

## WHAT IS A PUMPTRACK?

A Pumptrack is a progressive kind of structure that uses an up and down 'pumping' motion to propel the bicycle forward instead of pedaling.

Pumptracks are a perfect structure for practicing balance, learning skills and improving confidence on the bike. They are safe and fun to ride for all ages and skill levels. Pumptracks are suitable for bikes of all sizes, skateboards, rollerblades and scooters.

They create a community environment by bridging the generation gap between parents, small children and adolescents. Our structures are modular, flexible and movable to suit any type of terrain and land usage issues and can be made from various kinds of materials to suit the needs of the client and the surroundings.

## CHECK OUT OUR LINEUP!

### Lumberjack Series

The Lumberjack series has a substructure that is made from a marine grade lumber and is topped with our ultra grip composite surface. This surface has a texture to it that means that you can ride no matter what Mother Nature throws at you. Because of the modular design it can easily be rearranged or added to at anytime. This line is ideal for indoor settings, mobile setups, resorts, and bike shops and is easily stored, setup, and transported.

### Blacksmith Series

The Blacksmith Series consists of an ultra-strength reinforced composite framework with the same ultra-grip composite surface as the Lumberjack Series. It can be permanently installed or expanded and reconfigured as desired. This line is ideal for re-purposing a tennis court, parking lot, or any other hard surface. It can also be dropped into an open space, park area, or in conjunction with a skatepark. Because of the completely composite design, it can be installed with surrounding landscape to create a beautifully natural aesthetic. Perfect for municipalities, resorts, camps or bike shops.

### Mason Series

The Mason Series is constructed with high strength precast concrete. We manufacture these structures using precision molds that give you a perfect shape and riding surface. Each piece is the exact same size and shape as the Lumberjack and Blacksmith Series, meaning you get the same amazing ride in a more permanent aesthetically pleasing manner. The Mason Series can be used for repurposing a tennis court, parking lot or any other pad, or it can be placed as a standalone feature with added landscaping. While it is more difficult the Mason Series can be added to or reconfigured at a later date. The Mason Series is perfect for any municipality or resort that is looking for a worry free progressive biking structure.

### Speed Ring

The Speed Ring is the entry level smallest possible track to build with only one possible layout. It is a great "starter" track as it can be added to over the years to become a larger track. This is a perfect track to learn how to ride pumptrack, or fine-tune your skills. Track Length 125'

\$27,500

\$35,000

\$45,000

### Triple Threat

You will have a blast flying around the Triple Threat with its three 60 degree turns and equilateral triangle design. The speed you get from this configuration is where the real fun is at. Ride the Triple Threat clockwise or counter-clockwise to see which direction you are faster. Track Length 158'

\$33,000

\$42,000

\$54,000

### Sidewinder

The Sidewinder delivers turning in both directions and offers multiple layout possibilities with over 200' of track. The Sidewinder is a great track for improving your agility in the corners. Track Length 215'

\$53,000

\$67,000

\$86,000

### Mach 6

The Mach 6 is a pumped up version of The Sidewinder containing 6 berms, over 100' more of track and multiple configurations. Host a time trial and post the fastest times on our facebook page to see how your riders compare to others around the globe. Track Length 330'

\$74,500

\$94,500

\$121,500

### Grand Prix

The name really says it all, as the Grand Prix is the largest package we offer (of course if you want bigger we will be happy to oblige) being longer than a football field yet compact enough to fit in a 115'x88' space. The Grand Prix has numerous layout possibilities and enough parts to create two of our smaller tracks for head-to-head racing. Track Length 440'

\$97,500
