transfers were made in accordance with Ohio Revised Code sections 5705.14, 5705.15, and 5705.16. Interfund transfers for the year ended December 31, 2021 are comprised of the following:

| Transfers from:             | General Fund     | Safety Fund          | General<br>Obligation Debt<br>Service | Capital<br>Improvements<br>Tax | Nonmajor<br>Governmental<br>Funds | Total Transfers      |
|-----------------------------|------------------|----------------------|---------------------------------------|--------------------------------|-----------------------------------|----------------------|
| General Fund                | \$ -             | \$ 12,479,550        | \$ -                                  | \$ 6,000,000                   | \$ 5,639,205                      | \$ 24,118,755        |
| Capital Improvements Tax    | -                | -                    | 5,805,933                             | -                              | -                                 | 5,805,933            |
| Nonmajor Governmental Funds | -                | 80,000               | 7,653,453                             | 1,550,000                      | 2,669,637                         | 11,953,090           |
| Nonmajor enterprise Fund    | \$ 34,038        | \$ -                 | \$ -                                  | \$ -                           | \$ -                              | \$ 34,038            |
| Total Transfers             | <u>\$ 34,038</u> | <u>\$ 12,559,550</u> | <u>\$ 13,459,386</u>                  | <u>\$ 7,550,000</u>            | <u>\$ 8,308,842</u>               | <u>\$ 41,911,816</u> |

### **NOTE N--INTERFUND ASSETS/LIABILITIES**

A description of the accounting policies for interfund assets and liabilities is included in Note A.17. Amounts advanced are to provide for the construction of public infrastructure improvements in the related funds' TIF districts. Balances owed will be repaid from the future receipts of service payments in each respective TIF fund. The composition of interfund balances as of December 31, 2021 is as follows:

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

### **Advances to/from other funds:**

| Total advances, enterprise funds:   |                             | <u>464,750</u>               |
| Total advances from all funds       |                             | <u><u>\$ 102,976,705</u></u> |

### **NOTE O--COMMITMENTS AND CONTINGENCIES**

#### **Encumbrances**

At December 31, 2021, the City had the following amounts encumbered for future purchase obligations:

| Fund                        | Outstanding<br>Encumbrances |
|-----------------------------|-----------------------------|
| General                     | \$ 4,122,791                |
| Safety                      | 174,125                     |
| Capital Improvements Tax    | 18,810,746                  |
| Capital Construction        | 860,099                     |
| Bridge Street               | 8,354                       |
| Nonmajor governmental funds | 4,189,102                   |
| Total encumbrances          | <u><u>\$ 28,165,217</u></u> |

## **NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)**

### **Litigation**

The City is involved in lawsuits pertaining to matters, which are incidental to performing routine governmental and other functions. The City's management is of the opinion that the ultimate disposition of the claims and legal proceedings will not have a material effect on the financial condition of the City.

The City receives significant financial assistance from numerous federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the City at December 31, 2021.

### **Economic Development Incentives**

Consistent with its economic development strategy, the City utilizes economic development incentives to attract new businesses and retain and expand existing businesses. Thirty-six (36) such Economic Development Agreements (EDAs) obligating the City to provide certain economic benefits to specific companies are active as of December 31, 2021. Certain payments are date-specific while others are contingent upon levels of performance by the company.

Thirty-two (32) of the EDAs specify for incentive payments to be made, contingent upon the respective companies meeting specified dollar minimums of payroll taxes withheld and remitted to the City in 2021. Sixteen (16) of the companies achieved their withholding minimums, resulting in a total liability of \$1,637,662 which has been accrued as a payable in the statement of net position as of December 31, 2021. Sixteen (16) of the EDAs provide for similar such future year payments to be made on an annual basis, contingent on future year payroll tax withholding minimums being met. These EDAs expire in various years through 2029.

Eighteen (18) of the EDAs also provide for various retention, relocation, expansion, or office building construction incentive payments to be made by the City, contingent on certain other conditions being met by the respective companies. Five (5) of these EDAs specify similar such future year payments to be made, totaling a maximum aggregate total of up to \$787,500 in the years 2022 through 2023. As these future payments are contingent upon the companies fulfilling conditions which have not yet been met, no related liability has been recorded.

### **NOTE P--RISK MANAGEMENT**

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. On October 1, 1997, the City established membership in the Central Ohio Risk Management Agency Self Insurance Pool, Inc. (CORMA). CORMA was formed pursuant to Section 2744.081 of the Ohio Revised Code. Members of CORMA are the cities of Dublin, Grove City, Groveport, Pickerington, Powell, Upper Arlington, Canal Winchester, Grandview Heights and Westerville. Each member has two representatives on the Board of Trustees. Membership in CORMA enables the City to take advantage of any economics to be realized from an insurance pool with other cities and also provides the City with more control over claims than what is normally available with traditional insurance coverage.

As part of participating in CORMA, for the plan year beginning October 1, 2021 coverage is provided for up to \$15,000,000 per occurrence and \$15,000,000 annual total limit for liability claims and \$165,368,951 for property claims. Coverage is provided on an aggregate basis for General Liability (\$1,000,000/\$2,000,000), Law Enforcement Liability (\$1,000,000/\$2,000,000) and Public Officer Liability including Employment Practices Liability (\$1,000,000/\$2,000,000). Pool retentions are \$200,000 for property, \$25,000 for Crime and \$150,000 for liability. CORMA, in turn, has re-insured itself, and its members as additional insured, for a portion of its insurance risk. There is, however, no assurance that the claims from all members will not exceed CORMA's assets and re-insurance coverage. A third party administrator processes and pays the claims. The City reports a liability when it is probable that a loss has occurred and the amount can be estimated.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

Settled claims have not exceeded commercial insurance coverage in any of the past three years. There has been no significant change in coverage from last year.

### **Employee Benefits Self-Insurance Fund**

The City has established an employee benefits self-insurance fund for risks associated with the employee health insurance plan. The employee benefits self-insurance fund is accounted for as an internal service fund where assets are set aside for claim settlements. A premium is charged to each fund based on the number of employees assigned to it. The total charges allocated to each of the funds are calculated using trends in actual claims experience, and reflects premiums that would have been paid to a private carrier. The City utilizes the services of a third party administrator to process and pay employee medical claims.

Liabilities of the fund are reported when an obligation is incurred, including when it is probable that a claim has occurred and the amount of the claim can be reasonably estimated. As of December 31, 2021, \$61,035 is reported as a liability for claims that have been incurred but not reported (IBNR), as estimated by the City based on claims experience. For the year ended December 31, 2021, the City limited its exposure with a maximum level for claims liability of \$150,000 annually per employee for medical benefit claims, excluding prescription drug benefits. Unpaid claims at year-end are included in accounts payable in the Internal Service Fund and in governmental activities in the statement of net position. Changes in the balances of self-insured claims liabilities during the past two fiscal years are shown as follows:

|                                                 | 2021               | 2020                 |
|-------------------------------------------------|--------------------|----------------------|
| Unpaid claims, January 1:                       | \$ 531,288         | \$ 776,171           |
| Incurred claims, net of favorable settlements : | 5,888,822          | 4,791,025            |
| Claims paid:                                    | <u>(5,565,231)</u> | <u>(5,035,908) *</u> |
| Unpaid claims, December 31:                     | <u>\$ 854,879</u>  | <u>\$ 531,288</u>    |

\*Incurred claims and claims paid have been updated

### **Workers' Compensation Self-Insurance Fund**

The Ohio Bureau of Workers' Compensation (the Bureau) is the primary provider of workers' compensation coverage in the State of Ohio. The Bureau is responsible for setting premium rates, paying compensation and medical claims, and managing the State Insurance Fund for Ohio employers. The Bureau also grants the right to employers, who apply for such status and meet certain requirements, to self-insure for the cost of their employees' workers' compensation claims. Self-insuring employers pay directly the compensation and medical costs for their employees' work-related injuries (instead of paying premiums to the State Insurance Fund), assume all liability, and directly administer their workers' compensation programs. Self-insuring employers also pay assessments to the Bureau for administrative fees, contribute to the Self-Insured Guaranty Fund for the first three years of self-insured status, and reimburse the Bureau for any employee claims paid from the Disabled Workers' Relief Fund. The Industrial Commission of Ohio remains a part of the dispute resolution process for employee claims denied by the employer.

In 2006 the City was approved for self-insured status by the Bureau and administers its own workers' compensation program (the program). The City has established an employee benefits self-insurance internal service fund to account for assets set aside for claim settlements and related liabilities associated with the program. Liabilities of the fund are reported when an employee injury has occurred, it is probable that a claim will be filed under the program, and the amount of the claim can be reasonably estimated. The City utilizes the services of a third party administrator to review, process, and pay employee claims.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

Changes in the balances of self-insured claims liabilities during the past two fiscal years are shown as follows:

|                                                | 2021              | 2020              |
|------------------------------------------------|-------------------|-------------------|
| Unpaid claims, January 1:                      | \$ 472,314        | \$ 365,362        |
| Incurred claims, net of favorable settlements: | 344,231           | 196,034           |
| Claims paid:                                   | (186,049)         | (89,082)          |
| Unpaid claims, December 31:                    | <u>\$ 630,496</u> | <u>\$ 472,314</u> |

### **NOTE Q—TAX ABATEMENTS**

Pursuant to Governmental Accounting Standards Board (GASB) Statement No. 77, *Tax Abatement Disclosures*, the City is required to disclose certain information about tax abatements as defined in the Statement. For purposes of GASB Statement No. 77, a tax abatement is a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the City or the citizens of the City. The City has entered into such agreements. A description of each of the City's abatement programs where the City has promised to forgo taxes follows:

#### **Community Reinvestment Area (CRA) Program**

The Ohio Community Reinvestment Area (CRA) program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. CRA's are areas of land in which property owners can receive tax incentives for investing in real property improvements. In order to use the CRA program, a city, village, or county petitions to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing has traditionally been discouraged. Once the area is confirmed by the Director of ODSA, communities may offer real property tax exemptions to taxpayers who invest in that area.

The City determines the type of development to support by specifying the eligibility of residential, commercial, and/or industrial projects. The City negotiates property tax exemptions on new property tax from investment for up to 100% for up to 15 years based on the amount of investments made to renovate or construct buildings within a CRA. Taxes are abated as the increase in assessed value resulting from the investment is not included (or included at a lesser amount) in the assessed value used for property tax computation for the taxpayer. For commercial projects, job retention and/or creation is also required. Agreements must be in place before the project begins. Provisions for recapturing property tax exemptions, which can be used at the discretion of the City, are pursuant to ORC Section 9.66(C)(1) and 9.66(C)(2). The amount of taxes abated in 2021 was \$63,660.

### **NOTE R—JOINT VENTURE**

The City is a member of NW 33 Innovation Corridor Council of Governments (the Council). The Council is a separate entity established as a joint venture to provide administrative governance and services to the subject political subdivisions promoting cooperative provision of public services to the NW 33 Innovation Corridor. The Council will serve as the administrative institution to manage projects of regional interest and impact, including planning for development, economic development, infrastructure, and services. The Council will enhance and expand the availability of high-speed internet fiber making possible the implementation of Smart Mobility technologies in the NW 33 Innovation Corridor. The Council was formed in December 2016, pursuant to Chapter 167, Ohio Revised Code by agreement of its members. It currently has 3 members consisting of the City of Dublin, the City of Marysville and Union County. The representatives of the members of the Council shall constitute the governing Board. The Finance Director of the City of Marysville will be responsible for the funds of the Council which shall be maintained separately from those of the City of Marysville. The City paid \$177,099 to the Council during 2021. The City has no explicit and measurable equity interest in the venture. Information about the Council can be obtained by contacting the City of Marysville Finance Director at 209 S. Main St. Marysville, Oh 43040.

## NOTES TO THE BASIC FINANCIAL STATEMENTS (Continued)

### **NOTE S—COMPONENT UNIT**

The Bridge Park New Community Authority (the “Authority”) is a distinct political subdivision of the State of Ohio created under Chapter 349 of the Ohio Revised Code. The Authority was created to promote and coordinate the financing, construction, and maintenance of facilities at Bridge Park. The Authority is governed by a seven-member Board of Trustees, four of which are appointed by City Council of the City of Dublin. The Board of Trustees is the governing body of the Authority and possesses its own contracting and budgeting authority, hires and fires personnel, and sets its own rates and fees. The Authority does have a financial benefit/financial burden relationship with the City since the City has pledged tax increment financing revenues to help repay debt used by the developers of the Bridge Park District. Therefore, the Authority has been deemed to be a component unit of the City. However, the Authority’s financial statements are not being reported as a discreetly presented component unit in the City’s financial report because they have been deemed to be immaterial to the City’s financial statements. Financial information can be obtained from the Bridge Park New Community Authority, at 5200 Emerald Parkway, Dublin, Ohio 43017.

### **NOTE T-CHANGE IN ACCOUNTING PRINCIPLES**

#### **Implementation of New GASB Pronouncements**

For 2021, the City has applied GASB Statement No. 95, “*Postponement of the Effective Dates of Certain Authoritative Guidance*” to GASB Statement Nos. 91, 92 and 93, which were originally due to be implemented in 2021 and to GASB Statement No. 87, which was originally due to be implemented in 2020. GASB Statement No. 95 provides temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. This objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

The following pronouncements are postponed by one year and the City has elected delaying implementation until the fiscal year ended December 31, 2022:

- Statement No. 91, *Conduit Debt Obligations*
- Statement No. 92, *Omnibus 2020*
- Statement No. 93, *Replacement of Interbank Offered Rates*

The following pronouncements are postponed by eighteen months and the City has elected delaying implementation until the fiscal year ended December 31, 2022:

- Statement No. 87, *Leases*
- Implementation Guide No. 2019-3, *Leases*

### **NOTE U - COVID-19**

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio’s state of emergency ended in June, 2021 while the national state of emergency continues. During 2021, the City received COVID-19 funding. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the City. The impact on the City’s future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated.

The City’s investment portfolio fluctuates with market conditions, and due to market volatility, the amount of gains or losses that will be realized in subsequent periods, if any, cannot be determined.

### **NOTE V –SUBSEQUENT EVENTS**

In February 2022, the City issued bonds in the amount of \$2,725,000 for the purpose of paying the costs of improving the municipal waterworks system by upgrading the existing Tartan West Booster Station, adding a water quality monitoring unit to the Post Road Booster Station, replacing water lines and installing water line extensions.

## **NOTES TO THE BASIC FINANCIAL STATEMENTS** (Continued)

In February 2022, the City issued bonds in the amount of \$3,460,000 for the purpose of paying the costs of improving the municipal sanitary system by extending certain sewer lines, repairing and lining certain existing sewer lines, reducing inflow and infiltration, and installing new sewer lines, new force mains, a lift station and a pump station.

In February 2022, the City issued bonds in the amount of \$5,700,000 for the purpose of paying a portion of the costs of constructing the Riverside Crossing Park.

In May 2022, City Council passed ordinance 18-22 authorizing the City Manager to enter into a real estate purchase agreement for a parcel of land of approximately 52 acres for the sum of \$7,701,330.

## **CITY OF DUBLIN, OHIO**

### **NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION**

**For the Year Ended December 31, 2021**

#### **NOTE A--TAX BUDGET**

The City is required by state statute to adopt an annual appropriation cash basis tax budget. All funds except agency funds are legally required to be budgeted utilizing encumbrance accounting.

The tax budget is adopted by City Council, after a public hearing is held, by July 15 of each year. The budget is submitted to the Franklin, Delaware and Union County Auditors, as Secretaries to the County Budget Commissions, by July 20 of each year, for the period January 1 to December 31 of the following year. The Franklin County Commission (the Commission) determines if the budget substantiates a need to levy the full amount of authorized property tax rates and reviews revenue estimates. The Commission certifies its actions to the City on or around September 1. As part of this certification, the City receives the official certificate of estimated resources, which states the projected revenue of each fund. On or about January 1, the certificate of estimated resources is amended to include unencumbered fund cash balances at December 31. Prior to December 31, the City must revise its budget so that total contemplated expenditures from any fund during the ensuing total fiscal year will not exceed the amount stated in the certificate of estimated resources.

#### **NOTE B--APPROPRIATIONS**

Total expenditures in any fund did not exceed the available resources, including advances to be repaid, for that fund. City Council is required by Charter to adopt an appropriation ordinance prior to the beginning of the ensuing fiscal year. The appropriation ordinance controls expenditures at the fund and department or major organizational unit level, further classified by office or division, and, within each, the amount appropriated for personal services, other expenses, capital outlay, debt service, and transfers (the legal level of control), and may be amended or supplemented by Council during the year as required. Appropriations within a division may be transferred within the same division with approval of the City Manager so long as the transfer is within the same fund.

Unencumbered appropriations lapse at year-end and may be re-appropriated in the following year's budget. Encumbrances outstanding at year-end are carried forward in the following year. The prior year appropriations corresponding to these encumbrances are also carried forward as part of the budgetary authority for the next year and are included in the revised budget amounts shown in the budget to actual comparisons.

#### **NOTE C--BUDGETARY BASIS AND GAAP BASIS OF ACCOUNTING**

While reporting financial position, and results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis, as provided by law, is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statements of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Non-GAAP Basis) for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and the GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than restricted, committed, or assigned fund balance (GAAP basis).

## NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (Continued)

4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis). Cash is held by the agency fund on behalf of the City on a budget basis and allocated and reported on the balance sheet (GAAP basis) in the appropriate City funds.
5. Budgetary revenues and expenditures of the Accrued Leave Reserve Fund and the Unclaimed Monies Fund are classified to the General Fund for GAAP reporting.

The adjustments necessary to convert the results of operations for the year on the GAAP basis to the budget basis are as follows:

|                                                                          | Net Change in Fund Balance |                     |

### **NOTE D--CONDITION ASSESSMENT SUMMARIES FOR INFRASTRUCTURE**

The City utilizes a computerized pavement management system, implemented in 2010 by an engineering consulting firm that uses data obtained from digital images and analysis of each road's condition to optimize and prioritize the City's road infrastructure maintenance program. The City gathered new pavement condition data in 2015 utilizing a laser crack measuring system (LCMS) method to supplement this data. This system replaced the less-accurate methodology used previously, which was based on visual condition assessments interpreted against a subjective standard. Both systems compile various measures of pavement condition, resulting in a single overall numerical "pavement condition index" (PCI) for each road segment that the City is required to maintain. The PCI scale (or index) is based on one used by the Ohio Department of Transportation. PCIs range from 100 to zero, with a 90 PCI or above equating to pavement in very good condition. A PCI below 55 represents pavement in poor condition that has exceeded its design life. Bridges for which maintenance is the City's responsibility are likewise rated using a system developed by the Federal Highway Administration, which summarizes various condition factors resulting in a single numerical summary rating for each bridge. The bridge condition ratings range from 9 (excellent) to zero (failed). Network wide roadway condition assessments are made at least once every other year and bridge condition assessments are made annually.

It is the City's policy that the average PCI rating of all the city streets is greater than or equal to 75.0 ("good"). The Infrastructure Condition Summary Schedule presents the average PCI ratings of the streets for the latest three assessments which were above 75.0. Likewise, no more than 10% of the City's bridges should have a condition rating of 4.0 ("poor") or worse. In each of the last three rating periods, no less than 58.1% of the roads and 89.3% of the bridges were rated "good" or better. This is attributable to both new construction in expanding the networks and preservation maintenance efforts.

In 2021, 2020, 2019, 2018, and 2017, the City expended \$6,330,653 \$5,032,552, \$6,579,887 \$4,199,077, and \$3,992,014, respectively, towards maintaining its road network.

The required level of expenditures to maintain the established minimum condition level determined to be needed for 2021, 2020, 2019, 2018, and 2017 was \$4,710,763, \$4,137,858, \$4,055,101, \$3,972,344, and \$3,889,586, respectively. In 2016, the amount needed exceeded the amount actually expended by \$549,757. The trend over the last five years has generally been to increase expenditures, which produced an excess of actual expenditures over required expenditures of \$5,368,531. The City expects to continue to expend an amount in excess of the amount required to maintain its streets and bridges at the levels of condition that it has determined meets the needs of the citizens of the City.

## **NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (Continued)**

### **NOTE E—PENSIONS & OTHER POSTEMPLOYMENT BENEFITS (OPEB)**

#### **Pensions:**

#### **OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)**

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2014-2021.

Changes in assumptions:

- There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2016.
- For 2017, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 8.00% down to 7.50%, (b) for defined benefit investments, decreasing the wage inflation from 3.75% to 3.25% and (c) changing the future salary increases from a range of 4.25%-10.05% to 3.25%-10.75%.
- There were no changes in assumptions for 2018.
- For 2019, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date: (a) the assumed rate of return and discount rate were reduced from 7.50% down to 7.20%.
- There were no changes in assumptions for 2020.
- There were no changes in assumptions for 2021.

#### **OHIO POLICE AND FIRE (OP&F) PENSION FUND**

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for 2014-2021.

Changes in assumptions:

- There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2014-2017.
- For 2018, the following were the most significant changes of assumptions that affected the total pension since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 8.25% down to 8.00%, (b) changing the future salary increases from a range of 4.25%-11.00% to 3.75%-10.50%, (c) reduction in payroll increases from 3.75% down to 3.25%, (d) reduction in inflation assumptions from 3.25% down to 2.75% and (e) Cost of Living Adjustments (COLA) were reduced from 2.60% and 3.00% simple to 2.20% and 3.00% simple.
- There were no changes in assumptions for 2019.
- There were no changes in assumptions for 2020.
- There were no changes in assumptions for 2021.

#### **Other Postemployment Benefits (OPEB)**

#### **OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)**

Changes in benefit terms:

- There were no changes in benefit terms from the amounts reported for 2017-2020.
- For 2021, the following were the most significant changes in benefit terms since the prior measurement date: the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care Plan. These changes are effective January 1, 2022 and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in the December 31, 2020 measurement date health care valuation. These changes significantly decreased the total OPEB liability for the measurement date December 31, 2020.

## **NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION (Continued)**

### Changes in assumptions:

- There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2017.
- For 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 4.23% down to 3.85%.
- For 2019, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.85% up to 3.96%, (b) The investment rate of return was decreased from 6.50% percent down to 6.00%, (c) the municipal bond rate was increased from 3.31% up to 3.71% and (d) the health care cost trend rate was increased from 7.50%, initial/3.25%, ultimate in 2028 up to 10.00%, initial/3.25% ultimate in 2029.
- For 2020, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 3.96% up to 3.16%, (b) the municipal bond rate was decreased from 3.71% up to 2.75% and (c) the health care cost trend rate was increased from 10.0%, initial/3.25%, ultimate in 2029 up to 10.50%, initial/3.50% ultimate in 2030.
- For 2021, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.16% up to 6.00%, (b) the municipal bond rate was decreased from 2.75% up to 2.00% and (c) the health care cost trend rate was decreased from 10.00%, initial/3.50%, ultimate in 2030 down to 8.50%, initial/3.50% ultimate in 2035.

### **OHIO POLICE AND FIRE (OP&F) PENSION FUND**

### Changes in benefit terms:

- There were no changes in benefit terms from the amounts reported for 2017-2018.
- For 2019, OP&F changed its retiree health care model from a self-insured health care plan to a stipend-based health care model.
- There were no changes in benefit terms from the amounts reported for 2020.
- There were no changes in benefit terms from the amounts reported for 2021.

### Changes in assumptions:

- There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2017.
- For 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date: (a) DROP interest rate was reduced from 4.50% to 4.00%, (b) CPI-based COLA was reduced from 2.60% to 2.20%, (c) investment rate of return was reduced from 8.25% to 8.00%, (d) salary increases were reduced from 3.75% to 3.25% and (e) payroll growth was reduced from 3.75% to 3.25%.
- For 2019, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.24% up to 4.66%. For 2020, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 4.66% up to 3.56%.
- For 2020, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 4.66% up to 3.56%.
- For 2021, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 3.56% down to 2.96%.

## **DESCRIPTION OF ALL FUNDS**

# **CITY OF DUBLIN**

## **DESCRIPTION OF ALL FUNDS**

### **General Fund** <sup>(1)</sup>

The General fund is the general operating fund of the City and is used to account for all financial resources except those required to be accounted for in another fund.

### **Special Revenue Funds**

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted or committed to expenditures for specified purposes.

#### **Street Maintenance and Repair Fund**

A fund provided to account for the allocation of revenues derived from motor vehicle license fees and gasoline taxes. Expenditures are restricted by state law to maintenance and repair of streets within the City.

#### **State Highway Improvement Fund**

A fund provided to account for the allocation of revenues derived from motor vehicle license fees and gasoline taxes. Expenditures are restricted by state law to maintenance and repair of state highways within the City.

#### **Cemetery Fund**

A fund provided to account for revenue received from the sale of cemetery lots and interment fees. Expenditures are restricted by Section 759.13, Ohio Revised Code, for the maintenance of the City's cemeteries.

#### **Recreation Fund**

A fund provided to account for revenues and expenditures for parks and recreation programs and activities, including the Community Recreation Center.

#### **Safety Fund** <sup>(1)</sup>

A fund provided to account for revenues and expenditures for the operations of the City's Police Department. Major revenue sources are property taxes and subsidies from the General Fund.

#### **Swimming Pool Fund**

A fund provided to account for revenues and expenditures for swimming pool programs and activities, excluding the cost of the swimming pool.

#### **Permissive Tax Fund**

A fund provided to account for permissive tax fees received in addition to the motor vehicle license tax. Expenditures are restricted by Section 4504, Ohio Revised Code, for construction or permanent improvements of the streets and state highways within the City.

#### **Hotel/Motel Tax Fund**

A fund provided to account for 75% of the tax imposed on establishments that provide sleeping accommodations for transient guests. Expenditures are restricted to the advancement of cultural development, beautification of public property, improvement of the historic district and any other project or expenditure which would enhance the City's appeal to visitors and tourists.

## **Special Revenue Funds** (Continued)

### **Enforcement and Education Fund**

A fund provided to account for revenue received from penalties assessed in accordance with violations involving Section 4511.19, Ohio Revised Code. Expenditures are restricted to educating the public of laws governing the operation of a motor vehicle while under the influence of alcohol and other information relating to the operation of a motor vehicle and the consumption of alcoholic beverages.

### **Law Enforcement Trust Fund**

A fund provided to account for all cash or cash proceeds that are a result of contraband property seizures and forfeitures of property, in accordance with Section 2981.13, Ohio Revised Code.

### **Mandatory Drug Fine Fund**

A fund provided to account for revenue from mandatory fines imposed for drug offense convictions in accordance with Section 2925.03, Ohio Revised Code. Expenditures are restricted to law enforcement efforts pertaining to drug offenses.

### **Mayor's Court Computer Fund**

A fund provided to account for an additional fee collected for computerization of the Mayor's Court in accordance with Section 1901.261, Ohio Revised Code.

### **Wireless 9-1-1 System Fund**

A fund to provide for user assessment fees collected on every wireless phone bill to reimburse local public safety answering points for costs associated with receiving 9-1-1 calls placed from wireless phones.

### **Accrued Leave Reserve Fund**

A reserve fund established for the purpose of accumulating resources for the payment of accumulated sick leave, vacation and compensatory time upon termination of employment or retirement as provided for by Section 5705.13(B), Ohio Revised Code. This fund is included with the General Fund for GAAP reporting as it does not have a restricted revenue source.

### **Rings Unitrust Fund**

A fund provided to account for the donation of funds being made to the City as part of the real estate purchase agreement with the Robert W. Rings Charitable Remainder Unitrust. The funds are to be used for creating cultural educational opportunities within the City. A component of the cultural arts programming will offer free or reduced fee arts offerings to underprivileged and/or handicapped youth.

### **CARES Act Fund**

A fund provided to account for the money received through the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) of 2020. The funds are to be used to pay for the costs associated with the impact of the Coronavirus pandemic.

### **Local Fiscal Recovery Fund**

A fund provided to account for the money received through the American Rescue Plan Act (ARP Act) of 2021. The funds are to be used to pay for the costs associated with the impact of the Coronavirus pandemic.

## **Special Revenue Funds** (Continued)

### **Occupancy Deposits Fund**

A fund provided to account for the deposits collected from property owners to permit the owners to occupy new structures while required work is being completed.

### **Visit Dublin Ohio Fund (Formerly the Dublin Convention and Visitor's Bureau)**

A fund provided to account for 25% of the tax imposed on establishments that provide sleeping accommodations for transient guests and is due to the Dublin Visitors and Convention Bureaus as required by state law.

## **Debt Service Funds**

Debt service funds are used to account for principal and interest payments of general obligation bonds and long-term loans of governmental activities.

### **General Obligation Debt Service Fund** <sup>(1)</sup>

A fund provided to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources.

### **Economic Development Bonds Debt Service Fund**

A fund provided to account for the accumulation of resources and payment of revenue bond principal and interest from service payments related to the Bridge Street Parking Garage Structure.

### **Special Assessment Debt Service Fund**

A fund provided to account for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies with governmental commitment.

## **Capital Projects Funds**

Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities other than those financed by Proprietary Funds and Trust Funds.

### **Capital Improvements Tax Fund** <sup>(1)</sup>

A fund provided to account for 25% of the local income tax collected a portion of which will fund capital improvements and a portion utilized to fund long-term debt.

### **Parkland Acquisition Fund**

A fund provided to account for property taxes and development fees collected for the purpose of funding acquisition of recreational facility sites, open space, and/or parkland.

### **Capital Construction Fund** <sup>(1)</sup>

A fund provided to account for the 2012 bond issuance proceeds received, to be expended for related public infrastructure projects, primarily street lighting improvements.

## **Capital Projects Funds** (Continued)

### **Woerner-Temple TIF Fund**

A fund provided to account for the construction of the Woerner-Temple Road extension from Emerald Parkway to Avery Road, in accordance with a Tax Increment Financing Agreement entered into with Duke Realty Limited Partnership.

### **Ruscilli TIF Fund**

A fund provided to account for the construction of Venture Drive in accordance with a tax increment financing agreement entered into with Ruscilli Construction Company, Inc. Profit Sharing Plan and Trust. The original legislation was amended to provide for improvements to Perimeter Drive from Emerald Parkway to Avery-Muirfield

Drive, including the intersection at Avery-Muirfield Drive, and improvements to Avery-Muirfield Drive/Perimeter Loop and Avery-Muirfield Drive/Post Road intersections, and improvements at Perimeter Drive/Commerce Parkway.

### **Pizzuti TIF Fund**

A fund provided to account for the Frantz Road and Metro Place South intersection improvements, a median cut at the intersection of the Millennium and Frantz Road, the acquisition of real estate interest in storm water improvements and features and related open space, and utility burial along Frantz Road in accordance with a tax increment financing agreement entered into with One Metro South Company.

### **Thomas/Kohler TIF Fund**

A fund provided to account for the construction of Phase III of the Emerald Parkway and in conjunction with an agreement between the City, Duke Realty Limited Partnership, F.A. Kohler Company, and RR Partners.

### **McKitrick TIF Fund**

A fund provided to account for the construction of Emerald Parkway Phase I and Phase II as required by a Tax Increment Financing Agreement between the City, Cardinal Health, Inc. and Whitmire Distribution Corporation.

### **Perimeter Center TIF Fund**

A fund provided to account for improving Perimeter Drive and Coffman Road as required by a Tax Increment Financing Agreement with Continental Real Estate Companies. The original legislation was amended to provide for improvements to Perimeter Drive from Emerald Parkway to Avery-Muirfield Drive, including the intersection at Avery-Muirfield Drive, and improvements to Avery-Muirfield Drive/Perimeter Loop and Avery-Muirfield Drive/Post Road intersections, and improvements at Perimeter Drive/Commerce Parkway.

### **Rings Road TIF Fund**

A fund provided to account for the widening of Rings Road, intersection improvements at Rings Road and Blazer Parkway and Rings Road and Frantz Road in accordance with a tax increment financing agreement entered into with Duke Realty Limited Partnership.

### **Perimeter West TIF Fund**

A fund provided to account for the westward extension of Perimeter Drive to the U.S. Route 33/State Route 161/Post Road interchange in accordance with tax increment financing agreements entered into with Ruscilli Development Company, Ltd., BJL Limited Partnership, and Mt. Carmel Health System.

### **Upper Metro Place TIF Fund**

A fund provided to account for the construction of Upper Metro Place and the landscaping improvements along SR161, as required by a tax increment financing agreement entered into with Capital Square, Ltd.

## **Capital Projects Funds** (Continued)

### **Rings/Frantz TIF Fund**

A fund provided to account for the Rings Road bridge widening and the future westward extension of Tuttle Crossing as required by a tax increment financing agreement entered into with Duke-Weeks Realty Corporation.

### **Historic Dublin Parking TIF Fund**

A fund provided to account for improving public parking facilities in Historic Dublin, in partnership with the Dublin City School District.

### **Emerald Parkway Phase 5 TIF Fund**

A fund provided to account for the design and construction of Emerald Parkway from Sawmill Road to Bright Road. (No budgetary schedule is presented for this fund due to no activity).

### **Emerald Parkway Phase 8 TIF Fund**

A fund provided to account for the design and construction of Emerald Parkway from Riverside Drive to Bright Road.

### **Perimeter Loop TIF Fund**

A fund provided to account for the extension of Hospital Drive (formerly known as Perimeter Loop), and the improvements to intersections at Avery-Muirfield Drive and Perimeter Drive and Avery-Muirfield and Perimeter Loop.

### **Tartan West TIF Fund**

A fund provided to account for intersection improvements as identified in the traffic impact study completed pursuant to the Tartan West development plan, as well as to account for additional related public infrastructure improvements, including a water storage tank and booster station.

### **Shamrock Boulevard TIF Fund**

A fund provided to account for the extension of Shamrock Boulevard from its present northern terminus to Village Parkway, as a result of the expansion and upgrade to Wendy's International, Inc.'s existing facility. Also included are various other transportation and utility improvements in the area as outlined in the legislation establishing the TIF district.

### **River Ridge TIF Fund**

A fund provided to account for intersection improvements including additional turn lanes and an upgrade to the existing traffic signal and streetscape improvements at Riverside Drive and State Route 161.

### **Lifetime Fitness TIF Fund**

A fund provided to account for various public infrastructure improvements, including intersection improvements at Sawmill road and Hard Road.

### **COIC Improvement Fund**

A fund provided to account for various public infrastructure improvements including the improvements at the U.S. Route 33/State Route 161/Post Road interchange to accommodate future economic development in the West Innovation District (formerly known as the Economic Advancement Zone, Central Ohio Innovation Center, or COIC). (No budgetary schedule is presented for this fund due to no activity).

## **Capital Projects Funds** (Continued)

### **Irelan Place TIF Fund**

A fund provided to account for the construction of a water line along Irelan Place.

### **Shier-Rings Road TIF Fund**

A fund provided to account for the widening of Shier-Rings Road from Avery Road to Emerald Parkway, including construction of a bikepath.

### **Shamrock Crossing TIF Fund**

A fund provided to account for the extension of Banker Drive and Stoneridge Lane to Shamrock Boulevard, and the extension of Shamrock Boulevard to Village Parkway. Also included are intersection improvements at State Route 161 and Riverside Drive, and various other infrastructure improvements including utility burial.

### **Bridge and High Street TIF Fund**

A fund provided to account for the public improvements related to the development at the Northwest corner of Bridge Street and High Street. These improvements include a public plaza and streetscape improvements, as well as construction of a public parking lot at 35 and 37 Darby Street.

### **Dublin Methodist Hospital TIF Fund**

A fund provided to account for the extension of the west-bound exit lane from US 33 to the Hospital site. Also included are other infrastructure improvements including extending Hospital Drive, improving the Avery Road/Shier-Rings Road intersection, and other related infrastructure improvements.

### **Kroger Centre TIF Fund**

A fund provided to account for the construction of Emerald Parkway from Riverside Drive to Sawmill Road including improvements to Bright Road, Summit View Road, Riverside Drive, and intersection improvements at Sawmill Road and Hard Road. Also included are area stormwater improvements, water and sewer improvements and related appurtenances.

### **Frantz/Dublin Road TIF Fund**

A fund provided to account for the construction of an east-west connector road extending from Frantz Road to Dublin Road (State Route 745), including necessary infrastructure improvements.

### **Delta Energy TIF Fund**

A fund provided to account for the construction of roadway improvements and related appurtenances on Perimeter Drive from Emerald Parkway to Avery-Muirfield Drive, including a roundabout at the intersection of Commerce Parkway and Perimeter Drive. This Fund was established in accordance with the tax increment financing agreement entered into with Delta Energy Holdings, LLC.

### **Bridge Street Fund** <sup>(1)</sup>

A fund provided to account for the construction of public infrastructure improvements, to be made in accordance with the Bridge Street Corridor Vision Plan adopted by City Council.

### **Vrable TIF Fund**

A fund provided to account for the construction of public infrastructure improvements, to be made in accordance with the Bridge Street Corridor Vision Plan adopted by City Council. Projects within this plan are the John Shields Parkway, construction of a roadway between Dale Drive and Tuller Ridge Drive, construction of a roundabout at the intersection of US33/SR161/Riverside Drive and other infrastructure improvements.

## **Capital Projects Funds** (Continued)

### **West Innovation TIF Fund**

A fund provided to account for the construction of public infrastructure improvements related to the West Innovation Job Ready Site including improvements to State Route 161 from the corporate limits to the west to the US 33/Post Road Interchange, construction of roundabouts or other roadway improvements at State Route 161 and Houchard Road, State Route 161 and Cosgray and the internal roadway system serving the businesses within the West Innovation Site

### **Ohio University TIF Fund**

A fund provided to account for the relocation of Eiterman Road, the addition of lanes along US33 and SR161 between I270 and the Avery-Muirfield Drive interchange and reconstruction of the I270/US33 interchange. (No budgetary schedule is presented for this fund due to no activity.)

### **Tuller TIF Fund**

A fund provided to account for the construction of public infrastructure improvements related to the Tuller Flats Project including the construction of John Shields Parkway from Tuller Ridge Drive to Village Parkway as well as Graham Street. Additionally, the City will contribute to the construction of McCune Avenue, Watson Street, and Deardorf Street as part of this project.

### **Nestle TIF Fund**

A fund provided to account for the construction of public infrastructure improvements related to the Nestle USA Project.

### **Bridge Park TIF Fund**

A fund provided to account for the construction of public infrastructure improvements and service payments received within the Bridge Park Development.

### **Innovation TIF Fund**

A fund provided to account for intersection improvements at Emerald Parkway and Shier Rings Road; Shier Rings Road and Wilcox Road; Shier Rings Road and Avery Road; Emerald Parkway and Innovation Drive; and Emerald Parkway and Woerner-Temple Road, as well as the widening of Shier Rings Road from Avery Road to Emerald Parkway and the burial of overhead utility lines.

### **Riviera TIF Fund**

A fund provided to account for the construction of public infrastructure improvements related to the Riviera Development Project in accordance with the Thoroughfare Plan.

### **Penzance TIF Fund**

A fund provided to account for the construction of public infrastructure improvements within the Bridge Park District.

### **H2 Hotel TIF Fund**

A fund provided to account for the construction of various public infrastructure improvements within the Bridge Street District, and service payments received within the Home2 Hotel (H2 Hotel) TIF area (which repealed the existing Cooker TIF in that area).

### **Bridge Park Block Z TIF Fund**

A fund provided to account for the construction of public infrastructure improvements and service payments received within Block Z of the Bridge Park Development.

## **Capital Projects Funds** (Continued)

### **Bridge Park Block A TIF Fund**

A fund provided to account for the construction of public infrastructure improvements such as public roadways, parking garages, and a conference/events center within the Bridge Street District, and service payments received within the Bridge Park Block A area.

### **Bridge Park Incentive District TIF Fund**

A fund provided to account for the construction of public infrastructure improvements and service payments received within the Incentive District established within the Bridge Park Development.

### **The Corners TIF Fund**

A fund provided to account for the construction of various public infrastructure improvements related to the Corners project on Rings Road.

## **Permanent Fund**

Permanent funds are used to account for activities that have a principal amount that cannot be expended. Only the revenue generated by the investment of the principal amount can be expended for the purpose of the fund.

### **Cemetery Perpetual Care Fund**

A fund established in order to set aside funds so that when all the City's cemetery burial lots are sold, there are funds remaining to properly maintain all cemetery lots in perpetuity. Expenditures are restricted by Sections 759.12 and 759.15, Ohio Revised Code, to interest earnings in the fund only.

## **Enterprise Funds**

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent is the costs of providing goods or services to the public on a continuing basis be financed or recovered primarily through user charges.

### **Water Fund**<sup>(1)</sup>

A fund provided to account for the collection of a user surcharge, permit fees and the costs associated with the maintenance and repair of the City's water lines.

### **Sewer Fund**<sup>(1)</sup>

A fund provided to account for capacity charges for connecting into the sewer system and the costs associated with the maintenance and repair of the City's sewer lines.

### **Merchandising Fund**

A fund provided to account for sales of Dublin-related merchandise and related costs. The activity accounted for in this fund was discontinued and in 2021, the fund was dissolved and the remaining balance transferred to the General Fund.

## **Internal Service Funds**

Internal service funds are used to account for the financing of goods or services provided by one department or agency of the City to other departments or agencies on a cost-reimbursement basis. Charges are intended only to recoup the total cost of such services.

### **Employee Benefits Self-Insurance Fund**

A fund provided to account for monies received from other funds as payment for providing medical, dental and vision benefits. The Employee Benefits Self-Insurance Fund may make payments for service provided to employees, for reimbursements to employees who have paid providers, to third party administrators for claim payment or administration, for stop-loss coverage, or any other similar purposes.

### **Workers' Compensation Self-Insurance Fund**

The Worker's Compensation Fund has been established to cover the costs associated with the City's Worker's Compensation coverage under a self-insurance plan.

## **Custodial Funds**

Custodial funds are a type of fiduciary funds that are used to account for assets held by the City as an agent for individuals, private organizations or other governments.

### **Central Ohio Interoperable Radio System Fund**

A fund provided to account for revenues and expenditures of the Central Ohio Interoperable Radio System, established to build and operate a shared emergency radio dispatching network between the City of Dublin, City of Worthington and Delaware County, with the City of Dublin acting as fiscal agent.

### **Property Assessed Clean Energy Fund**

A fund provided to account for the assessments collected on behalf of financing organizations for the Property Assessed Clean Energy Program.

### **Building Standards Surcharges Fund**

A fund provided to account for the buildings standard surcharges collected and due to the State of Ohio.

### **Columbus Sewer Capacity Fund**

A fund provided to account for sewer capacity fees collected and due to the City of Columbus.

### **Deposits Fund**

A fund provided to account for fees collected from customers for fire safety inspections provided by Washington Township and submitted to the Township.

### **Mayor's Court Fund**

A fund provided to account for assets held by the Mayor's Court in a trustee capacity.

### **Bridge Park New Community Authority**

A fund provided to account for charges imposed on establishments in the Bridge Street District that provide sleeping accommodations for transient guests. The charges are imposed by the New Community Authority and collected by the City who remits them to the New Community Authority.

### **Notes to Fund Descriptions**

Note:

- (1) This fund is characterized as a "major fund", as defined by GASB Statement No. 34. The criteria in Statement No. 34 for characterizing a fund as "major" is as follows:
- a) The general fund is always a major fund.
  - b) Total assets and deferred outflows of resources, liabilities and total deferred inflows of resources, revenues or expenditures (excluding extraordinary items) of a fund are at least 10% of the corresponding total for all funds of that fund type (i.e., total governmental or total enterprise funds),  
and
  - c) Total assets and deferred outflows of resources, liabilities and total deferred inflows of resources, revenues or expenditures of a fund are at least 5% of the corresponding total for all governmental and enterprise funds combined.
  - d) Internal service funds and fiduciary funds are excluded from major fund testing.

# STATISTICAL SECTION

## CITY OF DUBLIN

### STATISTICAL SECTION SUMMARY

This section of the City of Dublin's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

#### **Contents**

#### **Schedules**

#### **Financial Trends**

**1 - 4**

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

#### **Revenue Capacity**

**5 - 11**

These schedules contain information to help the reader assess the City's most significant local revenue source, the income tax. Schedules offering information on charges for services, annual service payments from Tax Increment Financing ("TIF") districts, and standardized information on property tax revenues are included in addition to the required schedules.

#### **Debt Capacity**

**12 - 16**

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

#### **Demographic and Economic Information**

**17 - 19**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

#### **Operating Information**

**20 - 22**

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

**Sources:** Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Notes:

- (1) In 2011, GASB 54 was implemented which created new classifications for fund balance restrictions. There was no restatement of fund balances for years prior to 2011 as the relevant information no longer existed and was unavailable.
- (2) In 2015, the Accrued Leave Severance Fund and the Unclaimed Monies Fund were reported as part of the General Fund. The beginning balances of the General Fund and all other governmental funds were restated to reflect that change.

(1) In 2015, the Unclaimed Monies Fund was reported as part of the General Fund.  
The activity in the General Fund was restated to reflect that change.

(2) The amount of capital expenditures used for the calculation for 2020 was  
updated thereby changing the percentage of debt service to noncapital expenditures.

Source: Franklin County Auditor. Data includes assessed value from Franklin, Delaware, and Union counties

Notes:

- (1) Tax Increment Financing (TIF) Districts  
These values are identified as "exempt" values and are therefore not reflected in the values reported by the Franklin County Auditor.  
The reported values are used to calculate estimated annual service payments to be received and are reconciled to the real estate settlements received in March and September (February and August real estate distributions).
- (2) Community Reinvestment Areas (CRAs)  
These values are obtained from the CRA reports prepared by City of Dublin's Division of Economic Development each year for the Tax Incentive Review Council.  
All values have been obtained from, or verified by, the Franklin County Auditor.

Sources: Tax rate sheets from the Franklin County, Delaware County, and Union County Auditors' web sites.

Notes: (1) In 2006 and 2009, Dublin City Council earmarked 0.80 and 0.60 mills, respectively, of property tax revenues generated inside the 10-millage limitation for capital improvement projects.

(2) In 2001, Dublin City Council earmarked 1.75 mills of property tax revenues generated inside the 10-millage limitation for acquisition of parkland. City Council reduced this in 2006 and 2009 to earmark millage for capital improvements.

Sources: Ohio Municipal Advisory Council, City of Dublin, and related entities most recent Comprehensive Annual Financial Report

(1) Represents all governmental debt

(2) Percentages were determined by dividing the assessed valuation of the political subdivision located within the boundaries of the City by the total assessed valuation of the subdivision

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore, responsible for repaying the debt of each overlapping government.

Notes:

- (1) The debt service obligations are retired utilizing revenue sources other than property taxes.  
(2) In 2015, the assessed valuation for each year was moved forward to the next year to reflect the valuation on which taxes were collected for that year.

Source: City of Dublin, various departments

Notes:

- (1) Snow removal data is based on a winter season, e.g. the winter season November, 2011 - April, 2012 is reported as 2011.
- (2) Excludes officer initiated calls, i.e. traffic stops, foot patrols, customer service. Mutual aid jurisdictions.
- (3) Redefined in 2006 to only include programs, lessons, & camps and exclude teams, leagues, and facility group attendance.
- (4) Contract bid price. Actual varies quarterly based on price of gas and landfill fees.
- (5) Criminal charges are incorporated into "Arrests-adult" category beginning in 2011.
- (6) In 2015, the Police Dept. began using the National Incident Based Reporting System rather than the Uniform Crime Reporting system. Arrests are categorized into Group A and Group B offenses. The Group A and Group B categories do not reflect the severity of the offenses.
- (7) 18,000 sq. ft added to the Justice Center in 2016 and the Service Center added 14,000 sq. ft. in 2017.

City of Dublin, various departments

Notes:

- (1) Dublin LLC is a private conduit network which connects locations within Dublin to locations throughout Central Ohio. The City owns one conduit of the Dublin system and purchases fiber for use within Dublin conduits.
- (2) Beginning in 2003 only includes named parks with man-made facilities and excludes green-space-only neighborhood parklands.
- (3) Beginning with 2010, bikepath tunnels and bridges are excluded.
