# DUBLIN SPEED MANAGEMENT PROGRAM

City of
Dublin
OHIO, USA

## WE NEED YOUR INPUT!

### Safer, Accessible and Comfortable

Vehicular speed concerns are common feedback Dublin receives from residents. This prompted the update of the Traffic Calming Program to a Speed Management Program. The program provides a framework for a data-driven approach to speed management and aims to:

- Create a safe and comfortable roadway environment for all roadway users.
- Establish thresholds for determining responses to speeding and adding driver feedback signs.
- Explore innovative technology to address speeding.
- Develop a set of tools for the City (across departments) to be able to address speeding concerns in Dublin

Pop-up engagement event at Dublin Market

### Summer/Fall 2022 Public Engagement

Approximately 350 reached to date including:
- Neighborhood email outreach
- Dublin News Now
- Pop-Up Events
- Public Meeting (Aug. 9)
- Online Survey with over 230 responses
- Community Services Advisory Committee Meeting (Sept. 13)

### Late 2022/Early 2023:
- Presentation to City Council
